FORAN MINING CORPORATION
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2017
(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Foran Mining Corporation (the "**Company**") is a publicly listed company on the TSX Venture Exchange, incorporated under the laws of British Columbia. The Company and its subsidiary are involved in activities that include the acquisition and exploration of mineral properties.

The Company's head office and registered and records office is located at 904 - 409 Granville Street, Vancouver, British Columbia, V6C 1T2.

These condensed consolidated interim financial statements have been prepared on the going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company realized a net loss of \$103,807 for the three months ended March 31, 2017 (2016: \$315,435). As at March 31, 2017, the Company had an accumulated deficit of \$45,370,212 (December 31, 2016: \$45,266,405). In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period.

The Company has incurred significant operating losses in its exploration operations and its ability to continue as a going concern is dependent upon the discovery of economically recoverable mineral reserves, the ability of the Company to obtain necessary financing to complete their development and fund their operations until commercially successful and future production or proceeds from the disposition thereof. While the Company has been successful in securing financing to date, there can be no assurances that it will be able to do so in the future. These uncertainties raise significant doubt about the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported expenses and the consolidated statement of financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

2. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – *Interim Financial Reporting* ("**IAS 34**") as issued by the International Accounting Standards Board ("**IASB**") using accounting principles consistent with International Financial Reporting Standards ("**IFRS**") as issued by the IASB.

These condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2015 which include the accounting policies used in the preparation of these condensed consolidated interim financial statements.

These condensed consolidated interim financial statements were prepared on a historical cost basis using the accrual basis of accounting, except for cash flow information.

The Board of Directors (the "**Board**") approved these condensed consolidated interim financial statements on May 23, 2017.

3. INVESTMENTS

During the three months ended March 31, 2017, the Company sold shares of a mineral exploration company listed on the Canadian Securities Exchange for proceeds of \$257,028. The Company recorded a realized gain of \$257,028 from the sale of these shares.

As at March 31, 2017, the Company owned shares of one mineral exploration company listed publicly on the Canadian Securities Exchange that were classified as available-for-sale (“**AFS**”) and carried at fair market value based on quoted market prices. A summary of the changes in AFS investments is presented below:

a) Mcllvenna Bay, Saskatchewan

The Company owns a 100% interest in the Mcllvenna Bay mineral property located in Saskatchewan ("**Mcllvenna Bay**").

Certain claims that make up the Mcllvenna Bay property are subject to a Net Tonnage Royalty of \$0.75 per tonne of ore extracted, with a right of first refusal in favour of the Company if an offer to purchase the Net Tonnage Royalty is made.

Cameco Corporation and BHP Billiton Limited collectively hold a 1% net smelter return ("**NSR**") royalty interest in Mcllvenna Bay, which can be purchased at any time for \$1,000,000.

b) Other Saskatchewan Properties

The Company holds interests ranging from 65% to 100% in five mining claim groups in its Saskatchewan property portfolio, exclusive of Mcllvenna Bay ("**Other Saskatchewan Properties**").

The Company has committed, through previous mineral property ownership agreements associated with its Other Saskatchewan Properties, to pay various NSR and net profits interest ("**NPI**") royalties. The NSR royalties range from 2% to 2.5%, with buyout provisions for up to one-half of some of these NSR royalties, and the NPI royalties range from 6% to 10%.

In October 2014, the Company completed an agreement (the "**Back-in Agreement**") with Teck Resources Limited ("**Teck**") to extinguish back-in rights held by Teck on certain of the Company's Saskatchewan properties. In consideration for the extinguishment of the back-in rights, the Company issued 1,000,000 common shares of the Company with a fair value of \$240,000 and

5. EXPLORATION AND EVALUATION ASSETS (continued)

1,000,000 share purchase warrants with a fair value of \$82,581 to Teck, the amounts of which were capitalized to exploration and evaluation assets. Each warrant was exercisable into one common share of the Company at a price of \$0.24 per share with an expiry of October 14, 2016. The warrants expired unexercised on October 14, 2016.

In the event the Company sells or options any of the properties included in the Back-in Agreement prior to September 30, 2018, the Company will pay Teck in-kind an amount equal to 10% of the proceeds.

c) Manitoba Property

The Company holds a 100% interest in one Manitoba property consisting of one claim, which has a carrying value of \$Nil at March 31, 2017.

6. DEFERRED SHARE UNITS

The Company has a deferred share unit plan (“**DSU Plan**”) which awards DSUs to participants of the DSU Plan. Each DSU entitles the holder a right to receive the cash equivalent of one common share. Awards are initially charged to profit or loss using the market value of the Company’s shares that best represents the period for which the awards were earned, with the corresponding liability recorded as deferred share units. At each period end, the liability is revalued using the market value of the Company’s common shares, with the corresponding increase or decrease recorded to profit or loss as a revaluation of deferred share units.

Upon separation from the Company, a participant will receive the cash equivalent of the fair market value of the DSUs based on the market value of the Company’s common shares on the date of the separation.

