SSR MINING CELEBRATES 5 MILLION OUNCES OF GOLD PRODUCTION FROM MARIGOLD

DENVER - SSR Mining Inc. (Nasdaq/TSX: SSRM, ASX: SSR) ("SSR Mining" or the "Company") is pleased to announce that the Marigold Mine achieved 5 million ounces of gold production on December 30, 2024. Marigold has been in continuous operation for more than 35 years and has produced more than 2 million ounces of gold since its acquisition by SSR Mining in 2014, including a record 278,000 ounces of gold production in 2023.

Rod Antal, Executive Chairman of SSR Mining, said, "We are very proud of the Marigold team for this significant milestone. Producing five million ounces of gold over 35 years of continuous operations is a testament to the quality of the Marigold mine and its team. Of note, Marigold still hosted nearly 3 million ounces of Mineral Reserves as of December 31, 2023, supporting a mine life of at least 9 years. In 2024, we targeted approximately \$10 million in growth expenditures at Marigold as we continue to invest meaningfully in mine life extension opportunities at the mine, including at the Buffalo Valley project. We look forward to many more years of safe, responsible and successful operations at Marigold going forward."
