## 1. Nature of Operations

PrairieSky Royalty Ltd. ("PrairieSky" or the "Company") has a geologically and geographically diverse portfolio of fee simple mineral title ("Fee Lands"), lessor interests in and to leases that are currently issued in respect of certain Fee Lands ("Lessor Interests"), crude oil and natural gas overriding royalty interests, gross overriding royalty interests, net profit interests and production payments on lands (collectively, "GORR Interests") and other acreage spanning Alberta, Saskatchewan, British Columbia and Manitoba (collectively, the "Royalty Properties"). The Company is focused on encouraging third parties to actively develop the Royalty Properties, while strategically seeking additional petroleum and natural gas royalty assets that provide the Company with medium-term to long-term value enhancement potential. The Company does not directly conduct operations to explore for, develop or produce petroleum or natural gas; rather, third-party development of the titled or leased lands provides the Company with royalty revenue as petroleum and natural gas are produced from such properties.

The Company's shares are publicly traded on the Toronto Stock Exchange ("TSX") under the stock symbol "PSK". The location of the head and registered office of the Company is Suite 1700, 350 - 7<sup>th</sup> Avenue S.W., Calgary, Alberta, T2P 3N9.

## 2. Basis of Presentation

### A) STATEMENT OF COMPLIANCE

These unaudited interim condensed consolidated financial statements (the "financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting" and should be read in conjunction with the audited annual consolidated financial statements for the year ended December 31, 2021. They do not include all of the information required for a complete set of IFRS financial statements; however, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes to the Company's financial position and performance since the last annual financial statements.

These financial statements have been prepared on a historical cost basis, except for share-based payment transactions. The financial statements have been prepared on a going concern basis and amounts are in millions of Canadian dollars unless otherwise stated.

These financial statements were authorized for issuance by the Company's Audit Committee on July 18, 2022.

### B) ESTIMATES

The timely preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the period. Actual results may differ from these estimates.

Since the World Health Organization declared the novel coronavirus (COVID-19) outbreak a global pandemic in March 2020, there has been significant oil supply and demand volatility. Throughout the first half of 2022, most countries have reopened their economies positively impacting both demand and benchmark commodity pricing. In addition, the Russia-Ukraine conflict has raised global concerns over oil and natural gas supply and significantly increased benchmark oil prices and inflationary pressures on governments, businesses, and communities. Natural gas demand and pricing has continued to remain strong in 2022. Improved benchmark pricing has positively impacted the oil and gas industry and PrairieSky

but the potential for volatility remains. Management has incorporated the anticipated impacts of COVID-19 and the resulting economic recovery, as well as the impacts from the Russian-Ukraine conflict in its estimates and assumptions at period end and continues to monitor current commodity prices, currency exchange rates, industry activity levels and third-party anticipated capital expenditures for 2022 and beyond.

In preparing these financial statements, the judgments made by management in applying the Company's accounting policies and the key sources of significant estimation uncertainty were the same as those applied to the audited annual consolidated financial statements as at and for the year ended December 31, 2021.

### 3. Accounts Receivable and Accrued Royalty Revenue

	As at June 30, 2022	As at December 31, 2021
Trade receivables and accrued royalty revenue	\$ 112.5	\$ 52.4
Production and mineral taxes receivable	0.6	-
	<b>\$ 113.1</b>	<b>\$ 52.4</b>

Trade receivables and accrued royalty revenue relate primarily to lease and royalty production payments receivable. In determining the recoverability of trade receivables that are past due but not impaired, the Company considers the age of the outstanding receivables and the credit worthiness of the counterparties (refer to Note 15). At June 30, 2022, the Company does not have any receivables over 90 days (December 31, 2021 - \$nil) and is satisfied its accounts receivable amounts are collectible.

### 4. Royalty Assets, Net

<b>Cost</b>		
Balance, December 31, 2020		\$ 1,441.4

<b>Balance, June 30, 2022</b>		<b>\$ 1,024.2</b>

For the three months ended June 30, 2022, royalty assets acquired totaled \$12.5 million (three months ended June 30, 2021 - \$nil with a positive adjustment of \$0.2 million to a previously closed royalty acquisition). Acquisitions in the quarter were for producing Lessor Interests and GORR Interests.

