- any rights, privileges, restrictions and conditions attaching to the Warrants; and
- any other specific terms.

Prior to the exercise of their Warrants, holders of Warrants will not have any of the rights of holders of the Securities subject to the Warrants.

DESCRIPTION OF UNITS

Units are a security comprised of more than one of the other Securities described in this Prospectus offered together as a “Unit”. A Unit is typically issued so the holder thereof is also the holder of each Security included in the Unit. Thus, the holder of a Unit will have the rights and obligations of a holder of each Security comprising the Unit. The agreement, if any, under which a Unit is issued may provide that the Securities comprising the Unit may not be held or transferred separately at any time or at any time before a specified date.

The particular terms and provisions of Units offered by any Prospectus Supplement, and the extent to which the general terms and provisions described below may apply to them, will be described in the Prospectus Supplement filed in respect of such Units. This description will include, where applicable: (i) the designation and terms of the Units and of the Securities comprising the Units, including whether and under what circumstances those Securities may be held or transferred separately; (ii) any provisions for the issuance, payment, settlement, transfer or exchange of the Units or of the Securities comprising the Units; (iii) whether the Units will be issued in registered or global form; and (iv) any other material terms and conditions of the Units.

PLAN OF DISTRIBUTION

The Corporation may sell the Securities, separately or together: (a) to one or more underwriters or dealers; (b) through one or more agents; or (c) directly to one or more purchasers through applicable statutory exemptions. The Prospectus Supplement relating to a particular offering of Securities will identify each underwriter, dealer or agent engaged in connection with the offering and sale of the Securities, as well as the method of distribution and the terms of the offering of such Securities, including the net proceeds to the Corporation and, to the extent applicable, any fees, discounts, concessions or any other compensation payable to underwriters, dealers or agents and any other material terms. Only underwriters so named in the Prospectus Supplement are deemed to be underwriters in connection with the Securities offered thereby.

The Securities may be sold, from time to time in one or more transactions at a fixed price or prices which may be changed or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices, including sales in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102, including sales made directly on the TSX. The prices at which the Securities may be offered may vary as

between purchasers and during the period of distribution. If, in connection with the offering of Securities at a fixed price or prices, the underwriters have made a *bona fide* effort to sell all of the Securities at the initial offering price fixed in the applicable Prospectus Supplement, the public offering price may be decreased and thereafter further changed, from time to time, to an amount not greater than the initial public offering price fixed in such Prospectus Supplement, in which case the compensation realized by the underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Securities is less than the gross proceeds paid by the underwriters to the Corporation.

Underwriters, dealers and agents who participate in the distribution of the Securities may be entitled under agreements to be entered into with the Corporation to indemnification by the Corporation against certain liabilities, including liabilities under securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, the Corporation in the ordinary course of business.

Any offering of Debt Securities, Subscription Receipts, Warrants or Units will be a new issue of securities with no established trading market. Unless otherwise specified in the applicable Prospectus Supplement, the Debt Securities, Subscription Receipts, Warrants or Units will not be listed on any securities exchange. See “*Risk Factors*”. Certain dealers may make a market in these Securities, but will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given that any dealer will make a market in these Securities or as to the liquidity of the trading market, if any, for these Securities.

In connection with any offering of the Securities the underwriters or agents may over-allot or effect transactions which stabilize or maintain the market price of the Securities offered at a higher level than that which might exist in the open market. Such transactions, if commenced, may be interrupted or discontinued at any time. A purchaser who acquires Securities forming part of the underwriters’ over-allocation position acquires those Securities under this Prospectus, regardless of whether the overallocation position is ultimately filled through the exercise of the over-allotment option or secondary market purchases.

PRIOR SALES

Information in respect of Common Shares issued by the Corporation within the previous 12-month period, and in respect of securities that are convertible or exchangeable into Common shares, will be provided as required in a Prospectus Supplement with respect to the issuance of Securities pursuant to such Prospectus Supplement.

MARKET FOR SECURITIES

The Common Shares are listed and posted for trading on the TSX under the symbol “CNL”. Information in respect of trading price and volume of the Common Shares during the previous 12-month period will be provided as required in a Prospectus Supplement with respect to the issuance of Securities pursuant to such Prospectus Supplement.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement may describe certain Canadian federal income tax considerations generally applicable to investors described therein of purchasing, holding and disposing of applicable Securities, including, in the case of an investor who is not a resident of Canada, Canadian non-resident withholding tax consideration.

RISK FACTORS

An investment in the Securities involves risks. Prospective investors should carefully consider the risks described in the sections entitled “*Risk Factors*” in any Prospectus Supplement and those set forth in documents incorporated by reference in this Prospectus and any applicable Prospectus Supplement, as well as other information in this Prospectus and any applicable Prospectus Supplement, before purchasing any of the Securities. Each of the risks described in these sections and documents could materially and adversely affect the business, financial condition, results of operations and prospects of the Corporation, and could result in a loss of investment. Additional risks and uncertainties not known to the Corporation or that the Corporation currently deems immaterial may also impair the Corporation’s business, financial condition, results of operations and prospects.

