

BOYD GROUP SERVICES INC.

INTERIM REPORT TO SHAREHOLDERS
Second Quarter and Six Months Ended June 30, 2023

BOYD GROUP SERVICES INC.

REPORT TO SHAREHOLDERS

To our Shareholders,

During the second quarter of 2023, Boyd Group Services Inc. (“BGSI”) recorded sales of \$753.2 million, Adjusted EBITDA¹ of \$95.4 million and net earnings of \$26.3 million.

The initiatives put in place to improve throughput and increase capacity, along with solid execution, have resulted in record sales levels and improved profitability during the second quarter. Our team continues to adapt to challenging market conditions and deliver results, including doubling the level of Adjusted net earnings per share when compared to the same period of the prior year.

Total sales in the second quarter of 2023 were \$753.2 million, a 22.9% increase when compared to the \$612.8 million achieved in the same period of 2022, with same-store sales increasing 18.9% and new locations that were not in operation for the full comparative period generating \$29.1 million of incremental sales.

Adjusted EBITDA for the second quarter of 2023 was \$95.4 million, or 12.7% of sales, compared with \$72.0 million, or 11.7% of sales in the same period of 2022. The \$23.4 million increase was primarily the result of improved sales levels and improved leveraging of certain operating costs.

BGSI posted net earnings of \$26.3 million in the second quarter of 2023, compared to \$13.3 million in the same period of 2022. Impacting net earnings were acquisition and transaction costs and fair value adjustments on contingent consideration. After adjusting for these items, Adjusted net earnings for the second quarter of 2023 was \$27.0 million or 3.6% of sales. This compares to Adjusted net earnings of \$13.6 million or 2.2% of sales in the same period of 2022. Adjusted net earnings for the period was positively impacted by increased sales and improved leveraging of certain operating costs. Adjusted net earnings for the three months ended June 30, 2023 was \$1.26 per share, compared to \$0.63 per share in the same period of 2022.

With respect to the balance sheet, at June 30, 2023, BGSI held total debt, net of cash, of \$1,004.5 million, compared to \$1,008.8 million at March 31, 2023 and \$973.7 million at June 30, 2022. Debt, net of cash before lease liabilities decreased from \$345.1 million at December 31, 2022 to \$316.9 million at June 30, 2023. During the second quarter of 2023, the Company was able to reduce the level of long term debt held under the revolving credit facility (net of financing costs) from \$184.1 million to \$174.5 million.

Throughout 2022, we made progress on the priority areas in each of the environmental, social and governance pillars outlined in our first ESG report, published in March 2022, and we are pleased to have now published our second ESG report. We recognize that we have the potential to deliver significant, positive impacts to society and the

¹ Adjusted EBITDA (earnings before interest, income taxes, depreciation and amortization, adjusted for the fair value adjustments related to contingent consideration, as well as acquisition and transaction costs), adjusted net earnings, adjusted net earnings per share and same-store sales are non-GAAP financial measures and ratios and are not recognized measures under International Financial Reporting Standards (“IFRS”). Management believes that in addition to net earnings and cash flows, the supplemental measures of adjusted net earnings and Adjusted EBITDA are useful as they provide investors with an indication of earnings from operations and cash available for distribution, both before and after debt management, productive capacity maintenance and non-recurring and other adjustments. Management believes that, in addition to sales, the supplemental measure of same-store sales is useful as it provides investors with an indication of the increase in sales without accounting for location growth and the impact of fluctuations in exchange rates during the period. Investors should be cautioned, however, that Adjusted EBITDA, adjusted net earnings and adjusted net earnings per share should not be construed as an alternative to net earnings determined in accordance with IFRS as an indicator of Boyd’s performance. Investors should also be cautioned that same-store sales should not be construed as an alternative to sales in accordance with IFRS as an indicator of Boyd’s performance. Boyd’s method of calculating these measures may differ from other public issuers and, accordingly, may not be comparable to similar measures used by other issuers. For a detailed explanation of how Boyd’s non-GAAP financial measures are calculated, please refer to the section titled “Non-GAAP Financial Measures and Ratios” in Boyd’s MD&A filing (dated August 10, 2023) for the period ended June 30, 2023, starting on page 9 of this Report. environment and are pleased to share the progress we have made thus far on our ESG journey, while acknowledging there is always more work to be done. We remain dedicated to integrating ESG considerations into our business practices and disclosing our ESG performance. We are committed to continuously improving and look forward to the opportunities ahead.

