### Non-IFRS Measures

This MD&A includes certain measures which have not been prepared in accordance with IFRS such as Free cash flow available to shareholders.

Free cash flow available to shareholders "FCFA2S" refers to net cash flows from operating activities less interest paid on lease obligations, interest paid on other facilities, credit facility transaction costs, repayments of lease obligations, and property and equipment purchased, and includes interest and dividends received. The portion of this amount applicable to non-controlling interests is then deducted. We believe that FCFA2S is useful supplemental information as it provides an indication of the uncommitted cash flow that is available to shareholders if we do not make any acquisitions, or investments, and do not repay any debts. While we could use the FCFA2S to pay dividends or repurchase shares, our objective is to invest all of our FCFA2S in acquisitions which meet our hurdle rate.

FCFA2S is not a recognized measure under IFRS and, accordingly, readers are cautioned that FCFA2S should not be construed as an alternative to net cash flows from operating activities. See “Results of Operations—Free cash flow available to shareholders” for a reconciliation of FCFA2S to net cash flows from operating activities.

### **Overview**

We acquire, manage and build vertical market software (“VMS”) businesses, primarily located in Europe. Generally, these businesses provide mission critical software solutions that address the specific needs of our customers in particular vertical markets. Our focus on acquiring businesses with growth potential, managing them well and then building them, has allowed us to generate significant cash flows and revenue growth during the past several years.

Our revenue consists primarily of software license fees, maintenance and other recurring fees, professional service fees and hardware sales. Software license revenue is comprised of license fees charged for the use of our software products generally licensed under multiple-year or perpetual arrangements. Maintenance and other recurring revenue primarily consists of fees charged for customer support on our software products post-delivery and also includes, to a lesser extent, recurring fees derived from software as a service, subscriptions, combined software/support contracts, transaction-related revenues, and hosted products. Maintenance and other recurring fee arrangements generally include rights to certain product updates “when and if available”. Professional service

revenue consists of fees charged for implementation and integration services, customized programming, product training and consulting. Hardware sales include the resale of third party hardware that forms part of our customer solutions, as well as sales of customized hardware assembled internally. Our customers typically purchase a combination of software, maintenance, professional services and hardware, although the type, mix and quantity of each vary by customer and by product.

Expenses consist primarily of staff costs, the cost of hardware, third party licenses, maintenance and professional services to fulfill our customer arrangements, travel and occupancy costs, depreciation and other general operating expenses.

## Comparison of the three and six month periods ended June 30, 2021 and 2020

### Revenue:

Total revenue for the quarter ended June 30, 2021 was €178.2 million, an increase of 54%, or €62.6 million, compared to €115.6 million for the comparable period in 2020. For the first six months of 2021 total revenues were €357.8 million, an increase of 52%, or €122.5 million, compared to €235.4 million for the comparable period in 2020. The increase for both the three and six month periods compared to the same periods in the prior year is primarily attributable to growth from acquisitions as the Company experienced organic growth of 8% and 7% respectively. For acquired companies, organic growth is calculated as the difference between actual revenues achieved by each company in the financial period following acquisition compared to the estimated revenues they achieved in the corresponding financial period preceding the date of acquisition by the Company.

**Amortization of intangible assets** – Amortization of intangible assets increased 67% or €8.3 million for the quarter ended June 30, 2021 and 70% or €16.9 million for the six months ended June 30, 2021 over the same periods in 2020. The increase in amortization expense for the three and six months ended June 30, 2021 is primarily attributable to an increase in the carrying amount of our intangible asset balance over the twelve-month period ended June 30, 2021 as a result of acquisitions completed during this twelve-month period.

**Redeemable preferred securities expense (income)** – On January 4, 2021 and January 5, 2021, the Company completed the Combination (see “Corporate Reorganization and Acquisition of Topicus.com B.V.”). In connection with the Combination, the Company issued 39,412,385 Preferred Shares to CSI and 19,665,642 Topicus Coop Preference Units to the Joday Group, and in connection with the acquisition of Topicus.com B.V. on January 5, 2021, the Company issued 5,842,882 Topicus Coop Preference Units to Ijssel, collectively the “Preferred Securities”. The Preferred Securities are non-voting and under certain conditions, prior to the Notification of Conversion (as defined below), were redeemable at the option of the holder for a redemption price of approximately €19.06 per security. The redemption price could either be settled in cash or through the issuance of a variable number of Subordinate Voting Shares or Topicus Coop Ordinary Units, as applicable, of equal value, or any combination thereof. The Preferred Securities are also convertible into Subordinate Voting Shares or Topicus Coop Ordinary Units, as applicable, at a conversion ratio of 1:1. The Preferred Securities holders will also be entitled to a fixed annual cumulative dividend of 5% per annum on the initial Preferred Securities value of approximately €19.06 per security.

