### About Algonquin Power & Utilities Corp.

APUC is a diversified international generation, transmission and distribution utility with approximately \$11 billion of total assets. Through its two business groups, APUC is committed to providing safe, reliable and cost effective rate-regulated natural gas, water, and electricity generation, transmission and distribution utility services to approximately 805,000 connections in the United States and Canada, and is a global leader in renewable energy through its portfolio of long-term contracted wind, solar and hydroelectric generating facilities representing over 2 GW of installed capacity and more than 1.4 GW of incremental renewable energy capacity under construction.

APUC strives to deliver continuing growth through an expanding global pipeline of renewable energy, electric transmission, and water infrastructure development projects, organic growth within its rate-regulated generation, distribution and transmission businesses, and the pursuit of accretive acquisitions. APUC's common shares, Series A preferred shares, and Series D preferred shares are listed on the Toronto Stock Exchange under the symbols AQN, AQN.PR.A, and AQN.PR.D, respectively. APUC's common shares, Series 2018-A subordinated notes and Series 2019-A subordinated notes are listed on the New York Stock Exchange under the symbols AQN, AQNA and AQNB, respectively.