I am excited to have Mr. Jeff Murray appointed to the permanent role of Executive Vice President & Chief Financial Officer after seamlessly taking on the position of Interim Chief Financial Officer since the beginning of 2023. Mr. Murray's significant knowledge of the business along with his strong background in accounting and finance support the continued execution of our priorities.

On behalf of myself, the executive team and our Board of Directors, I would like to thank all of our Boyd Group employees for their hard work and dedication, which continued to allow Boyd to successfully navigate through the impacts of the dynamic economic environment. And on behalf of the Directors of Boyd Group Services Inc. and Boyd Group employees, thank you for your continued support.

Sincerely,

(signed)

OUTLOOK

Boyd is pleased with the record levels of sales and Adjusted EBITDA achieved in the second quarter of 2023, along with improvement in Adjusted EBITDA margin, although the Adjusted EBITDA margin remains below pre-pandemic levels. Boyd remains focused on the key challenges of building capacity through increased staffing, including negotiating sufficient client price increases to attract the requisite talent into the industry and recover lost labor margin from wage pressure. The Company continues to benefit from increased scanning and calibration revenue. Relative to the second quarter, the third quarter of 2023 will have one less selling and production day and will also be negatively impacted by seasonal vacations that have a dampening effect on sales. Thus far in the third quarter, same-store sales increases are approximately half of what has been experienced in the first six months of 2023.

Workforce initiatives are having a positive impact on capacity and ongoing investments in technology, equipment and training position the Company well for continued operational execution. Boyd remains committed to addressing the labor market challenges so that the Company can service additional demand. The client pricing increases that Boyd has experienced have not been sufficient to move labor margins to historical levels.

Boyd is pleased to have opened or acquired 57 collision repair locations thus far in 2023 and the pipeline to add new locations and to expand into new markets is robust. Operationally, Boyd is focused on optimizing performance of new locations, as well as scanning and calibration services, and consistent execution of the WOW Operating Way. Given the high level of location growth in 2021, the strong same-store sales growth during 2022, and the combination of same-store sales growth and location growth thus far in 2023, Boyd remains confident that the Company is on track to achieve its long-term growth goals, including doubling the size of the business on a constant currency basis from 2021 to 2025 against 2019 sales.

In the long-term, management remains confident in its business model and its ability to increase market share by expanding its presence in North America through strategic acquisitions alongside organic growth from Boyd's existing operations. Accretive growth will remain the Company's long-term focus whether it is through organic growth, new store development, or acquisitions. The North American collision repair industry remains highly fragmented and offers attractive opportunities for industry leaders to build value through focused consolidation and economies of scale. As a growth company, Boyd's objective continues to be to maintain a conservative dividend policy that will provide the financial flexibility necessary to support growth initiatives while gradually increasing dividends over time. The Company remains confident in its management team, systems and experience. This, along with a strong financial position and financing options, positions Boyd well for success into the future.

BUSINESS ENVIRONMENT & STRATEGY

As at August 9, 2023, the business environment of the Company and strategies adopted by management remain unchanged from those described in BGSI's 2022 annual MD&A.

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

Statements made in this interim report, other than those concerning historical financial information, may be forward-looking and therefore subject to various risks and uncertainties. Some forward-looking statements may be identified by words like “may”, “will”, “anticipate”, “estimate”, “expect”, “intend”, or “continue” or the negative thereof or similar variations. Readers are cautioned not to place undue reliance on such statements, as actual results may differ materially from those expressed or implied in such statements.

