

Linamar Corporation to Acquire George Fischer's Leipzig Facility

October 7, 2025, Guelph, Ontario, Canada

Linamar Corporation (TSX:LNR) is pleased to announce that it has entered into a definitive agreement to acquire 100% of the equity interest of George Fischer's Leipzig Casting Facility. The transaction, valued at €45 million, diversifies Linamar's casting solutions to include large ductile iron castings for Heavy Industrial On and Off-Highway applications.

Leipzig is a technology leader in ductile iron castings with unique technical capabilities, including Europe's largest molding box for machine-molded iron castings, providing solid growth opportunities for Linamar around highly complex cast components for a broad range of end markets.

The addition of the facility offers a significant amount of technology under one roof - from prototyping & 3D-printing to series production in ductile iron casting, and machining of components. Leipzig supplies components to a broad range of attractive end markets from On Highway Truck to Construction, Forestry and Agricultural Markets and beyond.

The acquisition is immediately accretive.

Linamar Executive Chair, Linda Hasenfratz, said "The completion of the Leipzig facility acquisition provides excellent technology in large ductile iron castings to help Linamar build up our on and off highway commercial vehicle business, a key growth tactic for us this year."

Linamar CEO Jim Jarrell said, "This is a great deal for shareholders. The facility has great technology, continues to build on our diversification, hosts an excellent team, and is within close proximity to some of our Linamar European facilities. This acquisition will also drive both revenue and income growth, and will enhance our Linamar family."

National Bank Capital Markets acted as a Financial Advisor to Linamar on the transaction.

Linamar Corporation (TSX:LNR) is a diversified advanced manufacturing company where the intersection of leading-edge technology and deep manufacturing expertise is creating solutions that power vehicles, motion, work and lives for the future. At the heart of Linamar is the technologies we deliver; casting, forging, metal forming, machining and assembly and fully engineered products. We serve a broad variety of industries, from our On and Off Highway Mobility business to our Agricultural and Access businesses to new areas of expansion in MedTech, Water, Power, Defense and Robotics. We proudly market our global, class leading products under the brands Linamar, Skyjack, MacDon, Salford, Bourgault and McLaren Engineering. Linamar has over 34,000 employees in 75 manufacturing locations, 17 R&D centers and 31 sales offices in 19 countries in North and South America, Europe and Asia, which generated sales of more than \$10.5 billion in 2024.
