Financial and operational results for the fourth quarter and full-year 2025 will be released after market close on Wednesday, February 18, 2026.

Jody Kuzenko, President & CEO of Torex, stated:

"After a transformational year that saw us complete and successfully ramp up the Media Luna Project, we capped off 2025 with an excellent close to the year, with fourth quarter payable production of 115,066 oz AuEq based on average market prices for gold, silver, and copper. This resulted in second half payable production 234,100 oz AuEq at market prices, marking a significant step-up over first half payable production of 142,486 oz AuEq and reflecting the go-forward capability of the Morelos Complex, which will become even more evident when our updated five-year outlook is released in conjunction with 2026 operational guidance next week.

"The solid operational performance was driven by another excellent quarter in the processing plant, with average throughput of 10,705 tonnes per day ("tpd") at planned recoveries even with a planned five-day maintenance period in October. Mine production was also a standout with average mining rates of 7,052 tpd at Media Luna and 3,175 tpd at ELG Underground. Media Luna is on track to achieve steady-state production of 7,500 tpd by mid-year, if not earlier, having exited the year well ahead of the targeted average rate of 6,500 tpd.

"With Morelos firing on all cylinders and a robust metal price environment for gold, silver, and copper, Torex is well-positioned to generate significant free cash flow in 2026 and beyond to support our ongoing capital allocation priorities, which include investing in exploration and drilling across our expanded portfolio, advancing key growth projects including Los Reyes, and returning capital to our shareholders."

During 2025, the Company repurchased 825,769 shares at an average price of C\$57 per share and paid an inaugural quarterly dividend of C\$0.15 per share. Post year-end, the Company has continued to opportunistically repurchase shares in the open market.

ABOUT TOREX GOLD RESOURCES INC.

Torex Gold Resources Inc. is a Canadian mining company engaged in the exploration, development, and production of gold, copper, and silver from its flagship Morelos Complex in Guerrero, which is currently Mexico's largest single gold producer. The Company also owns the advanced stage Los Reyes gold-silver project in Sinaloa, Mexico and recently acquired a portfolio of early-stage exploration properties, including the Batopilas and Guigui projects in Chihuahua, Mexico, and the Gryphon and Medicine Springs projects in Nevada, USA.

The Company's key strategic objectives are to: deliver Media Luna to full production and build EPO; optimize Morelos production and costs; grow reserves and resources; pursue disciplined growth and capital allocation; retain and attract best industry talent; and be an industry leader in responsible mining. In addition to realizing the full potential of the Morelos Property, the Company continues to seek opportunities to acquire assets that enable diversification and deliver value to shareholders.