The following table outlines forward-looking information included in this MD&A:

Forward-looking Information	Key Assumptions	Most Relevant Risk Factors
The stated objective of generating growth sufficient to double the size of the business over the five year period from 2021 to 2025, based on 2019 revenues	Opportunities continue to be available and are at acceptable and accretive prices Financing options continue to be available at reasonable rates and on acceptable terms and conditions New and existing customer relationships are expected to provide acceptable levels of revenue opportunities Anticipated operating results would be accretive to overall Company results Growth is defined as revenue on a constant currency basis Initiatives to increase production capacity are successful Supply chain disruption is temporary and normalizes in the short term	Acquisition market conditions change and repair shop owner demographic trends change Credit and refinancing conditions prevent or restrict the ability of the Company to continue growth strategies Changes in market conditions and operating environment Significant decline in the number of insurance claims Integration of new stores is not accomplished as planned Increased competition which prevents achievement of acquisition and revenue goals Initiatives to increase production capacity take longer than expected or are not successful Supply chain remains disrupted and the ability to source parts continues to limit sales
Boyd remains confident in its business model to increase market share by expanding its presence in North America through strategic and accretive acquisitions alongside organic growth from Boyd’s existing operations	Re-emergence of stability in economic conditions and employment rates New and existing customer relationships are expected to provide acceptable levels of revenue opportunities The Company’s customer and supplier relationships provide it with competitive advantages to increase sales over time Market share growth will more than offset systemic changes in the industry and environment Anticipated operating results would be accretive to overall Company results	Economic conditions deteriorate Loss of one or more key customers or loss of significant volume from any customer Decline in the number of insurance claims Inability of the Company to pass cost increases to customers over time Increased competition which may prevent achievement of revenue goals Changes in market conditions and operating environment Changes in weather conditions Inability to maintain, replace or grow technician capacity could impact organic growth

Forward-looking Information	Key Assumptions	Most Relevant Risk Factors
Stated objective to gradually increase dividends over time	Growing profitability of the Company and its subsidiaries The continued and increasing ability of the Company to generate cash available for dividends Balance sheet strength and flexibility is maintained and the dividend level is manageable taking into consideration bank covenants, growth requirements and maintaining a dividend level that is supportable over time	BGSI is dependent upon the operating results of the Company Economic conditions deteriorate Changes in weather conditions Decline in the number of insurance claims Loss of one or more key customers or loss of significant volume from any customer Changes in government regulation
During 2023, the Company plans to make cash capital expenditures, excluding those related to acquisition and development of new locations, within the range of 1.6% and 1.8% of sales. In addition to these capital expenditures, the Company plans to invest in network technology upgrades to further strengthen our technology and security infrastructure and prepare for advanced technology needs in the future. The investment expected in the second half of 2023 is in the range of \$5 million to \$6 million, with investments expected in 2024 and 2025 to range from \$5 million to \$9 million per year.	The actual cost for these capital expenditures agrees with the original estimate The purchase, delivery and installation of the capital items is consistent with the estimated timeline No other new capital requirements are identified or required during the period All identified capital requirements are required during the period	Expected actual expenditures could be above or below 1.6% to 1.8% of sales The timing of the expenditures could occur on a different timeline BGSI may identify additional capital expenditure needs that were not originally anticipated BGSI may identify capital expenditure needs that were originally anticipated; however, are no longer required or required on a different timeline
Boyd has made good progress with many clients, but has not achieved the level of pricing that will return labor margins to historical levels. Further increases are needed to address ongoing wage pressure.	Price increases will be negotiated and agreed upon by key clients Demand for services will continue to grow, allowing Boyd to focus on higher margin business Wage inflation will return to historical levels and will not outpace pricing increases Supply chain disruption is transitory and will normalize as underlying issues are resolved Internal training and development programs, including the Technician Development Program, will improve staffing availability	Inability of the Company to pass cost increases to customers over time Decline in the number of insurance claims Loss of one or more key customers or loss of significant volume from any customer Changes in market conditions and operating environment Wage inflation continues in excess of historical levels and outpaces pricing increases Supply chain remains disrupted Internal training and development programs do not improve staffing availability

We caution that the foregoing table contains what BGSI believes are the material forward-looking statements and is not exhaustive. Therefore when relying on forward-looking statements, investors and others should refer to the “Risk Factors” section of BGSI’s Annual Information Form, the “Business Risks and Uncertainties” and other sections of our Management’s Discussion and Analysis and our other periodic filings with Canadian securities regulatory authorities. NON-GAAP FINANCIAL MEASURES AND RATIOS

EBITDA AND ADJUSTED EBITDA

Earnings before interest, taxes, depreciation and amortization (“EBITDA”) is not a calculation defined in International Financial Reporting Standards (“IFRS”). EBITDA should not be considered an alternative to net earnings in measuring the performance of BGSI, nor should it be used as an exclusive measure of cash flow. BGSI reports EBITDA and Adjusted EBITDA because they are key measures that management uses to evaluate performance of the business and to reward its employees. EBITDA is also a concept utilized in measuring compliance with debt covenants. EBITDA and Adjusted EBITDA are measures commonly reported and widely used by investors and lending institutions as an indicator of a company’s operating performance and ability to incur and service debt, and as a valuation metric. While EBITDA is used to assist in evaluating the operating performance and debt servicing ability of BGSI, investors are cautioned that EBITDA and Adjusted EBITDA as reported by BGSI may not be comparable in all instances to EBITDA as reported by other companies.