Effective December 1, 2014, the Company entered into an agreement with its Executive Chairman whereby the Executive Chairman is compensated for his services with DSUs on a monthly basis, to a maximum of \$8,000 per month. Effective January 1, 2016, the Chairman agreed to reduce his monthly DSU allocation by approximately 50%. For the three months ended March 31, 2017, the Executive Chairman earned 32,766 DSUs (2016: 153,030) for a total value of \$12,000 (2016: \$12,000) which is recorded as salaries and benefits. At March 31, 2017, an amount of \$284,149 (December 31, 2016: \$265,112) was owed to the Executive Chairman with the liability included in deferred share units on the condensed consolidated interim statement of financial position. The number of outstanding DSUs owed to the Executive Chairman at March 31, 2017 was 887,965 (December 31, 2016: 855,199).

Effective January 1, 2015, the Company commenced compensating each of its independent directors with DSUs in an amount of \$4,000 per quarter. Effective October 1, 2015, the Company’s Board passed a resolution to suspend both the DSU arrangement and fees with its independent directors.

The total number of outstanding DSUs owed to independent directors at March 31, 2017 was 193,087 (December 31, 2016: 193,087). At March 31, 2017 an amount of \$61,788 (December 31, 2016: \$59,857) was owed to the independent directors with the liability included in deferred share units on the condensed consolidated interim statement of financial position.

For the three months ended March 31, 2017, an unrealized loss of \$8,969 (2016: \$26,761) was recognized on the revaluation of DSUs.

d) Share-based payments

The share-based payments expense for the stock options that vested during the three months ended March 31, 2017 was \$182,332 (2016: \$77,732). Of this amount, \$142,970 (2016: \$59,738) was recorded as share-based payments expense in the condensed consolidated interim statement of loss and comprehensive loss and \$39,362 (2016: \$17,994) was capitalized to exploration and evaluation assets. The fair value of the stock options that vested during the three months ended March 31, 2017 and 2016 was calculated using the Black-Scholes option pricing model with the following weighted average assumptions:

	<u>2017</u>	<u>2016</u>
Risk-free interest rate	0.71%	0.91%
Expected stock price volatility	79%	75%
Expected dividend yield	0.0%	0.0%

8. SUPPLEMENTAL CASH FLOW INFORMATION

The net change in non-cash operating working capital balances for the three months ended March 31 consisted of the following:

	2017	2016
	\$	\$
Accounts receivable	(10,156)	14,879
Prepaid expenses and deposits	3,192	12,042
Accounts payable and accrued liabilities	16,951	(69,780)
	<u>9,987</u>	<u>(42,859)</u>

During the three months ended March 31, 2017 and March 31, 2016, share-based payments expense of \$39,362 and \$17,994, respectively, were capitalized to exploration and evaluation assets.

As at March 31, 2017, accounts payable and accrued liabilities included \$250,495 (December 31, 2016: \$450) of expenditures for exploration and evaluation assets.

9. FINANCIAL INSTRUMENTS

The Company examines the various financial instruments to which it is exposed and assesses the impact and likelihood of those risks. These risks include credit risk, liquidity risk and market risk (including interest rate, currency and other price risk). The risk related to financial instruments is managed by senior management of the Company under policies and directions approved by the Board. Relevant policies include the Treasury Management Policy and the approval allowing a portion of the Company's cash to be held in US dollars at the discretion of the Chief Executive Officer and the Chief Financial Officer. The Board monitors these policies on a quarterly basis. The Company's Board has not approved the use of derivative financial products.

a) Fair value of financial instruments

The fair value hierarchy established by IFRS 13 *Fair Value Measurement* has three levels to classify the inputs to valuation techniques used to measure fair value described as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the assets or liabilities either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The fair values of the Company's accounts receivable, deposits and accounts payable are equivalent to their carrying values due to their short-term nature. AFS financial instruments are comprised of investments, which are valued using Level 1 measurements.

b) Credit risk

Credit risk is the risk of an unexpected loss if a party to a financial instrument fails to meet its contractual obligations.

The credit risk associated with cash and cash equivalents is minimized as these financial instruments are held with major Canadian commercial banks. In respect of accounts receivable, the Company is not exposed to significant credit risk as the majority consists of amounts due from Canadian governmental agencies.

9. FINANCIAL INSTRUMENTS (continued)

c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has in place a planning and budgeting process to determine the funds required to support the Company's operating requirements as well as its planned capital expenditures. The Company manages its financial resources to ensure there is sufficient working capital to fund near term planned exploration work and operating expenditures. The Company has considerable discretion to reduce or increase plans or budgets depending on current or projected liquidity. When appropriate, the Company will seek joint venture partners in order to fund or share the funding of its exploration properties to minimize shareholder risk.

d) Market risk

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to short-term interest rates through the interest earned on cash and cash equivalents. A 1% change in short-term rates would not have a material impact on net loss or comprehensive loss.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company holds substantially all of its cash resources in Canadian dollars with an insignificant amount held in US dollars, making currency risk minimal.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financing instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is exposed to other price risk in terms of its investment.

10. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Company's strategy remains unchanged from the year ended December 31, 2015.

The Company considers the items included in equity as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares, or acquire or dispose of assets.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary. The annual budgets are approved by the Board.

10. CAPITAL MANAGEMENT (continued)

In order to maximize ongoing exploration efforts, the Company does not pay dividends. The Company's treasury management policy is to invest its cash in highly rated liquid short-term interest bearing investments with an initial term to maturity of twelve months or less.

The Company is not subject to externally imposed capital requirements.
