

PRAIRIESKY RECEIVES TSX APPROVAL FOR RENEWED NORMAL COURSE ISSUER BID

Calgary, Alberta (April 30, 2018)

PrairieSky Royalty Ltd. ("**PrairieSky**" or the "**Company**") (TSX: PSK) is pleased to announce that the Toronto Stock Exchange (the "**TSX**") has accepted the notice of PrairieSky's intention to commence a normal course issuer bid (the "**NCIB**"). PrairieSky previously purchased an aggregate of 1,429,600 common shares at a weighted average price per share of \$30.46 under a normal course issuer bid that runs between May 4, 2017 and May 3, 2018.

On April 23, 2018, PrairieSky announced its intention to seek TSX approval to renew its NCIB for an additional one-year period. The NCIB allows the Company to purchase up to 1,750,000 common shares (representing approximately 0.7% of the 235,462,341 issued and outstanding common shares of as April 24, 2018) over a period of twelve months commencing on May 4, 2018. The NCIB will expire no later than May 3, 2019.

Under the NCIB, common shares may be repurchased in open market transactions on the TSX, and/or other Canadian exchanges or alternative trading systems. In accordance with the rules of the TSX governing normal course issuer bids, the total number of common shares the Company is permitted to purchase is subject to a daily purchase limit of 117,235 common shares, representing 25% of the average daily trading volume of common shares on the TSX calculated for the six-month period ended March 31, 2018, being approximately 468,942 common shares. However, the Company may make one block purchase per calendar week which exceeds the daily repurchase restriction. Any common shares that are purchased under the NCIB will be cancelled upon their purchase by PrairieSky.

PrairieSky has entered into an automatic purchase plan with its broker, Peters & Co. Limited, in order to facilitate purchases of its common shares. The automatic purchase plan allows for purchases by the Company of its common shares at any time, including, without limitation, when the Company would ordinarily not be permitted to make purchases due to regulatory restriction or self-imposed blackout periods. Purchases will be made by PrairieSky's broker based upon the parameters prescribed by the TSX and the terms of the parties' written agreement.

PrairieSky currently intends to only use up to a maximum of \$50.0 million to effect NCIB purchases over the next 12 months (approximately \$4.2 million per month). However, the Company's board of directors may consider, from time to time, applying to the TSX to increase the amount of NCIB purchases. Decisions regarding increases to the NCIB will be based on market conditions, share price, best use of available cash, and other factors including other options to expand our portfolio of royalty assets.

With respect to forward-looking statements contained in this press release, we have made several assumptions including that the common shares will from time to time trade below their value, that the Company will complete purchases of common shares pursuant to the NCIB and those described in detail in our MD&A and the Annual Information Form for the period ended December 31, 2017. By their nature, forward-looking statements are subject to numerous risks and uncertainties, some of which are beyond our control, including the market price of the common shares being too high to ensure that purchases benefit the Company and its shareholders, impact of general economic conditions, industry conditions, volatility of commodity prices, stock market volatility and failure to execute purchases under the NCIB. The foregoing and other risks are described in more detail in PrairieSky's MD&A, and the Annual Information Form for the period ended December 31, 2017 under the headings "Risk Management" and "Risk Factors", respectively, each of which is available at www.sedar.com.
