Notes to the Condensed Consolidated Interim Financial Statements

For the three and nine months ended September 30, 2025

(Unaudited, expressed in thousands of Canadian dollars, except share and per share amounts)

1. BUSINESS OVERVIEW

Wesdome Gold Mines Ltd. (“**Wesdome**” or the “**Company**”) is a Canadian focused gold producer with two high-grade underground mine and milling assets, the Eagle River mine, situated west of Wawa, Ontario, and the Kiema mine, located in Val-d’Or, Quebec. The Company’s primary goal is to responsibly leverage its operating platform and high-quality brownfield and greenfield exploration pipeline to build a growing value-driven gold producer.

Wesdome is a public company incorporated under the laws of Ontario. The common shares of the Company are listed on the Toronto Stock Exchange (“TSX”) under the symbol “WDO” with a secondary listing on the OTCQX under the symbol “WDOFF”. The registered and principal office of the Company is located at 220 Bay Street, Suite 1200, Toronto, Ontario, M5J 2W4.

2. BASIS OF PRESENTATION

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – “*Interim Financial Reporting*” (“IAS 34”) using accounting policies consistent with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain disclosures included in annual financial statements prepared in accordance with IFRS have been condensed or omitted and these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2024.

These condensed consolidated interim financial statements include the accounts of Wesdome and the Company’s 100% interest in Angus Gold Inc. (“Angus”).

On June 27, 2025, the Company acquired a 100% interest in Angus.

These condensed consolidated interim financial statements were authorized for issuance by the Board of Directors of the Company on November 4, 2025.

The accounting policies applied in preparation of these condensed consolidated interim financial statements are consistent with those applied and disclosed in the Company’s financial statements for the year ended December 31, 2024.

The preparation of condensed consolidated interim financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The interim results are not necessarily indicative of results for a full year. The critical judgments and estimates applied in the preparation of the Company’s condensed consolidated interim financial statements are consistent with those applied to the Company’s financial statements for the year ended December 31, 2024.

These condensed consolidated interim financial statements are presented in Canadian dollars (“\$”), which is also the functional currency of the Company.

Certain figures for the three and nine months ended September 30, 2024, have been reclassified to be consistent with the current period’s presentation.

3. ACCOUNTING PRONOUNCEMENTS

Standards and amendments issued but not yet effective

The following are the new standards and amendments issued by the IASB which are applicable to the Company's financial statements.

IFRS 18 *Presentation and Disclosure in Financial Statements*

In April 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements*, which is intended to give investors more transparent and comparable information about companies' financial performance, thereby enabling better investment decisions. IFRS 18 introduces new sets of requirements to improve companies' reporting of financial performance and give investors a better basis for analyzing and comparing companies through:

- Improved comparability in the statement of income;
- Enhanced transparency of management-defined performance measures; and
- More useful grouping of information in the financial statements.

IFRS 18 also requires companies to provide more transparency about operating expenses, helping investors to find and understand the information they need. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, but companies can apply it earlier. IFRS 18 replaces IAS 1, however it carries forward many requirements from IAS 1 unchanged. The Company is in the process of assessing the impact upon adoption of this standard on its financial statements.

Amendments to IFRS 9 *Financial Instruments* and IFRS 7 *Financial Instruments: Disclosures*

In May 2024, the IASB issued amendments to the classification and measurement requirements in IFRS 9. The amendments will address diversity in accounting practice by making the requirements more understandable and consistent. These include:

- Clarifying the classification and assessment of contractual cash flows of financial assets including those arising from environmental, social and corporate governance ("ESG")-linked features.
- Settlement of liabilities through electronic payment systems - the amendments clarify the date on which a financial asset or financial liability is derecognized. The IASB also decided to develop an accounting policy option to allow a company to derecognize a financial liability before it delivers cash on the settlement date if specified criteria are met.

With these amendments, the IASB has also introduced additional disclosure requirements to enhance transparency for investors regarding investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features, for example features tied to ESG-linked targets. The amendments are effective for annual reporting periods beginning on or after January 1, 2026. The Company expects no impact upon adoption of these amendments on its financial statements.

Annual improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. The amended Standards are:

- IFRS 1 *First-time Adoption of International Financial Reporting Standards*;
- IFRS 7 *Financial Instruments: Disclosures* and its accompanying *Guidance on implementing IFRS 7*;
- IFRS 9 *Financial Instruments*;
- IFRS 10 *Consolidated Financial Statements*; and
- IAS 7 *Statement of Cash Flows*.

The amendments are effective for annual periods beginning on or after January 1, 2026, with earlier application permitted. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company expects no impact upon adoption of these amendments on its financial statements.