CPA Canada’s Canadian Performance Reporting Board defined Standardized EBITDA to foster comparability of the measure between entities. Standardized EBITDA represents an indication of an entity’s capacity to generate income from operations before taking into account management’s financing decisions and costs of consuming tangible and intangible capital assets, which vary according to their vintage, technological age and management’s estimate of their useful life. Accordingly, Standardized EBITDA comprises sales less operating expenses before finance costs, capital asset amortization and impairment charges, and income taxes. Adjusted EBITDA is calculated to exclude items of an unusual nature that do not reflect normal or ongoing operations of BGSI and which should not be considered in a valuation metric or should not be included in an assessment of the ability to service or incur debt. Also included as an adjustment to EBITDA are acquisition and transaction costs and fair value adjustments to contingent consideration, which do not relate to the current operating performance of the business units but are typically costs incurred to expand operations. From time to time BGSI may make other adjustments to its Adjusted EBITDA for items that are not expected to recur.

The following is a reconciliation of BGSI’s net earnings to Standardized EBITDA and Adjusted EBITDA:

ADJUSTED NET EARNINGS

In addition to Standardized EBITDA and Adjusted EBITDA, BGSI believes that certain users of financial statements are interested in understanding net earnings excluding certain fair value adjustments and other items of an unusual or infrequent nature that do not reflect normal or ongoing operations of the Company. This can assist these users in comparing current results to historical results that did not include such items. The following is a reconciliation of BGSI's net earnings to adjusted net earnings:

2nd Quarter Comparison - Three months ended June 30, 2023 vs. 2022

Sales

Sales totaled \$753.2 million for the three months ended June 30, 2023, an increase of \$140.4 million or 22.9% when compared to the same period of 2022. The increase in sales was the result of the following:

- Same-store sales¹ excluding foreign exchange increased \$115.6 million or 18.9% and decreased \$3.3 million due to the translation of same-store sales at a lower Canadian dollar exchange rate. The second quarter of 2023 recognized the same number of selling and production days when compared to the same period of the prior year. Same-store sales benefited from high levels of demand for services, as well as some increase in production capacity related to technician hiring, growth in the Technician Development Program, as well as productivity improvement, although ongoing staffing constraints continued to impact sales and service levels that could be achieved. Sales also increased based on higher repair costs due to increasing vehicle complexity, increased scanning and calibration services, as well as general market inflation.
- \$29.1 million of incremental sales were generated from 64 new locations that were not in operation for the full comparative period.
- Sales were affected by the closure of under-performing facilities which decreased sales by \$1.0 million.

Same-store sales are calculated by including sales for locations and businesses that have been in operation for the full comparative period.

Gross Profit

Gross Profit was \$342.7 million or 45.5% of sales for the three months ended June 30, 2023, compared to \$277.5 million or 45.3% of sales for the same period of 2022. Gross profit increased primarily as a result of increased sales due to same-store sales and location growth when compared to the prior period. The three months ended June 30, 2023 benefited from improved glass margins, higher parts margins and increased scanning and calibration. Labor margins were flat, with client pricing increases not sufficient to move labor margins to historical levels. Performance based programs negatively impacted gross margin during the second quarter of 2023 as compared to the same period of the prior year.

Operating Expenses

Operating Expenses for the three months ended June 30, 2023 increased \$41.8 million to \$247.3 million from \$205.5 million for the same period of 2022. The increase in operating expenses was primarily the result of increased sales based on same-store sales as well as location growth, in addition to inflationary increases. Closed locations lowered operating expenses by \$0.6 million.

Operating expenses as a percentage of sales were 32.8% for the three months ended June 30, 2023, which compared to 33.5% for the same period of 2022. Operating expenses as a percentage of sales was positively impacted by improved sales levels, which provided improved leveraging of certain operating costs.