The Preferred Securities had been recorded at fair value at the end of each reporting period until the Notification of Conversion. The change in fair value of the Preferred Securities was recorded as redeemable preferred securities expense (income) in the condensed consolidated interim statements of income (loss) up to the date of the Notification of Conversion.

During the three months ended June 30, 2021, the Preferred Securities reached the Mandatory Conversion Moment (as described in Note 9 to the Company’s Unaudited Condensed Consolidated Interim Financial Statements for the three and six month periods ended June 30, 2021). As a result of reaching the Mandatory Conversion Moment, the Preferred Security holders notified Topicus that they were electing to convert their Preferred Securities into Subordinated Voting Shares or Topicus Coop Ordinary Units, as applicable, which conversion would become effective on February 1, 2022 (“Notification of Conversion”). On each date that the Company received the Notification of Conversion from the Preferred Security holders, the Preferred Securities were re-classified from a liability to equity because the Preferred Securities were no longer redeemable for cash or through the issuance of Subordinate Voting Shares or Topicus Coop Ordinary Units, as applicable, of equal value, or any combination

thereof. Following receipt of the Notice of Conversion, the holders of the Preferred Securities are required to convert their Preferred Securities to Subordinated Voting Shares or Topicus Coop Ordinary Units, as applicable, on February 1, 2022, however, they may choose to convert prior to February 1, 2022 pursuant to the Preferred Share Conversion Right or Topicus Coop Preference Unit Conversion Right, as applicable (as defined in Note 9 to the Company's Unaudited Condensed Consolidated Interim Financial Statements for the three and six month periods ended June 30, 2021). On the Notification of Conversion date, the Company accrued the expected dividend to be paid relating to the period from the Notification of Conversion date to the expected conversion date of February 1, 2022. The dividend to be paid relating to this period has been recorded directly in equity (non-controlling interest).

As noted above, the fair value of the Preferred Securities had been recorded at fair value at the end of each reporting period until the Notification of Conversion. Based on the Preferred Securities conversion right, the fair value of the Preferred Securities was primarily dependent on the price movement of Topicus' Subordinate Voting Shares. At March 31, 2021 the market price of Topicus' Subordinate Voting Shares closed at CAD\$82.54 or approximately €55.89. The increase in value from €19.06 to €55.89 multiplied by the 64.9 million Preferred Securities outstanding equalled approximately €2,391.2 million. The Notifications of Conversion were received from the various securities holders between the dates of May 3, 2021 to May 27, 2021. The weighted average closing market price (based on the number of securities associated with each Notification of Conversion) of Topicus' Subordinate Voting Shares for that period was CAD\$79.98 or approximately €54.16. The decrease in value from €55.89 to €54.16 multiplied by the 64.9 million Preferred Securities outstanding equalled approximately €112.4 million. The net increase for the six months ended June 30, 2021 was therefore €2,278.7 million (€2,391.2 million - €112.4 million). The difference between the decrease of €112.4 million and increase of €2,278.7 million and the fair value adjustment of €154.6 million (decrease) and €2,302.2 million (increase) for the three and six month periods ended June 30, 2021 primarily relates to the impact of share price volatility and optionality and the accrued dividend of €9.0 million and €23.7 million for each respective period.

Further descriptions of the significant terms and conditions of the Preferred Securities are described in Note 9 to the Company's Unaudited Condensed Consolidated Interim Financial Statements for the three and six month periods ended June 30, 2021.

**Impairment of intangible and other non-financial assets** – An impairment expense of €1.6 million was recorded for the three month and six month periods ended June 30, 2021 with no similar expense recorded in 2020. The 2021 expense relates to a business acquired in 2020 that has been unable to achieve the goals established in the associated investment thesis and is not related to COVID-19.

**Finance and other expense (income)** – Finance and other expense for the three and six months ended June 30, 2021 was €2.9 million and €5.9 million respectively, compared to €1.3 million and €3.3 million for the same periods in 2020. The increases are primarily a result of an increase in the interest expense on debt in 2021 as compared to 2020.

**Income taxes** – We operate throughout Europe and we calculate our tax provision in each of the jurisdictions in which we conduct business. Our effective tax rate on a consolidated basis is therefore affected by the realization and anticipated relative profitability of our operations in those various jurisdictions, as well as different tax rates that apply and our ability to utilize tax losses and other credits. For the quarter ended June 30, 2021, income tax expense increased €1.5 million to €4.9 million compared to €3.3 million for the same period in 2020. During the six months ended June 30, 2021, income tax expense increased €2.1 million to €9.4 million compared to €7.3 million for the same period in 2020. Current tax expense has historically approximated our cash tax expense, however, the quarterly expense can sometimes fall outside of the annual range due to adjustments to prior period provisions. Current tax expense reflects gross taxes before the application of R&D tax credits which are classified as part of "other, net" expenses in the condensed consolidated statements of income.