4. SEGMENT INFORMATION

The Company considers each of its mine sites as reportable segments for financial reporting purposes. While the 'corporate and other' financial information is disclosed separately in the table below, it does not represent an operating segment. Instead, it is provided to facilitate a reconciliation of the financial information related to the mines with the Company's total financial information. Wesdome's Chief Operating Decision Maker ("CODM"), its President and Chief Executive Officer, reviews the operating results, assesses performance and makes capital allocation decisions at the mine sites and corporate office. Segment performance is evaluated based upon a number of measures including operating income before tax, production levels and unit production costs.

5. ACQUISITION OF ANGUS

On June 27, 2025, the Company acquired all of the issued and outstanding common shares of Angus not already owned by the Company.

As consideration for the acquisition, Wesdome paid \$33.5 million in cash and issued 517,869 shares representing \$0.62 cash plus 0.0096 of a Wesdome share, for a total aggregate value of \$0.77 per Angus common share.

The company accounted for the acquisition of Angus as an asset acquisition. Significant judgement and estimates were required to determine whether the application of this accounting treatment was appropriate for the transaction. These included, amongst others, the determination that Angus was not considered a business under IFRS 3 – *Business Combinations* as Angus did not have significant inputs, processes, and output, that together constitute a business.

Angus was acquired to support the long-term growth strategy of Eagle River. The exploration property acquired as part of the acquisition has been combined with the Eagle River cash-generating unit.

The following table summarizes the consideration paid and the amounts allocated to the assets acquired and liabilities assumed as at the date of acquisition.

Total Consideration	\$ 49,326
Total consideration in the acquisition was as follows:	
Cash consideration	33,499
Wesdome common shares issued ¹	9,845
Fair value of previously held shares ²	4,977
Transaction costs	1,005
Total consideration	\$ 49,326

1. The fair value of 517,869 common shares issued to Angus shareholders was determined using the Company's share price of \$19.01 per share on June 26, 2025.

2. The fair value of the 6.3 million Angus shares previously held by Wesdome is based on the market price of Angus shares on June 26, 2025, of \$0.79 per share.

10. BORROWINGS

On June 19, 2025, Wesdome executed an amended and restated credit agreement (the “Agreement”) with a syndicate of lenders to upsize the total credit facility to US\$250 million and extend the maturity of its current secured revolving credit facility (the “Credit Facility”) by an additional three years to June 19, 2028. Pursuant to the Agreement, the Credit Facility includes aggregate commitments of US\$250 million with an accordion of US\$50 million for a total of up to US\$300 million. The Credit Facility will be used for general corporate purposes, including, but not limited to, acquisitions, distributions, investments and ongoing mine development. Advances under the Credit Facility bear interest at the Secured Overnight Financing Rate (“SOFR”) plus a margin of 2.25% to 3.25% per annum depending on the Company’s leverage ratio. The Facility is also available for letters of credit. As of September 30, 2025, and as of November 4, 2025, the facility remains undrawn. The standby fees on undrawn amounts under the Credit Facility range from 0.51% to 0.73% over SOFR, depending on the Company’s Leverage Ratio.

The Agreement includes standard customary terms and conditions with respect to fees, representations, warranties and financial covenants. As of September 30, 2025, the Company was in full compliance with the financial covenants stipulated under the Credit Facility. Financing costs of \$2.1 million on the Credit Facility are being recognized in net income over the term of the loan.

The Credit Facility contains various covenants for a loan facility of this nature, including certain limits on indebtedness, and liens. The Credit Facility contains three covenant tests all of which are measured on a rolling four-quarter basis at the end of every quarter:

- The maximum net debt to EBITDA ratio (“Leverage Ratio”)
- Minimum tangible net worth; and
- The minimum interest coverage ratio, being EBITDA to interest

Total lease liabilities, secured by equipment	268	881
Less: current portion	(268)	(730)
Long-term portion	\$ -	\$ 151

12. DECOMMISSIONING PROVISIONS

The Company is committed to a program of environmental management and protection at its mines, development projects and exploration sites, in compliance with federal and provincial laws and regulations. Filed Closure Plans are in place at both Eagle River and Kiena, these plans are updated and amended as required by the relevant regulatory bodies when material changes are contemplated. Activities at Eagle River are covered under four Closure Plans: Eagle River mill, Eagle River mine, Mishi Pit and Magnacon. Work is currently on-going to consolidate the Mishi Pit and Magancon Closure Plans into a single Closure Plan. There is one Closure Plan for the entirety of Kiena.

The Company has recorded the decommissioning costs at its active and dormant mine sites on the basis of management's best estimates of future costs to settle the obligations on the life of mine closing date, based on the most current information available on the reporting date. Although the ultimate amount of decommissioning costs is uncertain, the Company estimated its future conceptual decommissioning costs for Eagle River to be \$16.5 million and Kiena to be \$14.3 million. The estimated costs have been discounted over a period of five to eight years using discount rates between 2.73% and 3.10% as at September 30, 2025. The Company has provided in aggregate \$20.2 million in financial assurances for these future environmental obligations, consolidated for both sites.

