

SNOWLINE GOLD CORP

SNOWLINE ANNOUNCES GRADUATION TO THE TORONTO STOCK EXCHANGE

Vancouver, B.C., NOVEMBER 28, 2025: SNOWLINE GOLD CORP. (TSX-V: SGD) (US OTCQB: SNWGF) (the “Company” or “Snowline”) is pleased to announce that it has received final approval to list its common shares (the “Common Shares”) on the Toronto Stock Exchange (the “TSX”) and graduate from the TSX Venture Exchange (the “TSXV”). The Common Shares will begin trading on the TSX at market open on December 2, 2025, and will continue to trade under its current symbol, “SGD”.

In connection with the TSX listing, the Common Shares will be voluntarily delisted from the TSXV, effective as of the close of market on December 1, 2025. Shareholders are not required to exchange their share certificates or take any other action in connection with the TSX listing, as there will be no change in the trading symbol or CUSIP for the Common Shares.

“This is a significant milestone for the Company, and we are thrilled to have received approval to list on the TSX,” said Scott Berdahl, CEO & Director of Snowline. “We expect this listing to enhance our visibility, broaden our investor base, increase liquidity, and provide eligibility for potential index inclusion. This move reflects our rapid progress to derisk our business as well as the high-quality nature of our flagship Valley gold deposit, which is emerging as a globally relevant project.”

ABOUT SNOWLINE GOLD CORP.

Snowline Gold Corp. is a Yukon Territory focused gold exploration and development company with mineral claim portfolio covering roughly 360,000 ha (3,600 km²). The Company is advancing its Valley gold deposit – a large, low-strip, near surface, >1 g/t Au bulk tonnage gold system located in the eastern Yukon – while continuing regional exploration of surrounding targets on the Rogue Project and the broader district in the highly prospective yet underexplored Selwyn Basin.

Valley hosts an open mineral resource estimate (“MRE”) of 7.94 million ounces gold at 1.21 g/t Au in the Measured and Indicated categories (3.15 million ounces gold at 1.41 g/t Au Measured mineral resources and 4.79 million ounces gold at 1.11 g/t Au Indicated mineral resources) and an additional 0.89 million ounces gold at 0.62 g/t Au in the Inferred category¹. Results of a preliminary economic assessment (“PEA”) of Valley suggest the potential for the deposit to support a long-life mining operation with a strong production profile and low production costs. The MRE and PEA are supported by the recent technical report for the Rogue Project, prepared in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* (“NI 43-101”) standards, entitled “Independent Preliminary Economic Assessment for the Rogue Project Yukon, Canada,” dated August 27, 2025, with an effective date of March 1, 2025 and available on SEDAR+ and the Company’s website.

Snowline’s project portfolio sits within the prolific Tintina Gold Province, host to multiple million-ounce-plus gold mines and deposits across the central Yukon and Alaska. The

¹ Mineral resources are not mineral reserves and do not have demonstrated economic viability. The estimate of mineral resources may be materially affected by metal prices, economic factors, environmental, permitting, legal, title, or other relevant issues.

Company's comprehensive first-mover position and extensive exploration database provide a distinct competitive advantage and a unique opportunity for investors to be part of multiple discoveries, the advancement of a significant gold deposit, and the creation of a new gold district.

QUALIFIED PERSON

Information in this news release has been prepared under supervision of and approved by Thomas Branson, M.Sc., P. Geo., Vice President Exploration for Snowline, as Qualified Person for the purposes of NI 43-101.

ON BEHALF OF THE BOARD

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This news release contains certain forward-looking statements, including statements regarding the listing of the Common Shares on the TSX, concurrent delisting of the Common Shares from the TSXV, the expected benefits of the TSX uplisting, including enhanced visibility, broadened investor base, increased liquidity, and potential eligibility for the index inclusion, MREs and the creation of a new gold district. Wherever possible, words such as "may", "will", "should", "could", "expect", "plan", "intend", "anticipate", "believe", "estimate", "predict" or "potential" or the negative or other variations of these words, or similar words or phrases, have been used to identify these forward-looking statements. These statements reflect management's current beliefs and are based on information currently available to management as at the date hereof.

Forward-looking statements involve significant risks, uncertainties and assumptions. Many factors could cause actual results, performance or achievements to differ materially from the results discussed or implied in the forward-looking statements. Such factors include, among other things: risks related to uncertainties inherent in drill results and the estimation of mineral resources; and risks associated with executing the Company's plans and intentions. These factors should be considered carefully, and readers should not place undue reliance on the forward-looking statements. Although the forward-looking statements contained in this news release are based upon what management believes to be reasonable assumptions, the Company cannot assure readers that actual results will be consistent with these forward-looking statements. These forward-looking statements are made as of the date of this news release, and the Company assumes no obligation to update or revise them to reflect new events or circumstances, except as required by law.