Acquisition and Transaction Costs

Acquisition and Transaction Costs for the three months ended June 30, 2023 were \$1.0 million compared to \$0.4 million recorded for the same period of 2022. The costs relate to various acquisitions, including acquisitions from prior periods, as well as other completed or potential acquisitions.

Adjusted EBITDA

*Earnings before interest, income taxes, depreciation and amortization, adjusted for contingent consideration, as well as acquisition and transaction costs ("Adjusted EBITDA")*² for the three months ended June 30, 2023 totaled \$95.4 million or 12.7% of sales compared to Adjusted EBITDA of \$72.0 million or 11.7% of sales in the same period of the prior year. The \$23.4 million increase was primarily the result of improved sales levels and improved leveraging of certain operating costs.

Depreciation and Amortization

Depreciation related to property, plant and equipment totaled \$12.8 million or 1.7% of sales for the three months ended June 30, 2023, an increase of \$0.6 million when compared to the \$12.3 million or 2.0% of sales recorded in the same period of the prior year. The increase in depreciation expense was primarily due to acquisition growth as well as investments in capital equipment. Same-store sales increases resulted in a decrease in depreciation expense as a percentage of sales during the second quarter of 2023.

Depreciation related to right of use assets totaled \$26.9 million, or 3.6% of sales for the three months ended June 30, 2023, as compared to \$25.2 million or 4.1% of sales for the same period of the prior year. The increase in depreciation expense was primarily due to acquisition growth. Same-store sales increases resulted in a decrease in depreciation expense as a percentage of sales during the second quarter of 2023.

Amortization of intangible assets for the three months ended June 30, 2023 totaled \$6.7 million or 0.9% of sales, compared to the \$6.7 million or 1.1% of sales expensed for the same period of the prior year. Same-store sales increases resulted in a decrease in amortization expense as a percentage of sales during the second quarter of 2023.

Finance Costs

Finance Costs of \$12.2 million or 1.6% of sales for the three months ended June 30, 2023 increased from \$9.1 million or 1.5% of sales for the same period of the prior year. The increase in finance costs was primarily due to increased lease liabilities, as a result of location growth and lease renewals, as well as higher variable interest rates on the revolving credit facility.

Income Taxes

Current and Deferred Income Tax Expense of \$9.6 million for the three months ended June 30, 2023 compared to \$5.1 million for the same period of the prior year. Income tax expense has not been impacted by significant permanent differences in the current or prior period.

² As defined in the non-GAAP financial measures and ratios section of the MD&A.

Net Earnings and Earnings Per Share

Net Earnings for the three months ended June 30, 2023 was \$26.3 million or 3.5% of sales compared to net earnings of \$13.3 million or 2.2% of sales in the same period of the prior year. The net earnings amount in 2023 was impacted by acquisition and transaction costs of \$0.7 million (net of tax). *Adjusted net earnings*³ for the second quarter of 2023 was \$27.0 million, or 3.6% of sales. This compares to Adjusted net earnings of \$13.6 million or 2.2% of sales in the same period of 2022. Adjusted net earnings for the period was positively impacted by increased sales and improved leveraging of operating expenses.

Basic and Diluted Earnings Per Share was \$1.22 per share for the three months ended June 30, 2023 compared to \$0.62 for the second quarter of 2022. Adjusted net earnings per share was \$1.26 compared to \$0.63 for the second quarter of 2022. The increase in adjusted net earnings per share is primarily attributed to increased sales and improved leveraging of operating expenses.

Year-to-date Comparison - Six months ended June 30, 2023 vs. 2022

Sales

Sales totaled \$1,468.2 million for the six months ended June 30, 2023 an increase of \$298.6 million or 25.5% when compared to the same period of 2022. The increase in sales was the result of the following:

- Same-store sales excluding foreign exchange increased \$253.6 million or 21.9%, and decreased \$7.4 million due to the translation of same-store sales at a lower Canadian dollar exchange rate. The first six months of 2023 recognized the same number of selling and production days when compared to the same period of the prior year. Same-store sales benefited from high levels of demand for services, as well as some increase in production capacity related to technician hiring, growth in the Technician Development Program, as well as productivity improvement, although ongoing staffing constraints continued to impact sales and service levels that could be achieved. Sales also increased based on higher repair costs due to increasing vehicle complexity, increased scanning and calibration services, as well as general market inflation.
- \$54.6 million of incremental sales were generated from 116 new locations that were not in operation for the full comparative period.
- Sales were affected by the closure of under-performing facilities which decreased sales by \$2.2 million.

