Notes to the Unaudited Condensed Financial Statements

September 30, 2017

1. Nature of operations

Corridor Resources Inc. ("Corridor" or the "Company") is a Canadian junior resource company engaged in the exploration for and development and production of petroleum and natural gas onshore in New Brunswick and offshore in the Gulf of St. Lawrence. Corridor is a public company incorporated under the Alberta Business Corporations Act with common shares listed on the Toronto Stock Exchange under the symbol "CDH". Corridor's head office is located at 5475 Spring Garden Road, Halifax, Nova Scotia, B3J 3T2.

2. Basis of presentation

These unaudited condensed financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), and in accordance with IAS 34 - *Interim Financial Reporting*. The unaudited condensed financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2016. These unaudited condensed financial statements have been prepared following the same accounting policies as the Company's audited financial statements for the year ended December 31, 2016.

On November 13, 2017, the unaudited condensed financial statements were approved by the Board of Directors and signed by the chair of the Audit Committee and the President and Chief Executive Officer of the Company.

3. New accounting standards

The following are the new accounting standards that have been issued but are not yet effective.

IFRS 15, "*Revenue from Contracts and Customers*" ("IFRS 15") is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. IFRS 15 establishes a new control-based revenue recognition model and replaces IAS 18, "*Revenue*" and IAS 11, "*Construction Contracts*", and some revenue related interpretations. The underlying principle is that an entity will recognize revenue to depict the transfer of goods and services to customers at an amount the entity expects to be entitled to in exchange for those goods and services. The Company is currently evaluating the new standard and does not expect there to be a material impact on its financial statements.

IFRS 9, "*Financial Instruments*" ("IFRS 9") will replace IAS 39, "*Financial instruments: recognition and measurement*". The standard is effective for annual periods beginning on or after January 1, 2018. IFRS 9 includes requirements for recognition and measurement, impairment, derecognition and general hedge accounting. The Company is currently evaluating the impact of this new standard on its financial statements.

IFRS 16, "*Leases*" ("IFRS 16"), will replace IAS 17, "*Leases*". The new standard results in substantially all leases being recorded on the consolidated statement of financial position of the lessee. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with early adoption permitted. The Company is currently evaluating the impact of this new standard on its financial statements.

4. Interest and other

5. Income taxes

Deferred income tax expense differs from the amount which would be obtained by applying the Canadian statutory income tax rates to the income (loss) before income taxes as follows:

(thousands of dollars)

	Three months ended September 30		Nine months ended September 30	
	2017	2016	2017	2016
Income (loss) before income taxes	\$ 3,826	\$ (1,261)	\$ 4,141	\$ (30,151)

Originating temporary differences recorded at the future income tax rates expected to be in effect when realized	12	(4)	14	(89)
	-	-	-	\$ 11,456

Following a decrease in estimated future natural gas prices and the announcement by the Government of New Brunswick of its decision to continue a moratorium on hydraulic fracturing for an indefinite period, the Company wrote-down its deferred income tax assets balance in 2016 as management determined it was no longer probable that there would be sufficient taxable profits from operations and sufficient reversal of taxable temporary differences to facilitate the utilization of the underlying tax deductible amounts. As a result, the Company did not recognize deferred income tax expenses of \$2,146 thousand for the nine months ended September 30, 2017.

6. Income per share

For the three and nine months ended September 30, 2017, stock options of 2,233 thousand and 2,741 thousand (three and nine months ended September 30, 2016 – 3,075 thousand) were excluded from the dilution calculation since the average market price for the period was lower than the exercise price.

During the quarter, Corridor received \$19.5 million from the Québec Government as part of a settlement agreement effective July 28, 2017 which facilitates an end to Corridor's participation in oil and gas exploration on Anticosti Island, Québec. The Québec Government has also agreed to assume all abandonment and reclamation obligations in respect of three Anticosti wells in which Corridor has an interest outside of Anticosti Hydrocarbons L.P. As a result, Corridor has recognized a gain on disposition of assets of \$5,646 thousand and has decreased its decommissioning liability by \$125 thousand.