For the six months ended June 30, 2022, royalty assets acquired totaled \$13.6 million (six months ended June 30, 2021 - \$20.3 million) and were acquisitions of producing Lessor Interests and GORR Interests.

## 5. Exploration and Evaluation ("E&E") Assets

Balance, December 31, 2020		\$ 1,325.5
Asset acquisitions		527.3
Transfers to royalty assets	(Note 4)	(55.3)
Land expiries		(7.8)
Balance, December 31, 2021		1,789.7

Transfers to royalty assets	(Note 4)	(46.3)
Land expiries		(3.0)
<b>Balance, June 30, 2022</b>		<b>\$ 1,748.7</b>

For the three and six months ended June 30, 2022, E&E assets acquired totaled \$3.1 million (three months ended June 30, 2021 - \$6.3 million), and \$8.3 million (six months ended June 30, 2021 - \$31.4 million), respectively. E&E acquisitions were for Fee Lands and GORR Interests on non-producing assets.

For the three months and six months ended June 30, 2022, \$2.3 million (three months ended June 30, 2021 - \$2.5 million) and \$3.0 million (six months ended June 30, 2021 - \$4.5 million), respectively, of costs associated with expired Crown mineral leases and GORR Interests were recognized as exploration and evaluation expense. The expense will vary period to period as a result of the timing of lease expiries, if any.

## 6. Bank Debt

	As at June 30, 2022	As at December 31, 2021
Long-term bank debt	\$ 471.0	\$ 645.0
Unamortized debt issuance costs	(1.3)	(1.6)
<b>Total debt</b>	<b>\$ 469.7</b>	<b>\$ 643.4</b>

At June 30, 2022, the Company had a \$700 million extendible revolving credit facility (the "Revolving Facility"), with a permitted increase to \$775 million, subject to lender consent, and a \$25 million extendible operating credit facility (the "Operating Facility", and together with the Revolving Facility, the "Sustainable Credit Facility"), with a syndicate of Canadian banks. At June 30, 2022, \$471.0 million was drawn on the Sustainable Credit Facility (December 31, 2021 - \$645.0 million). The Sustainable Credit Facility may be extended on an annual basis, subject to certain requirements and has a maturity date of February 28, 2025. The effective interest rate for the three and six months ended June 30, 2022 was 3.4% (three months ended June 30, 2021 - 2.0%) and 3.1% (six months ended June 30, 2021 - 2.0%), respectively.

During the three and six months ended June 30, 2022, there were no debt issuance costs incurred. Debt issuance costs incurred during the year ended December 31, 2021 have been netted against the long-term debt and are being amortized over the remaining term. For the three and six months ended June 30, 2022, total amortization of debt issuance costs was \$0.1 million (three months ended June 30, 2021 - \$0.1 million) and \$0.3 million (six months ended June 30, 2021 - \$0.1 million), respectively.

The Sustainable Credit Facility includes borrowing options of Canadian prime rate-based advances, U.S. base rate advances, LIBOR loans, bankers' acceptances and letters of credit, and will bear interest on a variable grid based on certain financial ratios, over the prevailing applicable rate for the type of loan. As part of the aforementioned extension, the Company amended the Sustainable Credit Facility to include a sustainability-linked pricing mechanism which may reduce or increase borrowing costs by a maximum of 5 basis points based on the Company's ESG performance, determined by a third-party ESG rating agency. PrairieSky's bank debt pricing has been reduced by the full 5 basis points effective February 1, 2022 due to its improved third-party ESG rating. PrairieSky's rating will be re-evaluated in January 2023. The Sustainable Credit Facility is unsecured and does not have a borrowing base restriction.

