Description of Business

Oriana was incorporated under the Business Corporations Act (British Columbia) on June 9, 2011. The Company is listed as a capital pool company (“CPC”), on the TSX Venture Exchange (the “Exchange”). The common shares of the Company were listed for trading on the Exchange on October 3, 2012 and commenced trading at the opening of trading on October 4, 2012 under the symbol OUP.P.

Pursuant to the CPC Policy, the Company was required to complete a Qualifying Transaction by January 5, 2015, subject to the approval of the Exchange, or receive the approval of its shareholders to transfer its listing to NEX board of the Exchange (“NEX”). On December 12, 2014, the Company obtained the necessary shareholder approval to transfer its listing to NEX and cancel 3,500,000 Seed Shares (as defined by the policies of the Exchange) held by non-arm's length parties to Oriana. These shares were previously held in escrow and were cancelled in accordance with section 11.2(ii) of the CPC Policy on December 18, 2014.

On December 23, 2014, the Company announced that it had applied for a transfer of its listing to the NEX. The Exchange accepted Oriana's application for a transfer to NEX where it will remain suspended as it pursues its Qualifying Transaction. The trading symbol for Oriana changed from OUP.P to OUP.H.

As at March 31, 2017, the Company had no business operations. As a CPC, the Company's business objective will be to identify and evaluate assets or businesses with a view to potential acquisition or participation by completing a Qualifying Transaction (as defined in Exchange Policy 2.4) subject, in certain cases, to shareholder approval and acceptance by the Exchange. The Company has neither a history of earnings nor has it paid any dividends and it is unlikely to pay dividends or enjoy earnings in the immediate or foreseeable future. There is no assurance that the Company will identify and successfully acquire businesses or assets that will produce a profit. Moreover, if a potential business or asset is identified which warrants acquisition or participation, additional funds may be required to complete the acquisition or participation and the Company may not be able to obtain such financing on terms which are satisfactory to the Company.

Operational Highlights

On July 22, 2015, the Company entered into a letter of intent (the "LOI") for a business combination with Graphene Lighting PLC, a corporation existing under the laws of England and Wales, that would result in reverse take-over of Oriana on the Exchange. The transaction was intended to constitute Oriana's qualifying transaction under the policies of the Exchange (the "Qualifying Transaction"). On August 22, 2016, the Company announced that it will no longer be proceeding with the Transaction with Graphene Lighting PLC.

Financial Highlights

Financial Performance

Oriana's net loss totaled \$11,263 for the three months ended March 31, 2017, with basic and diluted loss per share of \$0.00. This compares with a net loss of \$4,935 with basic and diluted loss per share of \$0.00 for the three months ended March 31, 2016.

Net loss for the three months ended March 31, 2017 related to professional fees of \$8,317 (three months ended March 31, 2016 - \$2,128) and general and administrative of \$2,946 (three months ended March 31, 2016 - \$2,807).

The increase in professional fees of \$6,189 is primarily as a result of the adjustment in legal expenses incurred in the three months ended March 31, 2016.

Liquidity and Capital Resources

The Company reported working capital as at March 31, 2017 of \$142,106 (June 30, 2016 - \$173,712) and cash of \$292,961 (June 30, 2016 - \$328,844).

The Company funds its activities through equity financing. As of March 31, 2017, the Company raised approximately \$500,000 in initial seed financing through the issuance of common shares in the fiscal year ended June 30, 2012 and \$300,000 through its IPO in the year ended June 30, 2013 to fund its operations, which at this time principally consists of identifying and completing a Qualifying Transaction.

The cash on hand as at March 31, 2017 is expected to be sufficient to meet the Company's liquidity requirements until a Qualifying Transaction is completed; however, upon completion of the Qualifying Transaction additional capital may be necessary.

The Company has no credit facilities with financial institutions. Accordingly its financial instruments consist of cash, amounts receivable and accounts payable and accrued liabilities. Unless otherwise

noted, the Company does not expect to be exposed to significant interest, currency or credit risks arising from these financial instruments. The Company estimates that the fair value of these financial instruments approximates their carrying values because of their short term nature.

At this time, the Company is not anticipating an ongoing profit from operations, therefore it will rely on its ability to obtain equity or debt financing for growth. The Company may need additional capital, and may raise additional funds should its Board deem it advisable.

Cash Restriction

Pursuant to policy 2.4 of the Exchange, the proceeds raised from the issuance of common shares may only be used to identify and evaluate assets or businesses for future investment, with the exception that not more than the lesser of 30% of the gross proceeds from the issuance of shares or \$210,000 may be used to cover prescribed costs of issuing the common shares or administrative and general expenses of the Company not related to the identification and evaluation of a Qualifying Transaction. As of March 31, 2017, the Company has not exceeded this limit.

Related parties include the Board of Directors, officers, close family members and enterprises that are controlled by these individuals as well as certain persons performing similar functions.

There were no related party transactions during the periods ended March 31, 2017 and 2016.

To the knowledge of directors and officers of the Company, the remainder of the Company's outstanding common shares are widely held.

Risks and Uncertainties

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Please refer to the section entitled "Risks and Uncertainties" in the Company's Annual MD&A for the fiscal year ended June 30, 2016, available on SEDAR at www.sedar.com.

Potential Dilution

The issue of common shares of the Company upon the exercise of the options will dilute the ownership interest of the Company's current shareholders. The Company may also issue additional option and warrants or additional common shares from time to time in the future. If it does so, the ownership interest of the Company's then current shareholders could also be diluted.

The unaudited condensed interim consolidated financial statements were prepared by the Company's management in accordance with Canadian generally accepted accounting principles.
