

Brookfield Renewable Announces Early Termination Of Existing Normal Course Issuer Bid And Intention To Make New Normal Course Issuer Bid

All amounts in US dollars unless otherwise indicated

BROOKFIELD, News, Dec. 10, 2019 -- Brookfield Renewable Partners L.P. (TSX: BEP.UN; NYSE: BEP) (“**Brookfield Renewable**”) today announced that it has terminated its existing normal course issuer bid for its limited partnership units (“**Units**”) effective following the close of markets on December 11, 2019 and that the Toronto Stock Exchange (the “**TSX**”) has accepted a notice filed by Brookfield Renewable of its intention to commence a new normal course issuer bid for its Units. Brookfield Renewable believes that in the event that its Units trade in a price range that does not fully reflect their intrinsic value, the acquisition of Units may represent an attractive use of available funds.

Brookfield Renewable is authorized to repurchase up to 8,900,000 Units, representing approximately 5% of its issued and outstanding Units. At the close of business on December 6, 2019, there were 178,945,449 Units issued and outstanding. Under the normal course issuer bid, Brookfield Renewable may purchase up to 47,001 Units on the TSX during any trading day, which represents 25% of the average daily trading volume of 188,006 Units on the TSX for the six months ended November 30, 2019, calculated in accordance with the rules of the TSX. Repurchases are authorized to commence on December 12, 2019 and will terminate on December 11, 2020, or earlier should Brookfield Renewable complete its repurchases prior to such date.

Under its existing normal course issuer bid that commenced on December 31, 2018 and would have terminated on December 30, 2019, Brookfield Renewable previously sought and received approval from the TSX to purchase up to 8,900,000 Units. Brookfield Renewable has not purchased any Units under its existing normal course issuer bid in the past 12 months.

All purchases will be made through the facilities of the TSX, the NYSE and/or Canadian and U.S. alternative trading systems, if eligible, and all Units acquired under the normal course issuer bid will be cancelled. Repurchases will be subject to compliance with applicable United States federal securities laws, including Rule 10b-18 under the United States Securities Exchange Act of 1934, as amended, as well as applicable Canadian securities laws.

From time to time, when Brookfield Renewable does not possess material non-public information about itself or its securities, it may enter into an automatic purchase plan with its broker to allow for the purchase of Units, subject to certain trading parameters, at times when Brookfield Renewable ordinarily would not be active in the market due to its own internal trading blackout periods and insider trading rules or otherwise. Any such plans entered into with Brookfield Renewable's broker will be adopted in accordance with applicable Canadian and U.S. securities laws including the requirements of Rule 10b5-1 under the United States Securities Exchange Act of 1934, as amended. Outside of these periods, Units will be repurchased in accordance with management's discretion and in compliance with applicable law.

Brookfield Renewable Partners

Brookfield Renewable Partners operates one of the world's largest publicly traded, pure-play renewable power platforms. Our portfolio consists of hydroelectric, wind, solar and storage facilities in North America, South America, Europe and Asia, and totals over 18,000 megawatts of installed capacity and an 8,000 megawatt development pipeline. Brookfield Renewable is listed on the New York and Toronto stock exchanges. Further information is available at <https://bep.brookfield.com>. Important information may be disseminated exclusively via the website; investors should consult the site to access this information.

Brookfield Renewable is the flagship listed renewable power company of Brookfield Asset Management, a leading global alternative asset manager with over \$500 billion of assets under management.