The Sustainable Credit Facility has three financial covenants, whereby the Company's ratio of adjusted consolidated senior debt to EBITDA for the trailing 12 months will not exceed 3.5:1.0, adjusted consolidated total debt to EBITDA for the trailing 12 months will not exceed 4.0:1.0, and the adjusted consolidated total debt to capitalization ratio will not exceed 55%. EBITDA used in the covenant calculation is net earnings adjusted for non-cash items, interest expense and income taxes. All covenants are calculated as at, and for the 12 months ending June 30, 2022. EBITDA for the trailing 12 months has been adjusted for material acquisitions as defined in the Sustainable Credit Facility agreement. As at June 30, 2022, the Company was compliant with all covenants provided for in the lending agreement and forecasts compliance to covenants for at least the next 12 months.

## 7. Accounts Payable and Accrued Liabilities

For the three and six months ended June 30, 2022, non-cash interest expense of \$15,000 (three months ended June 30, 2021 - \$22,000) and \$32,000 (six months ended June 30, 2021 - \$47,000) was recognized relating to lease obligations.

Total cash outflows for the three months ended June 30, 2022 of \$0.4 million (three months ended June 30, 2021 - \$0.4 million) included variable lease payments and lease liability payments. Variable lease payments for the three months ended June 30, 2022 of \$0.2 million (three months ended June 30, 2021 - \$0.2 million) were recognized in administrative expense and were included in operating activities in the consolidated statements of cash flows. Lease liability payments for the three months ended June 30, 2022 of \$0.2 million (three months ended June 30, 2021 - \$0.2 million) were included in financing activities in the consolidated statements of cash flows.

Total cash outflows for the six months ended June 30, 2022 of \$0.8 million (six months ended June 30, 2021 - \$0.8 million) included variable lease payments and lease liability payments. Variable lease payments for the six months ended June 30, 2022 of \$0.4 million (six months ended June 30, 2021 - \$0.4 million) were recognized in administrative expense and were included in operating activities in the consolidated statements of cash flows. Lease liability payments for the six months ended June 30, 2022 of \$0.4 million (six months ended June 30, 2021 - \$0.4 million) were included in financing activities in the consolidated statements of cash flows.

## 9. Share Capital

### AUTHORIZED

The authorized share capital of the Company includes an unlimited number of common shares and an unlimited number of preferred shares issuable in series. The holders of the common shares are entitled to one vote in respect of each common share held at all meetings of shareholders, except meetings at which only holders of a specified class of share have the right to vote. The common shares have no par value.

<b>Common Shares Outstanding, End of Period</b>	<b>238.8</b>	<b>\$ 3,402.8</b>	<b>238.8</b>	<b>\$ 3,402.8</b>

### COMMON SHARES

On December 15, 2021, the Company completed a bought deal prospectus offering of common shares. Pursuant to the offering, the Company issued 17.2 million common shares, inclusive of 2.2 million common shares issued pursuant to the exercise in full of the over-allotment option granted to the underwriters, at a price of \$13.40 per common share for aggregate gross proceeds of \$230.1 million and net proceeds, after fees and expenses, of \$220.1 million.

### NORMAL COURSE ISSUER BID ("NCIB")

On May 19, 2022, the Company announced the approval of the renewal of its NCIB by the TSX. The NCIB allows the Company to purchase for cancellation up to a maximum of 16,963,000 common shares over a twelve-month period which commenced on May 26, 2022 and expires no later than May 25, 2023.

The Company did not purchase any common shares under the NCIB during the three and six months ended June 30, 2022.

During the three and six months ended June 30, 2021, the Company purchased for cancellation 981,000 common shares at an average cost of \$13.41 per common share for total consideration of \$13.2 million. The total cost paid, including commissions and fees, was charged to share capital as there was no excess paid over the average carrying value of the common shares purchased.

### DIVIDENDS

During the three months ended June 30, 2022, PrairieSky declared dividends of \$28.7 million (three months ended June 30, 2021 - \$14.5 million) or \$0.12 per common share (three months ended June 30, 2021 - \$0.065 per common share) and paid dividends of \$28.7 million (three months ended June 30, 2021 - \$14.5 million).