The Company is subject to tax audits in the countries in which it carries on business. These tax audits could result in additional tax expense in future periods relating to historical filings. Reviews by tax authorities generally focus on, but are not limited to, the validity of the Company's inter-company transactions, including financing and

transfer pricing policies which generally involve subjective areas of taxation and a significant degree of judgement. If any of these tax authorities are successful with their challenges, the Company's income tax expense may be adversely affected and the Company could also be subject to interest and penalty charges.

Net Income (Loss) per Share:

Net income for the quarter ended June 30, 2021 was €168.8 million compared to net income of €14.1 million for the same period in 2020 primarily resulting from the €154.6 million redeemable preferred securities income, €163.6 million of which is non-cash related. On a per share basis, this translated into net income per basic share of €2.97 and diluted share of €0.11 in the quarter ended June 30, 2021 compared to net income per basic share of €0.24 and diluted share of €0.12 for the same period in 2020. Diluted shares outstanding increased from 129.3 million to 129.8 million for the quarter ended June 30, 2021. For the six months ended June 30, 2021, net loss was €2,267.4 million or a loss €40.54 per basic and diluted share compared to income of €31.6 million or €0.53 per basic share and €0.27 per diluted share for the same period in 2020.

Net cash flows from operating activities ("CFO"):

For the quarter ended June 30, 2021, CFO were negative €34.6 million compared to negative €8.3 million for the same period in 2020. Many of the businesses invoice customers for annual software maintenance fees in Q1 each year resulting in a disproportionate amount of cash being received in the first quarter as compared to the remaining three quarters. For the six months ended June 30, 2021, CFO increased €13.1 million to €125.2 million compared to €112.1 million for the same period in 2020 representing an increase of 12%.

Free cash flow available to shareholders ("FCFA2S"):

For the quarter ended June 30, 2021, FCFA2S was negative €25.4 million compared to negative €8.5 million for the same period in 2020. For the six months ended June 30, 2021, FCFA2S decreased €1.5 million to €66.8 million compared to €68.2 million for the same period in 2020 representing a decrease of 2%.

We do not generally experience significant seasonality in our operating results from quarter to quarter. However our quarterly results may fluctuate as a result of the various acquisitions which may be completed by the Company in any given quarter. We may experience variations in our net income on a quarterly basis depending upon the timing of certain expenses or gains, which may include changes in provisions, acquired contract liabilities, and gains or losses on the sale of financial and other assets. The redeemable preferred securities expense was primarily dependent on the price movement of Topicus' Subordinate Voting Shares. Material swings in the price had a material impact on quarterly operating results.

## Liquidity

Our net debt position (bank indebtedness excluding capitalized transaction costs less cash) increased by €66.8 million to €65.2 million in the six months ended June 30, 2021, resulting from the net capital deployed on acquisitions exceeding cash flows from operations. Cash increased by €9.6 million to €65.2 million at June 30, 2021 compared to €55.6 million at December 31, 2020 and bank indebtedness increased by €76.4 million to €130.4 million at June 30, 2021 compared to €54.0 million at December 31, 2020.

Total assets increased €304.0 million, from €641.1 million at December 31, 2020 to €945.1 million at June 30, 2021. The increase is primarily due to the €241.9 million increase in intangible assets.

Current liabilities increased €158.5 million, from €216.9 million at December 31, 2020 to €375.4 million at June 30, 2021. The increase is primarily due to an increase in deferred revenue of €88.5 million and an increase in redeemable preferred securities of €66.6 million. The redeemable preferred securities liability primarily relates to the accrued dividend on the Preferred Securities expected to be paid in February 2022.

### Net Changes in Cash Flows

The net cash flows from operating activities were €125.2 million for the six months ended June 30, 2021. The €125.2 million provided by operating activities resulted from negative €2,267.4 million in net income plus €2,372.2 million of non-cash adjustments to net income and €41.4 million of cash from non-cash operating working capital offset by €21.1 million in taxes paid.

The net cash flows from financing activities for the six months ended June 30, 2021 were €7.3 million, which is mainly a result of a net increase in bank indebtedness of €75.9 million offset by €54.6 million in dividends paid.

The net cash flows used in investing activities in the six months ended June 30, 2021 were €122.8 million. The cash used in investing activities was primarily due to acquisitions for an aggregate of €135.2 million (including payments for holdbacks relating to prior acquisitions, less the additional subscription amount of €27.6 million received by Ijssel related to the acquisition of Topicus.com B.V.) offset by €14.2 million of acquired cash.