Same-store sales are calculated by including sales for locations and businesses that have been in operation for the full comparative period.

Gross Profit

Gross Profit was \$669.7 million or 45.6% of sales for the six months ended June 30, 2023 compared to \$522.9 million or 44.7% of sales for the same period of 2022. Gross profit increased primarily as a result of increased sales due to same-store sales and location growth when compared to the prior period. The gross margin percentage was positively impacted by improved parts margins along with increased scanning and calibration services. Labor margins have improved; however, client pricing increases have not been sufficient to move labor margins to historical levels. Performance based programs negatively impacted gross margin during the first six months of 2023 as compared to the same period of the prior year.

³ As defined in the non-GAAP financial measures and ratios section of the MD&A.

Operating Expenses

Operating Expenses for the six months ended June 30, 2023 increased \$92.5 million to \$489.7 million from \$397.1 million for the same period of 2022. The increase in operating expenses was primarily the result of increased sales based on same-store sales as well as location growth, in addition to inflationary increases. Closed locations lowered operating expenses by \$1.1 million.

Operating expenses as a percentage of sales were 33.4% for the six months ended June 30, 2023, which compared to 34.0% for the same period of 2022. The decrease as a percentage of sales was impacted by improved sales levels, which provided improved leveraging of certain operating costs.

Acquisition and Transaction Costs

Acquisition and Transaction Costs for the six months ended June 30, 2023 was \$1.5 million compared to \$0.9 million recorded for the same period of 2022. The costs relate to various acquisitions, including acquisitions from prior periods, as well as other completed or potential acquisitions.

LIQUIDITY AND CAPITAL RESOURCES

Cash flow from operations, together with cash on hand and undrawn credit on existing facilities are expected to be sufficient to meet operating requirements, capital expenditures and dividends. At June 30, 2023, BGSI had cash, net of outstanding deposits and cheques, held on deposit in bank accounts totaling \$19.9 million (December 31, 2022 - \$15.1 million). The net working capital ratio (current assets divided by current liabilities) was 0.61:1 at June 30, 2023 (December 31, 2022 – 0.65:1).

At June 30, 2023, BGSI had total debt outstanding, net of cash, of \$1,004.5 million compared to \$1,008.8 million at March 31, 2023, \$963.0 million at December 31, 2022, \$940.8 million at September 30, 2022 and \$973.7 million at June 30, 2022. Debt, net of cash, decreased when compared to the prior quarter primarily as a result of increased cash flow from operations. During the second quarter of 2023, the Company was able to reduce the level of long term debt held under the revolving credit facility (net of financing costs) from \$184.1 million to \$174.5 million.

Cash used by financing activities included \$46.7 million used to repay lease liabilities and cash used to fund interest costs on lease liabilities of \$10.5 million. Cash was also used to pay dividends totaling \$4.9 million. The Company amended the revolving credit facility during the the six months ended June 30, 2022, resulting in the payment of \$0.5 million of financing costs.

Debt Financing

The Company has a revolving credit facility of \$550 million, with an accordion feature which can increase the facility to a maximum of \$825 million (the “revolving credit facility”, or the “facility”). The revolving credit facility is accompanied by a seven-year fixed-rate Term Loan A in the amount of \$125 million at an interest rate of 3.455%. The revolving credit facility is with a syndicate of Canadian and U.S. banks and is secured by the shares and assets of the Company as well as guarantees by BGSi and subsidiaries, while Term Loan A is with one of the syndicated banks. The interest rate for draws on the revolving credit facility are based on a pricing grid of BGSi’s ratio of total funded debt to EBITDA as determined under the credit agreement. For purposes of covenant calculations, property lease payments are deducted from EBITDA, and EBITDA is further adjusted to reflect pro-forma annualized acquisition results. The Company can draw the facility in either the U.S. or in Canada, in either U.S. or Canadian dollars. The Company can make draws in tranches as required. Tranches bear interest only and are not repayable until the maturity date but can be voluntarily repaid at any time. The Company has the ability to choose the base interest rate between Prime, Bankers Acceptances (“BA”), U.S. Prime or the Secured Overnight Financing Rate (“SOFR”) at the Company’s election. The total syndicated facility includes a swing line up to a maximum of \$10.0 million in Canada and \$30.0 million in the U.S. At June 30, 2023, the Company has drawn \$172.5 million U.S. (December 31, 2022 - \$186.5 U.S.) and \$3.5 million Canadian (December 31, 2022 - \$9.0 million) on the revolving credit facility, \$125.0 million U.S. (December 31, 2022 - \$125.0 million) on the Term Loan A and \$nil U.S. (December 31, 2022 - \$nil) on the swing line.