During the six months ended June 30, 2022, PrairieSky declared dividends of \$57.4 million (six months ended June 30, 2021 - \$29.0 million) or \$0.24 per common share (six months ended June 30, 2021 - \$0.13 per common share) and paid dividends of \$50.2 million (six months ended June 30, 2021 - \$27.9 million).

On June 7, 2022, the Board of Directors declared a quarterly dividend of \$0.12 per common share or \$28.7 million payable on July 15, 2022 to common shareholders of record on June 30, 2022.

## NET EARNINGS PER COMMON SHARE

## 10. Share-based Compensation Plans

The Company has a number of share-based compensation arrangements under which the Company awards various types of long-term incentive grants to eligible employees, officers and directors. They include stock options, performance share units ("PSUs"), restricted share units ("RSUs"), officer deferred share units ("ODSUs") and deferred share units ("DSUs").

The Company accounts for stock options granted to Company employees and officers as equity-settled share-based payment transactions and accrues compensation costs over the vesting period based on the fair values determined at the grant date.

The Company accounts for its PSUs, RSUs, ODSUs and DSUs, held by Company employees, officers and directors as cash-settled share-based payment transactions and accrues compensation costs and dividends over the vesting period based on the fair value at each reporting date.

The Company has recognized the following share-based compensation costs:

	Three months ended June 30		Six months ended June 30	
	2022	2021	2022	2021
Compensation costs of transactions classified as equity-settled	\$ -	\$ 0.1	\$ -	\$ 0.3
Compensation costs of cash-settled transactions	1.8	2.4	11.5	7.4
<b>Total share-based compensation expense</b>	<b>\$ 1.8</b>	<b>\$ 2.5</b>	<b>\$ 11.5</b>	<b>\$ 7.7</b>

The Company has recognized the following liability for share-based payment transactions:

	As at June 30, 2022	As at December 31, 2021
Liability for unvested cash-settled plans	\$ 15.1	\$ 11.2
Liability for vested cash-settled plans	7.8	5.2
<b>Liability for cash-settled plans</b>	<b>\$ 22.9</b>	<b>\$ 16.4</b>

There were no Company payouts related to share-based compensation in the three months ended June 30, 2022 or June 30, 2021. Company payouts related to share-based compensation during the six months ended June 30, 2022 were \$5.0 million (six months ended June 30, 2021 - \$0.7 million). As at June 30, 2022, \$13.5 million (December 31, 2021 - \$9.8 million) of the liability for cash-settled plans, which represents the value of the PSUs, RSUs and DSUs that are vested or will vest in the next twelve months, is included in accounts payable and accrued liabilities. The liability for vested cash-settled DSUs held by non-executive directors of \$7.8 million (December 31, 2021 - \$5.2 million) included in accounts payable and accrued liabilities may or may not be paid in the next twelve months as it only becomes payable when a director is no longer a member of the Board. The remaining \$9.4 million (December 31, 2021 - \$6.6 million) is a long-term liability and is reported as share-based compensation payable.

## A) STOCK OPTIONS

The Company has a Stock Option Plan that provides for granting of stock options to officers and certain employees. Stock options vest annually on their anniversary date over a three-year period and expire five years after the date of the grant.

The following table summarizes the change in stock options outstanding:

	Number (thousands)	Weighted average exercise price (\$)

For the three and six months ended June 30, 2022, administrative expense includes \$nil (three months ended June 30, 2021 - \$0.1 million) and \$nil (six months ended June 30, 2021 - \$0.3 million), respectively, of compensation costs related to stock options.

## B) PERFORMANCE SHARE UNITS

PSUs granted to officers prior to December 31, 2020 entitle the officer to receive upon vesting a cash payment that is equal to the value of one common share of the Company for each PSU held, plus accrued dividends over the period from the date of grant to vesting, or the equivalent number of shares at the election of the Company. The Company may make an election to settle vested PSUs granted prior to December 31, 2020 with either a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of vested PSUs or issue the number of common shares. For PSU grants on or after January 1, 2021, a new long-term incentive plan was adopted so that PSUs granted subsequent to December 31, 2020 may only be settled with a cash payment, and not common shares, equal to the five-day weighted average trading price for the common shares multiplied by the number of vested PSUs. PSUs vest following the completion of a three-year performance period provided the officer remains actively employed with the Company on the vesting date and certain performance criteria are met.

