# Colliers extends and increases credit facility to US\$1.5 billion

**Additional capacity provides greater flexibility for growth; sustainability feature aligns with ESG goals**

**TORONTO**, Canada, May 27, 2022 – Colliers International Group Inc. (TSX and NASDAQ: CIGI) ("Colliers") announced today that it has extended and increased its unsecured multi-currency revolving credit facility (the "Credit Facility") for a new five-year term maturing in May 2027. The prior credit facility had a maturity of April 2024. Borrowing capacity under the new Credit Facility has been increased to \$1.5 billion, up from \$1.0 billion. Financial covenants under the Credit Facility remain unchanged. The new Credit Facility is sustainability-linked and includes pricing adjustments tied to the achievement of performance targets over time aligned with Colliers' *Elevate the Built Environment* framework. These targets include: 1) reducing greenhouse gas emissions consistent with the Science-Based Targets initiative ("SBTi"); 2) increasing female representation in management roles and 3) ensuring Colliers-occupied offices obtain the WELL Health-Safety certification.

The new Credit Facility was led by Bank of Montreal and was syndicated to ten additional banks including HSBC Bank, JP Morgan Chase Bank, Mizuho Bank, U.S. Bank, Toronto-Dominion Bank, Bank of America, Bank of Nova Scotia, Canadian Imperial Bank of Commerce, Wells Fargo Bank and National Bank of Canada. The Credit Facility ranks pari passu with Colliers' existing privately placed fixed rate senior notes maturing in 2028 and 2031.

"The new Credit Facility provides us with additional capacity and greater flexibility as we continue to execute on our growth plan and will be used to fund both existing operations and strategic acquisitions globally," said Christian Mayer, Chief Financial Officer. "We are pleased that all eleven members of our bank group have extended and increased their participation in our Credit Facility, signaling their support and confidence in our proven track record and prospects for the future," he concluded.