Notes to the Unaudited Condensed Financial Statements

September 30, 2017

10. Decommissioning liability

The change in the decommissioning liability is due to the following:

(thousands of dollars)

	Nine months ended September 30, 2017	Year ended December 31, 2016
Balance, beginning of period	\$ 9,636	\$ 9,121
Change in discount rate	(611)	455
Change in estimate	(125)	(265)
Finance costs	221	325
Balance, end of period	\$ 9,121	\$ 9,636

The total undiscounted amount of estimated cash flows required to settle these obligations is \$14,016 thousand (December 31, 2016 - \$14,406 thousand). Management estimates the settlement of these obligations between 2018 and 2038. At September 30, 2017, a risk-free rate of 2.18% (December 31, 2016 – 1.97%) and an inflation rate of 2% (December 31, 2016 – 2%) was used to calculate the estimated fair value of the decommissioning liability.

12. Share-based compensation

a) **Stock options**

The Company has a stock option plan under which options to purchase common shares of the Company may be granted to directors, officers, employees and consultants of the Company. The stock option plan is limited to 8,262,513 common shares with no more than 5% being issued to any one officer, director or employee. On May 12, 2014, the Board of Directors determined that non-employee directors would no longer be eligible to receive stock option grants. The exercise price of each option is based on the market price for the common share on the close of the day prior to the date the option was granted. Options granted under the plan generally vest over a three year period and expire five years after the grant date. Participants of the stock option plan can elect to surrender any vested option in exchange for a cash payment based on the difference between the market value of the common share and the exercise price of the option. The Board of Directors has the sole discretion to consent to or deny this election.

12. Share-based compensation (continued)

The following table summarizes the changes in the outstanding stock options:

(thousands of options)

	Nine months ended September 30, 2017		Year ended December 31, 2016	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price

Options exercisable, end of period	2,445	\$ 0.80	2,950	\$ 1.23

The range of exercise prices of stock options outstanding and exercisable as at September 30, 2017 is as follows:

(thousands of options)

Exercise prices	Outstanding options			Exercisable options		
	Number of options outstanding	Weighted average remaining term (years)	Weighted average exercise price	Number of options exercisable	Weighted average exercise price	
\$ 0.40 - \$ 0.99	2,498	1.98	\$ 0.61	1,845	\$ 0.66

	3,398	2.02	\$ 0.78	2,445	\$ 0.80	

The fair value of options granted is estimated using the Black-Scholes option pricing model with the following assumptions:

	Nine months ended September 30, 2017	Year ended December 31, 2016
Weighted average fair value of options granted	\$ 0.27	\$ 0.21
Risk-free interest rate	1.0%	0.4%
Expected life (years)	4.0	4.0
Expected volatility	69%	72%

For the three and nine months ended September 30, 2017, the Company recorded share-based compensation expense with an offsetting increase to contributed surplus of \$44 thousand and \$173 thousand relating to the stock option plan (three and nine months ended September 30, 2016 - \$64 thousand and \$220 thousand).

b) Deferred share units

The Company has a deferred share unit ("DSU") plan for directors. Each vested DSU will automatically be redeemed on the third business day after the date the director ceases to be a director of Corridor. When redeemed, each vested DSU will be paid based on the weighted average trading price of the common shares over the five previous trading days. During the period, the fair value of the DSUs granted and the changes in their fair value were recognized as share-based compensation expense on the Statement of Income with a corresponding amount recorded in accounts payable and accrued liabilities on the Statement of Financial Position.

Notes to the Unaudited Condensed Financial Statements

September 30, 2017

12. Share-based compensation (continued)

The following table summarizes the changes in the outstanding DSUs:

(thousands of dollars and thousands of DSUs)

14. Risk management

a) The Company is exposed to the following risks:

i) Commodity price risk

Corridor enters into financial derivative contracts or physical delivery contracts to manage the risks associated with fluctuations in natural gas prices. The Company does not use derivative financial instruments for speculative purposes.

Financial derivatives

The Company had the following financial derivative contracts at September 30, 2017.

Type	Period	Daily Volume	Price	Index
Swap	December 1, 2017 to March 31, 2018	2,500 mmbtu	\$US7.40/mmbtu	Algonquin city-gates-daily
Swap	December 1, 2017 to February 28, 2018	2,500 mmbtu	\$US7.826/mmbtu	Algonquin city-gates-monthly

As security for this financial swap, the bank has the authority to hold Corridor funds in the amount of \$US3.7 million.

Notes to the Unaudited Condensed Financial Statements

September 30, 2017

14. Risk management (continued)

The following financial derivatives gain is reflected in the Statement of Income:

(thousands of dollars)

	Three months ended September 30		Nine months ended September 30	
	2017	2016	2017	2016
Realized financial derivatives gain	-	-	\$ 1,094	-
Change in unrealized gain (loss) on financial derivatives	(66)	-	197	-
Financial derivatives gain (loss)	\$ (66)	-	\$ 1,291	-

Physical delivery contracts

The Company has forward sale agreements for the period from December 1, 2017 to March 31, 2018 for substantially all of its natural gas production. This production will be sold based on a combination of daily and monthly natural gas prices at Algonquin city-gates but will be sold at a different delivery point therefore incurring lower transportation expenses.