The Closure Plan for Eagle River mine was amended and submitted in 2019 to the Ontario Ministry of Northern Development, Mines, Natural Resources & Forestry ("NDMNRF" now the Ministry of Mines) and is currently pending approval and filing, anticipated in 2025. In December 2021, the Company submitted an updated draft of a consolidated Mishi/Magnacon closure plan and this plan is still in the review phase. The Company has obtained financial commitment from a financial institution to amend the reclamation bonds for the anticipated increase in financial assurance to be provided to the government for the estimate of the financial assurance requirements.

In support of the restart decision of operations, the Company submitted an updated closure plan for Kiena to the Ministère des Ressources Naturelles et des Forêts ("MRNF") in 2021, with additional information provided in 2023 and early 2024. The plan was approved in November 2024 by MRNF and a first letter of guarantee was submitted by Wesdome to the MRNF at the end of January 2025.

a) Change in decommissioning provisions

The following table presents the reconciliation of the aggregate carrying amount of the obligation associated with the retirement of mining properties:

	<u>Eagle River</u>	<u>Kiena</u>	<u>September 30, 2025</u>	<u>December 31, 2024</u>
Balance, beginning of the period	\$ 16,144	\$ 13,005	\$ 29,149	\$ 20,703
Accretion expense for the period	370	305	675	911
Changes in estimates	362	228	590	7,535
	<u>\$ 16,876</u>	<u>\$ 13,538</u>	<u>\$ 30,414</u>	<u>\$ 29,149</u>

As at September 30, 2025, the decommissioning provision has been increased by \$0.6 million for changes in estimates, with the corresponding increase in mining assets, resulting primarily from changes in discount rates.

As at December 31, 2024, the decommissioning provision has been increased by \$7.5 million for changes in estimates, with the corresponding increase in mining assets, resulting primarily from remeasurement for changes in timelines for Eagle River, changes in discount rates and from an increase in closure cost estimates for Kiena.

b) Reclamation bond

The Company has an agreement with a financial institution whereby the financial institution has issued unsecured reclamation bonds to the extent of \$9.5 million to satisfy the Company's financial assurance requirements for Eagle River, and \$10.7 million to satisfy Kiena requirements. As at September 30, 2025, the total reclamation bonds issued to government environmental agencies amounted to \$20.2 million (December 31, 2024 - \$16.6 million).

13. CAPITAL STOCK

Authorized, issued and outstanding common shares

Common shares, no par value, authorized unlimited number of shares, issued and outstanding were 150,966,562 and 149,873,612 for the nine months ended September 30, 2025 and September 30, 2024 respectively.

Base Shelf Prospectus

In November 2024, the Company renewed its short form base shelf prospectus with the securities regulators in each of the provinces and territories of Canada under the applicable Well-Known Seasoned Issuer procedures. The base shelf prospectus allows the Company to offer and issue common shares, debt securities, warrants, subscription receipts, units or any combination thereof during the 25-month period over which the base shelf prospectus is effective. The Company refreshed its base shelf prospectus in order to maintain its financial flexibility as it continues to advance its business plans but has no immediate plans to issue any securities under it at this time and may never proceed with any such issuance. Should the Company decide to offer securities during the 25-month effective period, the specific terms, including the use of proceeds, will be set forth in a prospectus supplement to the short form base shelf prospectus, which will be filed with the applicable Canadian securities regulatory authorities.

14. STOCK-BASED COMPENSATION

On June 2, 2020, the shareholders of the Company approved the 2020 Equity Incentive Plan pursuant to which it is able to issue share-based long-term incentives. All service providers (employees, officers and directors) are eligible to receive awards, as defined below, under the 2020 Equity Incentive Plan. The 2020 Equity Incentive Plan replaced the Company's existing stock option plans which remain in effect, but no further options will be issued thereunder.

Under the 2020 Equity Incentive Plan, the maximum number of common shares issuable from treasury pursuant to awards shall not exceed 11,695,556. As at September 30, 2025, awards to purchase 1,429,345 common shares of Wesdome were available for grant under the equity incentive plans.

On May 27, 2025, the Company granted 53,269 (June 18, 2024 – 76,918) DSUs to non-management board members under its 2020 Equity Incentive Plan. All of the DSUs are fully vested at the grant date and become payable upon retirement of the directors.