We believe we have sufficient cash and available credit capacity to continue to operate for the foreseeable future. Generally, our VMS businesses operate with negative working capital as a result of the collection of maintenance payments and other revenues in advance of the performance of the related services. As such, management anticipates that it can continue to grow the business organically without any additional funding. If we

continue to acquire VMS businesses we may need additional external funding depending upon the size and timing of the potential acquisitions.

## **Capital Resources and Commitments**

### Credit Facility

On July 7, 2017, a subsidiary of the Company entered into a credit facility (the “Credit Facility”) with a number of European financial institutions. Under this facility, the Company is able to borrow up to €300 million under a multicurrency revolving loan facility and up to €50 million under an additional uncommitted term loan facility. The Credit Facility has a term of seven years and bears interest at a rate calculated at EURIBOR plus interest rate spreads based on a leverage table. The Credit Facility is collateralized by substantially all of the assets owned by the Company and its subsidiaries, except for the entities securing amounts outstanding under the “Term Loans” defined below. The Credit Facility contains standard events of default which if not remedied within a cure period would trigger the repayment of any outstanding balance. As at June 30, 2021, €30.0 million had been drawn from the Credit Facility. Transaction costs associated with the Credit Facility are being amortized through profit or loss using the effective interest rate method.

### Term Loans

Certain of the Company’s subsidiaries have entered into term debt facilities (“Term Loans”) with various financial institutions. Topicus does not guarantee the debt of these subsidiaries, nor are there any cross-guarantees between subsidiaries. The credit facilities are collateralized by substantially all of the assets of the borrowing entity and its subsidiaries. The credit facilities typically bear interest at a rate calculated using an interest rate index plus a margin. The financing arrangements for each subsidiary typically contain certain restrictive covenants, which may include limitations or prohibitions on additional indebtedness, payment of cash dividends, redemption of capital, capital spending, making of acquisitions and sales of assets. In addition, certain financial covenants must be met by those subsidiaries that have outstanding debt.

The Term Loans comprise the following:

(€ in millions)	
Principal outstanding at June 30, 2021 (and equal to fair value)	100.4
Deduct: Carrying value of transaction costs included in debt balance	(3.7)
<b>Carrying value at June 30, 2021</b>	<b>96.7</b>

### Other Commitments

Commitments include operating leases for office equipment and facilities, letters of credit and performance bonds issued on our behalf by financial institutions in connection with facility leases and contracts with public sector customers. Also, occasionally we structure some of our acquisitions with contingent consideration based on the future performance of the acquired business. The fair value of contingent consideration recorded in our statement of financial position was €3.9 million at June 30, 2021. Aside from the aforementioned, we do not have any other business arrangements, derivative financial instruments, or any equity interests in non-consolidated entities that would have a significant effect on our assets and liabilities as at June 30, 2021.

### **Off-Balance Sheet Arrangements**

As a general practice, we have not entered into off-balance sheet financing arrangements. Except for short term leases, leases of low value assets, and letters of credit, all of our liabilities and commitments are reflected as part of our statement of financial position.

### **Proposed Transactions**

We seek potential acquisition targets on an ongoing basis and may complete several acquisitions in any given fiscal year.

## **Risks and Uncertainties**

The Company's business is subject to a number of risk factors which are described in the final prospectus of Topicus dated December 18, 2020. Additional risks and uncertainties not presently known to us or that we currently consider immaterial also may impair our business and operations and cause the price of the common shares to decline. If any of the noted risks actually occur, our business may be harmed and the financial condition and results of operations may suffer significantly. In that event, the trading price of the common shares could decline, and shareholders may lose all or part of their investment.

The Company is closely monitoring the impact of the 2019 novel coronavirus, or COVID-19, on all aspects of its business. COVID-19 was declared a global pandemic by the World Health Organization on March 11, 2020. The COVID-19 pandemic has had disruptive effects in countries in which the Company operates and has adversely impacted some of its business units' operations to date, including through the cancellation by certain customers of their ongoing software maintenance contracts and the suspension or cancellation of new software purchases. The pandemic may also have an adverse impact on many of the Company's customers, including their ability to satisfy ongoing payment obligations to the Company, which could increase the Company's bad debt exposure. The COVID-19 pandemic did not materially impact the Company's results of operations, cash flows or financial position for the three and six month periods ended June 30, 2021, however, the future impacts of the pandemic and any resulting economic impact are largely unknown and rapidly evolving. It is possible that the COVID-19 pandemic, the measures taken by the governments of countries affected and the resulting economic impact may adversely affect the Company's results of operations, cash flows and financial position as well as its customers in future periods, and this impact could be material. As of the date hereof, there are no known or anticipated COVID-19 related impacts on the Company's business or operations.