The ultimate value of the PSUs will depend upon the Company's performance relative to predetermined corresponding performance targets measured over a three-year period. Performance is based on the Company's total shareholder return ("TSR"), defined as share price appreciation plus dividends, relative to the TSR for a predetermined performance peer group. The Board has adopted a multiple performance criteria methodology, including TSR, for measuring the payout multiplier upon vesting of the PSUs. Based on this assessment, a range of zero to two times the original PSU grant, at the discretion of the Board of Directors, may be eligible to vest in respect of the three-year trailing period being measured.

The following table summarizes information related to the PSUs:

For the three and six months ended June 30, 2022, the Company recorded a compensation expense of \$1.9 million (three months ended June 30, 2021 - \$1.1 million) and \$7.1 million (six months ended June 30, 2021 - \$2.8 million), respectively, related to outstanding PSUs. The market common share price used in the PSU fair value calculation at June 30, 2022 was \$16.21 (June 30, 2021 - \$15.01). The remaining weighted average life is 1.6 years.

### C) RESTRICTED SHARE UNITS

RSUs granted to eligible employees prior to December 31, 2020 entitle the employee to receive upon vesting a cash payment that is equal to the value of one common share for each RSU held, plus accrued dividends over the period from the date of grant to vesting, or the equivalent number of shares at the election of the Company. The Company may make an election to settle vested RSUs granted prior to December 31, 2020 with either a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of vested RSUs or issue the number of common shares. For RSU grants on or after January 1, 2021, a new long-term incentive plan was adopted so that RSUs granted subsequent to December 31, 2020 may only be settled with a cash payment, and not common shares, equal to the five-day weighted average trading price for the common shares multiplied by the number of vested RSUs. RSUs vest evenly over a three-year period, provided the employee remains actively employed with the Company on the vesting date.

The following table summarizes information related to the RSUs:

For the three and six months ended June 30, 2022, the Company recorded compensation expense of \$0.1 million (three months ended June 30, 2021 - \$0.3 million) and \$0.7 million (six months ended June 30, 2021 - \$0.8 million), respectively, related to outstanding RSUs. The market common share price used in the RSU fair value calculation at June 30, 2022 was \$16.21 (June 30, 2021 - \$15.01). The remaining weighted average life is 1.2 years.

### D) OFFICER DEFERRED SHARE UNITS

ODSUs have been granted to officers of the Company and entitle the officer to receive, upon departure from the Company, a cash payment that is equal to the value of one common share for each vested ODSU held, plus accrued dividends over the period from the date of grant to the date vested ODSUs are redeemed, which must be within 15 business days of the officer's departure from the Company. The cash payment to the officer is to be paid, at the Company's discretion, no later than December 31 of the first calendar year commencing after the date of the officer's departure.

ODSUs are settled in a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of settled ODSUs, as further described below. ODSUs vest evenly over a three-year period, provided the employee or officer remains actively employed with the Company on the vesting date. ODSUs are not paid and/or settled until such time as the officer ceases to be an employee of the Company.

The following table summarizes information related to the ODSUs:

<i>Outstanding ODSUs (thousands of units)</i>	
Issued and Outstanding, December 31, 2020	41.9

For the three and six months ended June 30, 2022, the Company recorded compensation expense of \$0.3 million (three months ended June 30, 2021 - \$0.3 million) and \$1.1 million (six months ended June 30, 2021 - \$0.7 million), respectively, related to outstanding ODSUs. The market common share price used in the ODSU fair value calculation at June 30, 2022 was \$16.21 (June 30, 2021 - \$15.01).

