## ABOUT SECURE ENERGY SERVICES INC.

Secure is a TSX publicly traded energy infrastructure and services company that provides safe, innovative, efficient and environmentally responsible management of fluids and solids solutions to the oil and gas industry in Western Canada and certain regions in the United States ("U.S."). The Corporation operates three divisions:

**Processing, Recovery and Disposal Division ("PRD"):** The PRD division owns and operates midstream infrastructure including facilities and pipelines providing processing, storing, shipping and marketing of crude oil, oilfield waste disposal and recycling. The PRD division services include clean oil terminalling, rail transloading, pipeline transportation, crude oil marketing, custom treating of crude oil, produced and waste water disposal, oilfield waste processing, landfill disposal, and oil purchase/resale service. Secure currently operates a network of facilities throughout Western Canada and in North Dakota, providing these services at its full service terminals ("FST"), landfills, stand-alone water disposal facilities ("SWD") and full service rail facilities ("FSR").

**Drilling and Production Services Division ("DPS"):** The DPS division provides equipment and product solutions for drilling, completion and production operations for oil and gas producers in Western Canada. Drilling services focuses on providing products and systems that are designed for more complex wells, such as medium to deep wells, horizontal wells and horizontal wells drilled into the oil sands. Production services focuses on providing equipment and chemical solutions that optimize production, provide flow assurance and maintain the integrity of production assets.

**Onsite Services Division ("OS"):** The OS division provides services that include pipeline integrity services (inspection, excavation, repair, replacement and rehabilitation), demolition and decommissioning, reclamation and remediation of former wellsites, facilities, industrial properties, and environmental construction projects (landfills, containment ponds, subsurface containment walls, etc.); Integrated Fluid Solutions ("IFS") which include water management, recycling, pumping and storage solutions; and Environmental services which provide pre-drilling assessment planning, drilling waste management, remediation and reclamation assessment services, Naturally Occurring Radioactive Material ("NORM") management, waste container services, and emergency response services.