Under the revolving credit facility, the Company is subject to certain financial covenants which must be maintained to avoid acceleration of the termination of the credit agreement. The financial covenants require BGSi to maintain a senior funded debt to EBITDA ratio of less than 3.50 and an interest coverage ratio of greater than 2.75. For four quarters following a material acquisition, the senior funded debt to EBITDA ratio may be increased to less than 4.00.

The Company supplements its debt financing by negotiating with sellers in certain acquisitions to provide financing to the Company in the form of term notes. The notes payable to sellers are typically at favorable interest rates and for terms of one to 15 years. This source of financing is another means of supporting BGSi’s growth, at a relatively low cost. During the six months ended June 30, 2023, BGSi entered into 16 new seller notes for \$2.9 million.

Shareholders’ Capital

During the first quarter of 2021, the Company instituted a stock option plan for senior management, which was approved by shareholders on May 12, 2021. The Company's stock option plan allows for the granting of options up to an amount of 250,000 Common shares under this plan. Each tranche of the options vests equally over two, three, four and five year periods. The term of an option shall be determined and approved by the People, Culture and Compensation Committee; provided that the term shall be no longer than ten years from the grant date.

On March 31, 2022, the Company issued 18,878 options under the stock option plan with a grant date fair value of C\$47.08 per option and an exercise price of C\$164.68 per option.

On March 29, 2023 and during the second quarter of 2023 the Company issued 28,292 and 435 options, respectively, under the stock option plan with a grant date fair value of C\$71.64 per option and an exercise price of C\$211.26 per option.

Investing Activities

Cash used in investing activities totaled \$47.0 million and \$85.0 million for the three months ended June 30, 2023 and for the six months ended June 30, 2023, respectively. This compares to cash from investing activities of \$45.0 thousand and \$1.9 million used in the same periods of the prior year, respectively. During the first six months of 2022, the Company completed sale leaseback transactions for proceeds of \$51.0 million. The increase in start-up locations resulted in a build up of real estate assets. The Company's strategy has been to not hold real estate. The sale leaseback transactions allowed the Company to replenish capital while continuing to use these properties. Except for the sale leaseback transactions, the remaining investing activity related primarily to new location growth that occurred during each of these periods.

Acquisitions and Development of Businesses

During the six months ended June 30, 2023, the Company added 35 locations through acquisition and 13 start-up locations, for a total of 48 new locations. During the six months ended June 30, 2023, the Company acquired a two location glass business in Minnesota, a single location glass business in Texas, and opened six start-up glass locations.

The Company added 13 locations through acquisition, six start-up locations and four intake centers, for a total of 23 new locations from the beginning of 2022 until the second quarter reporting date of May 10, 2022.

Capital Expenditures

Although most of Boyd's repair facilities are leased, funds are required to ensure facilities are properly repaired and maintained to ensure the Company's physical appearance communicates Boyd's standard of professional service and quality. The Company's need to maintain its facilities and upgrade or replace equipment to meet increased complexity of newer vehicles, signage, computers, software and vehicles forms part of the annual cash requirements of the business. The Company manages these expenditures by annually reviewing and determining its capital budget needs and then authorizing major expenditures throughout the year based upon individual business cases. Excluding expenditures related to acquisition and development, the Company spent approximately \$15.1 million or 2.0% of sales on capital expenditures during the second quarter of 2023. The Company spent \$9.2 million or 1.5% of sales during the same period of 2022.

