

Badger Announces Voting Results of 2024 Annual Meeting of Shareholders

CALGARY, Alberta, May 02, 2024 -- Badger Infrastructure Solutions Ltd. ("Badger", the "Company", "we", "our" or "us") is pleased to announce that all of the motions put forward at its annual meeting of shareholders held on May 2, 2024 (the "Meeting") were approved by its shareholders. A total of 27,975,548 common shares in the capital of the Company, representing approximately 81.15% of the issued and outstanding common shares, were represented in person or by proxy at the Meeting.

All nine director nominees proposed by management were elected. Proxies and in person votes were received as follows:

	Votes For	%	Votes Withheld	%
Stephen (Steve) Jones	27,168,099	98.46%	424,791	1.54%
Robert (Rob) Blackadar	27,646,857	99.86%	38,512	0.14%
David Bronicheski	26,913,689	97.21%	771,665	2.79%
Stephanie Cuskley	18,427,364	66.58%	9,248,413	33.42%
William (Bill) Derwin	27,390,589	98.94%	294,780	1.06%
G. Keith Graham	27,331,819	98.72%	353,535	1.28%
Mary Jordan	27,354,475	98.80%	330,894	1.20%
William (Bill) Lingard	26,926,588	97.26%	758,781	2.74%
Patricia (Tribby) Warfield	27,646,192	99.86%	39,177	0.14%

Further, of the proxies and in person votes received, 27,955,611 (99.93%) voted in favour of appointing Deloitte LLP as the Company's auditor, and 27,227,078 (98.34%) voted in favour of management's approach to executive compensation (say on pay) as disclosed in the Management Information Circular dated March 15, 2024.

About Badger Infrastructure Solutions Ltd.

Badger Infrastructure Solutions Ltd. (TSX:BDGI) is North America's largest provider of non-destructive excavating services. Badger works for contractors and facility owners in a broad range of infrastructure industries and in general commercial construction. Badger's customers typically operate near high concentrations of underground power, communication, water, gas and sewer lines, where safety and economic risks are high and where non-destructive excavation provides a safe alternative for certain customer excavation requirements.

The Company's key technology is the Badger Hydrovac™, which is used primarily for safe excavation around critical infrastructure and in congested underground conditions. The Badger Hydrovac uses a pressurized water stream to liquify the soil cover, which is then removed with a powerful vacuum system and deposited into a storage tank. Badger is unique in the non-destructive excavation industry because it designs and manufactures all of its hydrovac units at its plant in Red Deer, Alberta, which has an annual production capacity of more than 350 hydrovac units. To complement the Badger Hydrovac, the Company has a select number of specialty units, mainly Airvacs, combo trucks and sewer and flusher units.