The Company's physical delivery contracts are not considered financial instruments therefore, no asset or liability has been recognized.

ii) Foreign currency risk

The Company is exposed to fluctuations in the exchange rate between the Canadian dollar and the U.S. dollar. Natural gas prices, condensate prices and transportation expenses are based upon reference prices denominated in U.S. dollars, while the Company's remaining expenses are denominated in Canadian dollars. The Company does not have any derivative financial instruments in place to manage this risk.

The Company had the following financial instruments denominated in U.S. dollars at the Statement of Financial Position dates.

(thousands of U.S. dollars)

	September 30, 2017	December 31, 2016
Cash	\$ 5,821	\$ 200
Receivables	-	1,286
Payables	(44)	(188)
Financial instruments in U.S. dollars	\$ 5,777	\$ 1,298

At September 30, 2017, a 5% decrease in the U.S. dollar relative to the Canadian dollar would have resulted in a decrease of \$360 thousand in the Company's net income (September 30, 2016 – \$45 thousand) due to a decrease in the financial instruments denominated in U.S. dollars. Conversely, a 5% increase in the U.S. dollar relative to the Canadian dollar would have resulted in an increase of \$360 thousand in the Company's net income (September 30, 2016 – \$45 thousand).

iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. At September 30, 2017, the Company was holding cash and cash equivalents of \$48,892 thousand.

Given the Company's available liquid resources and the Company's 2017 budget, management expects to have sufficient available funds to meet the current and foreseeable financial liabilities as disclosed in the Company's December 31, 2016 audited financial statements.

Notes to the Unaudited Condensed Financial Statements

14. Risk management (continued)

iv) Credit risk

Corridor sells all of its production to one large credit-worthy purchaser under normal industry payment terms. Corridor's receivables from joint venture partners are also subject to normal credit risks in the natural gas industry. Management believes credit risk on these amounts is low and has not made any provision for an allowance for bad debts. The cash equivalents consist mainly of guaranteed investment certificates held with banks with high credit-ratings assigned by international credit-rating agencies. Management believes the risk of loss is low.

b) Management of capital

Management's objectives when managing capital are to provide an adequate return to its shareholders and to safeguard the Company's ability to obtain financing and have access to capital. In the management of capital, the Company includes shareholders' equity and cash and cash equivalents. To facilitate the management of its capital structure, the Company prepares annual expenditure and operating budgets that are updated as necessary depending on success factors, industry conditions and operating cash flow. These annual and updated budgets are approved by the Board of Directors. Corridor has the ability to adjust its capital structure by making modifications to its capital expenditure program.

15. Financial instruments

The Company has classified each financial instrument into the following categories:

i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are included in current assets and consist of trade receivables. Their carrying values approximate fair values because of their short term to maturity.

ii) Financial liabilities at amortized cost

Financial liabilities at amortized cost include accounts payable and accrued liabilities. They approximate their fair values because of their short term to maturity or because the interest rates approximate market rates at the end of the period.

iii) Fair value through profit or loss

The Company's financial derivative contracts are classified as fair value through profit or loss and are recognized at fair value based on quoted market prices at each reporting date. Financial derivatives are included in current assets or liabilities with any changes in fair value included in the Statement of Income. The Company does not apply hedge accounting to its derivative instruments.

16. Contingencies

The Company's royalty payments for the periods between November 1, 2009 and December 31, 2014 have been re-assessed by the New Brunswick Department of Finance ("DOF"), by way of Notice of Debt, for a total of \$300 thousand, with Corridor's share estimated at \$200 thousand. In 2016, the Company filed a Notice of Appeal to object to the Notice of Debt which was later dismissed by the DOF. During the quarter, the Company participated in a hearing before the Minister of Energy and Resource Development to present its evidence and object to the amount owing under the Notice of Debt. A decision is expected in Q4 2017. Corridor has not made a provision for any of the amount identified in the DOF's Notice of Debt.

On August 23, 2013, the Company was served with a statement of claim by Geophysical Services Incorporated ("GSI") relating to the access and disclosure of confidential seismic information. GSI is seeking damages of \$1.7 million. The Company has not recorded any liability as management believes a successful claim is not probable.