## E) DEFERRED SHARE UNITS

Directors receive an annual compensation amount in DSUs and have the option to receive Board and Committee retainers and fees in the form of DSUs, which vest immediately. These DSUs are equivalent to a common share plus accrued dividends over the period from date of grant and vesting to the date of redemption and are settled in cash. DSUs can only be redeemed following departure from the Company and must be redeemed prior to December 15<sup>th</sup> of the year following departure. For the six months ended June 30, 2022, the majority of the directors elected to receive their annual Board and Committee retainers and fees in the form of DSUs.

DSUs are settled in a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of settled DSUs, as further described below. DSUs are fully vested as of the grant date. DSUs are not paid and/or settled until such time as the director ceases to be a director of the Company.

The following table summarizes information related to the DSUs:

<i>Outstanding DSUs (thousands of units)</i>	
Issued and Outstanding, December 31, 2020	255.7

Granted	<b>94.5</b>
Units, in lieu of dividends	<b>6.5</b>
<b>Issued and Outstanding, June 30, 2022</b>	<b>479.1</b>

For the three and six months ended June 30, 2022, the Company recorded a compensation recovery of \$0.5 million (three months ended June 30, 2021 - \$0.7 million expense) and \$2.6 million (six months ended June 30, 2021 - \$3.1 million), respectively, related to outstanding DSUs. The market common share price used in the DSU fair value calculation at June 30, 2022 was \$16.21 (June 30, 2021 - \$15.01).

## 11. Revenues

The Company's royalty production revenue is determined pursuant to the terms of its royalty agreements. The transaction price for crude oil, NGL and natural gas is based on the commodity price in the month of production, adjusted for quality, location, allowable deductions, if any, or other factors. Commodity prices are based on market indices that are determined on a monthly or daily basis.

Royalty production revenue is generally received two months after the crude oil, NGL, and natural gas are produced. For royalty production volumes taken-in-kind, revenue is typically collected on the 25th day of the month following production. Lease rental revenue for the entire primary term is recorded when the lease is executed. Lease rental revenue for any subsequent period is recorded as due which is generally annually on the anniversary of the lease extension. Both the amount and timing of bonus consideration revenue can vary significantly from period to period as it is recorded when a new lease is executed and relates to the unique circumstances of each lease transaction.

At June 30, 2022, receivables from contracts with customers, which are included in accounts receivable and accrued royalty revenue, totaled \$112.5 million (December 31, 2021 - \$52.4 million). For the six months ended June 30, 2022, the Company recorded \$8.0 million (June 30, 2021 - \$2.9 million) of royalty production revenue relating to prior periods. The performance obligations for these prior period adjustments were satisfied in production periods prior to the current year, but were reported in the current year once collection risk was mitigated.

## 14. Capital Management

The Company's objective when managing its capital structure is to maintain financial flexibility in order to distribute cash to shareholders in the form of dividends and share repurchases and cancellations after consideration of the Company's financial requirements for its business and future growth opportunities. As a royalty company, PrairieSky does not have capital expenditure requirements, which enhances its financial flexibility.

The Company's capital structure is comprised of long-term debt, shareholders' equity, and working capital. The Company's capital structure is managed by taking into account operating activities, dividends paid to shareholders, common share repurchases, taxes, liquidity available under the Sustainable Credit Facility (refer to Note 6), and other factors. The Company's operating results and capital structure are impacted by the level of development activity by third parties on the Royalty Properties and the resultant royalty production volumes, commodity prices and level of costs incurred by the Company.

