NEWS RELEASE

K92 MINING ANNOUNCES VOTING RESULTS OF ANNUAL GENERAL MEETING OF SHAREHOLDERS

Vancouver, British Columbia, June 30, 2023 - K92 Mining Inc. (“K92” or the “Company”) (TSX: KNT; OTCQX: KNTNF) is pleased to announce the voting results of its 2023 annual general and special meeting (“AGM”) of shareholders that was held today as a virtual and in-person event. All of the resolutions proposed at the meeting were duly passed.

A total of 161,634,701 common shares, representing 68.99% of the Company’s issued and outstanding common shares as at the record date were voted. All of the Company’s seven director nominees were elected and detailed results of the votes on directors are shown below:

| Name of Nominee | Votes For | | Votes Withheld | |
|------------------|-------------|-------|----------------|------|
| | Number | % | Number | % |
| Mark Eaton | 147,986,707 | 98.30 | 2,556,919 | 1.70 |
| Anne E. Giardini | 140,674,924 | 93.45 | 9,868,702 | 6.55 |
| Saurabh Handa | 146,371,982 | 97.23 | 4,171,644 | 2.77 |
| Cyndi Laval | 149,958,586 | 99.61 | 585,040 | 0.39 |
| Nan Lee | 149,952,856 | 99.61 | 590,770 | 0.39 |
| John D. Lewins | 143,697,396 | 95.45 | 6,846,230 | 4.55 |
| Graham Wheelock | 148,012,305 | 98.32 | 2,531,321 | 1.68 |

Shareholders also voted in favour of the following matters:

- Set the number of directors at seven (7);
- Re-appointed PricewaterhouseCoopers LLP as auditor of the Company for the ensuing year and authorize the directors to fix the auditor’s remuneration;
- Approved the Amended Share Compensation Plan; and
- Approved the non-binding advisory resolution accepting the Company’s approach to executive compensation.

| Matter | Votes For | | Votes Against | |
|---|-------------|-------|---------------|-------|
| | Number | % | Number | % |
| Number of Directors (7) | 161,526,401 | 99.93 | 108,300 | 0.07 |
| Appoint Auditors | 161,325,808 | 99.81 | 308,893 | 0.19 |
| Amended Share Compensation Plan | 132,682,737 | 88.14 | 17,860,889 | 11.86 |
| Advisory Vote on the Executive Compensation | 145,393,354 | 96.58 | 5,150,272 | 3.42 |

All seven directors will serve on the Company's Board of Directors until the next annual meeting of shareholders or until their successors are elected or appointed.

Further details on the above matters are set forth in the Company's meeting materials, including the Management Information Circular dated May 19, 2023, that are accessible on K92's website at www.k92mining.com and under the Company's issuer profile on SEDAR at www.sedar.com.

Final voting results on all matters voted on at the AGM are also contained in the Report on Voting Results filed under the Company's profile on the SEDAR website.

About K92

K92 Mining Inc. is engaged in the production of gold, copper and silver at the Kainantu Gold Mine in the Eastern Highlands province of Papua New Guinea, as well as exploration and development of mineral deposits in the immediate vicinity of the mine. The Company declared commercial production from Kainantu in February 2018 and is in a strong financial position. A maiden resource estimate on the Blue Lake porphyry project was completed in August 2022. K92 is operated by a team of mining company professionals with extensive international mine-building and operational experience.

On Behalf of the Company,

John Lewins, Chief Executive Officer and Director

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION: This news release includes certain "forward-looking information" within the meaning of applicable Canadian securities legislation ("forward-looking statements"), including, but not limited to, the impact of global supply chain and financial market disruptions; projections of future financial and operational performance; statements with respect to future events or future performance; production estimates; anticipated operating and production costs and revenue; estimates of capital expenditures; future demand for and prices of commodities and currencies; estimated mine life of our mine; estimated closure and reclamation costs and statements regarding anticipated exploration, development, construction, production, permitting and other activities on the Company's properties, including: expected gold, silver and copper production and the Stage 3 Expansion and Stage 4 Expansion. Estimates of mineral reserves and mineral resources are also forward-looking statements because they constitute projections, based on certain estimates and assumptions, regarding the amount of minerals that may be encountered in the future and/or the anticipated economics of production. All statements in this Annual Information Form that address events or developments that we expect to occur in the future are forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, although not always, identified by words such as "expect", "plan", "anticipate", "project", "target", "potential", "schedule", "forecast", "budget", "estimate", "intend" or "believe" and similar expressions or their negative connotations, or that events or conditions "will", "would", "may", "could", "should" or "might" occur. All such forward-looking statements are based on the opinions and estimates of management as of the date such statements are made.

Forward-looking statements are necessarily based on estimates and assumptions that are inherently subject to known and unknown risks, uncertainties and other factors, many of which are beyond our ability to control, that may cause our actual results, level of activity, performance or achievements to

be materially different from those expressed or implied by such forward-looking information. Such factors include, without limitation, Public Health Crises, including the COVID-19 Pandemic; changes in the price of gold, silver, copper and other metals in the world markets; fluctuations in the price and availability of infrastructure and energy and other commodities; fluctuations in foreign currency exchange rates; volatility in price of our common shares; inherent risks associated with the mining industry, including problems related to weather and climate in remote areas in which certain of the Company's operations are located; failure to achieve production, cost and other estimates; risks and uncertainties associated with exploration and development; uncertainties relating to estimates of mineral resources including uncertainty that mineral resources may never be converted into mineral reserves; the Company's ability to carry on current and future operations, including development and exploration activities; the timing, extent, duration and economic viability of such operations, including any mineral resources or reserves identified thereby; the accuracy and reliability of estimates, projections, forecasts, studies and assessments; the Company's ability to meet or achieve estimates, projections and forecasts; the availability and cost of inputs; the availability and costs of achieving the Stage 3 Expansion or the Stage 4 Expansion; the ability of the Company to achieve the inputs the price and market for outputs, including gold, silver and copper; inability of the Company to identify appropriate acquisition targets or complete desirable acquisitions; failures of information systems or information security threats; political, economic and other risks associated with the Company's foreign operations; geopolitical events and other uncertainties, such as the conflict in Ukraine; compliance with various laws and regulatory requirements to which the Company is subject to, including taxation; the ability to obtain timely financing on reasonable terms when required; the current and future social, economic and political conditions, including relationship with the communities in Papua New Guinea and other jurisdictions it operates; other assumptions and factors generally associated with the mining industry; and the risks, uncertainties and other factors referred to in the Company's Annual Information Form under the heading "Risk Factors".

Estimates of mineral resources are also forward-looking statements because they constitute projections, based on certain estimates and assumptions, regarding the amount of minerals that may be encountered in the future and/or the anticipated economics of production. The estimation of mineral resources and mineral reserves is inherently uncertain and involves subjective judgments about many relevant factors. Mineral resources that are not mineral reserves do not have demonstrated economic viability. The accuracy of any such estimates is a function of the quantity and quality of available data, and of the assumptions made and judgments used in engineering and geological interpretation. Forward-looking statements are not a guarantee of future performance, and actual results and future events could materially differ from those anticipated in such statements. Although we have attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking statements, there may be other factors that cause actual results to differ materially from those that are anticipated, estimated, or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