Negative Operating Cash Flow

To date the Corporation has recorded no operating cash flow and the Corporation has not commenced development or commercial production on any property. There can be no assurance that significant losses will not occur in the near future or that the Corporation will be profitable in the future. The Corporation's operating expenses and capital expenditures may increase in subsequent years as consultants, personnel and equipment associated with advancing exploration, development and commercial production of the Corporation's properties. The Corporation expects to continue to incur losses unless and until such time as it enters into commercial production and generates sufficient revenues to fund its continuing operations. The development of the Corporation's properties will require the commitment of substantial resources to conduct time-consuming exploration and development. There can be no assurance that the Corporation will ever generate positive operating cash flow or achieve profitability.

As at September 30, 2023, the Corporation's cash balance was approximately US\$19.8 million, and its working capital balance was approximately US\$17.8 million, excluding non-cash warrant liability of approximately US\$2.4 million. The Corporation's expected aggregate cash burn rate for the remainder of 2023 and calendar 2024 is approximately US\$13 million (based on currently planned exploration programs, of which approximately US\$12.5 million is expected to be incurred on the Guayabales Project). Given its expected rate of cash burn, the Corporation expects to be able to continue operations and advance its business operations using its currently available non-contingent resources for at least 12 months from the date of this Prospectus.

Discretion in the Use of Proceeds

Management will have broad discretion concerning the use of the net proceeds from the offering of any Securities, as well as the timing of their expenditures. Depending on a number of factors, the intended use of proceeds from the offering of any Securities may change. As a result, an investor will be relying on the judgment of management for the application of the net proceeds from the offering of any Securities. Management may use the net proceeds from the offering of any Securities in ways that an investor may not consider desirable if they believe it would be in the best interests of the Corporation to do so. The results and the effectiveness of the application of proceeds from an offering of any Securities are uncertain. If the proceeds are not applied effectively, the Corporation's results of operations may suffer.

No Market for the Securities

There is currently no trading market for any Debt Securities, Subscription Receipts, Warrants or Units that may be offered. No assurance can be given that an active or liquid trading market for these securities will develop or be sustained. If an active or liquid market for these securities fails to develop or be sustained, the prices at which these securities trade may be adversely affected. Whether or not these securities will trade at lower prices depends on many factors, including liquidity of these securities, prevailing interest rates and the markets for similar securities, the market price of the Corporation, general economic conditions and the Corporation's financial condition, historic financial performance and future prospects.

Control of the Corporation

Mr. Ari Sussman, the Executive Chairman and a director of the Corporation, is also the principal shareholder of the Corporation. Mr. Sussman owns or controls, directly or indirectly, 10,747,500 Common Shares representing approximately 17.8% of the issued and outstanding Common Shares. By virtue of his status as principal shareholder of the Corporation, and by being an executive officer and a director of the Corporation, Mr. Sussman has the power to exercise significant influence over all matters requiring shareholder approval, including the election of directors, amendments to the Corporation's articles and by-laws, mergers, business combinations and the sale of substantially all of the Corporation's assets. As a result, the Corporation could be prevented from entering into transactions that could be beneficial to the Corporation or its other shareholders, and third parties could be discouraged from making a take-over bid. In addition, sales by Mr. Sussman of a substantial number of Common Shares could cause the market price of the Common Shares to decline.

International Conflicts

International conflicts and other geopolitical tensions and events, including war, military action, terrorism, trade disputes and international responses thereto have historically led to, and may in the future lead to, uncertainty or

volatility in global commodity and financial markets and supply chains. Russia's invasion of Ukraine in February 2022 has led to sanctions being levied against Russia by the international community and may result in additional sanctions or other international action, any of which may have a destabilizing effect on commodity prices, supply chains and global economies more broadly. In October 2023, Israel and Hamas, the terrorist organization and current ruling political party in the Gaza Strip, engaged in a series of violent exchanges, primarily in southern Israel and the Gaza Strip. This has resulted in a significant increase in tension in the region and may have far reaching effects on the global economy. Volatility in commodity prices and supply chain disruptions may adversely affect the Corporation's business, financial condition and results of operations. The extent and duration of the current conflicts in the Ukraine and Israel and related international action cannot be accurately predicted at this time and the effects of such conflict may magnify the impact of the other risks identified in this short form prospectus, including those relating to commodity price volatility and global financial conditions. The outcome of these conflicts is uncertain, and these conflicts may escalate and may result in escalated tensions within and outside of Eastern Europe and the Middle East, respectively. This could result in significant disruption of supplies of oil and natural gas from the region and could cause a significant worldwide supply shortage of oil and natural gas and have a significant impact on worldwide prices of oil and natural gas. A lack of supply of energy and high prices of oil and natural gas could have a significant adverse impact on the world economy. The situation is rapidly changing and unforeseeable impacts, including on the Corporation's shareholders and counterparties on which the Corporation relies and transacts with, may materialize and may have an adverse effect on the Corporation's operations and trading price of the Common Shares.