During 2023, the Company plans to make cash capital expenditures, excluding those related to acquisition and development of new locations, within the range of 1.6% and 1.8% of sales. In addition to these capital expenditures, the Company plans to invest in network technology upgrades to further strengthen our technology and security infrastructure and prepare for advanced technology needs in the future. The investment expected in the second half of 2023 is in the range of \$5 million to \$6 million, with investments expected in 2024 and 2025 to range from \$5 million to \$9 million per year. This investment aligns with Boyd's ESG sustainability roadmap to further strengthen data privacy and cyber security.

LEGAL PROCEEDINGS

Neither BGSI, nor any of its subsidiaries are involved in any legal proceedings which are material in any respect.

RELATED PARTY TRANSACTIONS

Boyd has not entered into any new related party transactions beyond the items disclosed in the 2022 annual report.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements that present fairly the financial position, financial condition and results of operations requires that BGSI make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

The critical accounting estimates are substantially unchanged from those identified in the 2022 annual MD&A.

INTERNAL CONTROL OVER FINANCIAL REPORTING

BGSI's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. Except as noted below, during the second quarter of 2023, there have been no changes in BGSI's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, BGSI's internal control over financial reporting.

On July 1, 2022, as part of the expansion of the Wow Operating Way practices to corporate business processes, the Company transitioned to a new Enterprise Resource Management software system, which resulted in significant changes to the Company's business processes, procedures and internal controls, including the areas of order to cash, procurement to payment and financial reporting. The implementation did not impact underlying operational systems. The Company followed a robust system design and implementation process which involved experienced advisory resources. The Company replaced multiple internal controls over financial reporting with similar internal controls. During the second quarter, additional procedures were performed to ensure key control objectives were achieved.

BUSINESS RISKS AND UNCERTAINTIES

Risks and uncertainties affecting the business remain substantially unchanged from those identified in the 2022 annual MD&A.

ADDITIONAL INFORMATION

BGSI's shares trade on the Toronto Stock Exchange under the symbol TSX: BYD.TO. Additional information relating to the BGSI is available on SEDAR (www.sedar.com) and the Company website (www.boydgroup.com).

Lease liabilities	(22,926)
Identifiable net assets acquired	\$ 26,093
Goodwill	12,042
Total purchase consideration	\$ 38,135
Consideration provided	
Cash paid or payable	\$ 35,221
Seller notes	2,914
Total consideration provided	\$ 38,135

The preliminary purchase prices for the 2023 acquisitions may be revised as additional information becomes available. Further adjustments may be recorded in future periods as purchase price adjustments are finalized.

Canadian acquisition transactions are initially recognized in U.S. dollars at the rates of exchange in effect on the transaction dates. Subsequently, the assets and liabilities are translated at the rate in effect at the Statement of Financial Position date.

A significant part of the goodwill recorded on the acquisitions can be attributed to the assembled workforce and the operating know-how of key personnel. However, no intangible assets qualified for separate recognition in this respect.

Goodwill recognized during 2023 is expected to be deductible for tax purposes.

For the Company's current financial assets and liabilities, including accounts receivable, accounts payable and accrued liabilities, and dividends payable, which are short term in nature and subject to normal trade terms, the carrying values approximate their fair value. The fair value of BGSI's long-term debt has been determined by calculating the present value of the interest rate spread that exists between the actual Term Loan A and the rate that would be negotiated with the economic conditions at the reporting date. As there is no ready secondary market for BGSI's other long-term debt, the fair value has been estimated using the discounted cash flow method.

Collateral

The Company's syndicated loan facility is collateralized by a General Security Agreement. The carrying amount of the financial assets pledged as collateral for this facility at June 30, 2023 was approximately \$174,530 (December 31, 2022 - \$154,334).

13. SEASONALITY

BGSI's financial results for any individual quarter are not necessarily indicative of results to be expected for the full year. Interim period revenues, operating expenses and earnings are typically sensitive to regional and local weather, market conditions, and in particular, to cyclical variations in economic activity and market demand.

14. SEGMENTED REPORTING

BGSI has one reportable line of business, being automotive collision repair and related services, with all revenues relating to a group of similar services. In this circumstance, IFRS requires BGSI to provide geographical disclosure. For the periods reported, all of BGSI's revenues were derived within Canada or the United States of America. Reportable assets include property, plant and equipment, right of use assets, goodwill and intangible assets which are all located within these two geographic areas.