	As at	As at	As at
	June 30, 2022	December 31, 2021	June 30, 2021
Shareholders' equity	\$ 2,711.2	\$ 2,594.6	\$ 2,345.5
Long-term debt	469.7	643.4	-
Working capital deficiency (working capital)	(15.8)	(8.4)	35.7
Net debt	453.9	635.0	35.7
Capitalization	\$ 3,165.1	\$ 3,229.6	\$ 2,381.2

The Company's capital structure is managed through its financial and operating forecast process. The forecast of the Company's future cash flows is based on estimates of production, crude oil, natural gas and NGL prices, production and mineral tax expense, administrative expenses, current taxes and other investing and financing activities. The forecast is regularly updated based on changes in commodity prices, production expectations and other factors that in the Company's view could impact cash flow. The preparation of financial forecasts requires management to make assumptions and estimates which may prove incorrect over time. As a result, there may be adverse changes in cash flows, working capital or debt levels that are currently unforeseen. During the six months ended June 30, 2022, the Company has generated funds from operations of \$264.6 million, declared dividends of \$57.4 million, and made royalty acquisitions for cash consideration of \$21.9 million. The Company had working capital of \$15.8 million at June 30, 2022 and long-term bank debt of \$469.7 million. The Company's working capital includes \$7.8 million (December 31, 2021 - \$5.2 million) related to the liability for vested cash-settled DSUs issued to non-executive directors which may or may not be paid in the next twelve months as it only becomes payable when a director is no longer a member of the Board (refer to Note 10).

## 15. Financial Instruments and Risk Management

### FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The fair values of accounts receivable and accrued royalty revenue, accounts payable and accrued liabilities, and dividend payable approximate their carrying amount due to the short-term maturity of those instruments. Bank debt bears interest at a floating market rate with applicable variable margins, and accordingly the fair market value approximates the carrying amount.

### RISKS ASSOCIATED WITH FINANCIAL ASSETS AND LIABILITIES

The Company is exposed to financial risks arising from its financial assets and liabilities. Financial risks include market risk (such as commodity price and interest rate risk), credit risk and liquidity risk.

#### Commodity Price Risk

Commodity price risk is the risk the Company will encounter fluctuations in its future royalty production revenue with changes in commodity prices. Commodity prices for crude oil, NGL and natural gas are influenced by global and regional factors, including levels of supply and demand, weather, geopolitical factors and the Canadian to US dollar exchange rate. The Company does not hedge its commodity price risk.

#### Interest Rate Risk

The Company is exposed to interest rate risk on its Sustainable Credit Facility. Interest rate risk arises from changes in market interest rates that may affect the fair value or future cash flows from the Company's financial assets or liabilities. Assuming all other variables held constant for the three and six months ended June 30, 2022, a 1% change (plus or minus) in the interest rate would have resulted in a corresponding change to net earnings before taxes of \$1.3 million and \$2.8 million, respectively. Bank debt bears interest at a floating market rate with applicable variable margins.

#### Credit Risk

Credit risk arises from the potential that the Company may incur a loss if a counterparty to a financial instrument fails to meet its obligation in accordance with agreed terms. A substantial portion of the Company's accounts receivable are from royalty agreements with crude oil and natural gas industry operators and are subject to normal industry credit risks. The Company's diversified revenue stream limits the size of any one property or industry operator with respect to total receivables. In addition, the Company takes certain of its production in-kind to mitigate credit risk and in certain cases, has put a letter of credit in place with producers.

As at June 30, 2022, there was no counterparty whose accounts receivable individually accounted for more than 10% of the total accounts receivable balance. The maximum credit risk exposure associated with accounts receivable and accrued royalty revenue is the total carrying value.

#### Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting a demand to fund financial liabilities as they come due. The Company manages its liquidity risk using cash and debt management programs, including financial forecasting. At June 30, 2022, the Company has unused capacity under its Sustainable Credit Facility of \$254.0 million (refer to Note 6).

The timing of expected cash outflows relating to accounts payable and accrued liabilities of \$24.7 million, income tax payable of \$45.8 million and dividend payable of \$28.7 million is less than one year. Included in

accounts payable and accrued liabilities is \$7.8 million related to vested cash settled DSUs issued to non-executive directors which may or may not be paid in the next year. Management maintains a conservative approach to debt management that aims to provide financial flexibility with respect to acquisitions and the dividend rate. The Board of Directors reviews and determines the dividend rate after considering expected commodity prices, foreign exchange rates, royalty production volumes, economic conditions, income taxes, and PrairieSky's capacity to fund its expenses and investing opportunities.