The fair value of the stock options, RSUs, PSUs and DSUs awarded to employees and officers that will eventually vest, determined as of the date of grant, is recognized as share-based compensation expense over the vesting period of the equity instruments, with a corresponding increase to contributed surplus. The fair value of stock options is determined using the Black-Scholes option pricing model with market related inputs as of the date of grant and the fair value of RSUs, PSUs and DSUs is the market value of the underlying shares as of the date of grant. The PSUs contain a market condition, which is reflected in the grant date fair value of the awards.

For the three and nine months ended September 30, 2025 and 2024, grant date fair value estimates were based on the following variables:

	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024
Weighted average fair value, per option (\$)	21.00	4.56	15.86	3.93

21. FINANCIAL INSTRUMENTS

Fair Values

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means.
- Level 3 inputs are unobservable (supported by little or no market activity).

The following table sets out the fair values of recognized financial instruments using the valuation methods and assumptions described below:

	September 30, 2025	December 31, 2024
	Carrying amount	Carrying amount
Financial Assets		
Cash	\$ 265,893	\$ 123,097
Accounts receivable	2,712	2,481
Warrants	1,401	225
Restricted cash	2,661	2,804
Share consideration receivable	-	3,121
Marketable securities	19,440	4,206
	<u>\$ 292,107</u>	<u>\$ 135,934</u>
Financial Liabilities		
Accounts payable and accrued liabilities	\$ 71,737	\$ 53,153
	<u>\$ 71,737</u>	<u>\$ 53,153</u>

The fair value of cash, accounts receivable, restricted cash and payables approximate their carrying amounts. Marketable securities are measured at fair value using quoted prices in active markets which are considered Level 1 inputs. The fair value of the warrants and share consideration receivable is considered a level 3 measurement.

Financial Instrument and Related Risks

1) Market Risk

Market risk is the risk or uncertainty arising from possible market price movements and their impact on the future performance of the business. The market price movements that could adversely affect the value of the Company's financial assets and liabilities include commodity price risk, foreign currency exchange risk and interest rate risk.

(a) Commodity price risk

The Company's financial performance is closely linked to the price of gold which is impacted by world economic events that dictate the levels of supply and demand. The Company had no gold price hedge contracts in place as at or during the three and nine months ended September 30, 2025 and 2024.

(b) Foreign currency exchange risk

The Company's revenue is exposed to changes in foreign exchange rates as the Company's primary product, gold, is priced in U.S. dollars. The Company's credit facility is also valued in U.S. dollars. This gives rise to a risk that its revenue and debt may be adversely impacted by fluctuations in foreign exchange. The Company had no forward exchange rate contracts in place as at or during the nine months ended September 30, 2025 and 2024.

(c) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to cash flow interest rate risk. The Company's cash includes highly liquid investments that earn interest at market rates. Fluctuations in market rates of interest do not have a significant impact on the Company's results of operations due to the short-term maturity of the investments held.

2) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company believes it has access to sufficient capital through internally generated cash flows and equity and debt capital markets. Executive management is also actively involved in the review and approval of planned expenditures.

The following table shows the timing of cash outflows relating to payables and accruals, leases and other financial obligations as at September 30, 2025:

	<1 Year	1-2 Years	3-5 Years	Over 5 Years
Accounts payable and accrued liabilities	\$ 71,737	\$ -	\$ -	\$ -
Lease liabilities	279	-	-	-
Purchase commitments	63,020	-	-	-
Decommissioning provisions	-	-	-	30,813
Total	<u>\$ 135,036</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 30,813</u>

3) Credit Risk

Credit risk is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The Company minimizes its credit risk by selling its gold exclusively to financial institutions. The Company's receivables consist of consideration receivable, government refunds and credits and advances to vendors on projects at the mines.

The Company estimates its maximum exposure to be the carrying value of cash and receivables. The Company manages the credit risk of cash and receivables by maintaining bank accounts and term deposits with Schedule 1 Canadian banks. The Company's cash is not subject to any external limitations. The Company limits risk on its consideration receivable by entering into business arrangements with highly rated counterparties.

22. SUBSEQUENT EVENT

On October 21, 2025, the Company announced the initiation of a Normal Course Issuer Bid ("NCIB") to repurchase up to 2% of the Company's public float (the "Shares") over the next 12 months, which has since been approved by the Toronto Stock Exchange (the "TSX"). The number of Shares that could be purchased pursuant to the NCIB would be subject to a daily maximum of 182,093 Shares. The actual number of Shares that may be purchased by the Company pursuant to the NCIB, and the timing of such purchases, will be determined by management of the Company and will be subject to a number of factors, including market conditions, share price, available cash resources, and other opportunities to invest capital for growth, however the Company currently intends to acquire up to 3,013,315 Shares pursuant to the NCIB over the next 12 months. As of September 30, 2025, and as of November 4, 2025, the Company did not repurchase any common shares under the NCIB.