Global Financial Conditions Can Reduce Share Prices and Limit Access to Financing

In recent years, global financial markets have been characterized by extreme volatility impacting many industries, including the mining industry. Global financial conditions remain subject to sudden and rapid destabilizations in response to future economic shocks, as government authorities may have limited resources to respond to future crises. A sudden or prolonged slowdown in the financial markets or other economic conditions, including but not limited to, consumer spending, employment rates, business conditions, inflation, fuel and energy costs, consumer debt levels, lack of available credit, the state of the financial markets, interest rates and tax rates, may adversely affect the Corporation's growth and profitability. Future economic shocks may be precipitated by a number of causes, including, but not limited to, material changes in the price of oil and other commodities, the volatility of metal prices, governmental policies, geopolitical instability, war, terrorism, the devaluation and volatility of global stock markets and natural disasters. Any sudden or rapid destabilization of global economic conditions could impact the Corporation's ability to obtain equity or debt financing in the future on terms favorable to the Corporation or at all. In such an event, the Corporation's operations and financial condition could be adversely impacted.

LEGAL MATTERS

Unless otherwise specified in the Prospectus Supplement relating to an offering of Securities, certain legal matters relating to the offering of Securities will be passed upon on behalf of the Corporation by Cassels Brock & Blackwell LLP with respect to matters of Canadian law. As at the date hereof, the partners and associates of Cassels Brock & Blackwell LLP beneficially own, directly or indirectly, less than 1% of any registered or beneficial interests, direct or indirect, in any securities or other property of the Corporation or of any associate or affiliate of the Corporation. In addition, certain legal matters in connection with any offering of Securities will be passed upon for any underwriters, dealers or agents by counsel to be designated at the time of the offering by such underwriters, dealers or agents with respect to matters of Canadian and, if applicable, United States or other foreign laws.

STATUTORY AND CONTRACTUAL RIGHTS OF WITHDRAWAL AND RESCISSION

The following is a description of a purchaser’s statutory rights.

Securities legislation in some provinces and territories of Canada provides purchasers of securities with the right to withdraw from an agreement to purchase securities and with remedies for rescission or, in some jurisdictions, revisions of the price, or damages if the prospectus, prospectus supplement, and any amendment relating to securities purchased by a purchaser are not sent or delivered to the purchaser. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. However, purchasers of Securities distributed under an at-the-market distribution by the Corporation do not have the right to withdraw from an agreement to purchase the Securities and do not have remedies of rescission or, in some jurisdictions, revisions of the price, or damages for non-delivery of this Prospectus, any prospectus supplement(s), and any amendment relating to Securities purchased by such purchaser because this Prospectus, any prospectus supplement(s), and any amendment relating to the Securities purchased by such purchaser will not be sent or delivered, as permitted under Part 9 of NI 44-102.

Securities legislation in some provinces and territories of Canada further provides purchasers with remedies for rescission or, in some jurisdictions, revisions of the price or damages if this Prospectus, any prospectus supplement(s), and any amendment relating to securities purchased by a purchaser contains a misrepresentation. Those remedies must be exercised by the purchaser within the time limit prescribed by securities legislation. Any remedies under securities legislation that a purchaser of Securities distributed under an at-the-market distribution by the Corporation may have against the Corporation or its agents for rescission or, in some jurisdictions, revisions of the price, or damages if this Prospectus, any prospectus supplement(s), and any amendment relating to securities purchased by a purchaser contain a misrepresentation will remain unaffected by the non-delivery of the prospectus referred to above. A purchaser should refer to applicable securities legislation for the particulars of these rights and should consult a legal adviser.

Original purchasers of Securities which are convertible, exchangeable or exercisable for other securities of the Corporation will have a contractual right of rescission against the Corporation in respect of the conversion, exchange or exercise of such Securities. The contractual right of rescission will entitle such original purchasers to receive, upon surrender of the underlying securities, the amount paid for the applicable convertible, exchangeable or exercisable Securities, and any additional amount paid upon conversion, exchange or exercised of such Securities, in the event that this Prospectus, the relevant Prospectus Supplement or an amendment thereto contains a misrepresentation, provided that: (i) the conversion, exchange or exercise takes place within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement. This contractual right of rescission will be consistent with the statutory right of rescission described under Section 130 of the *Securities Act* (Ontario), and is in addition to any other right or remedy available to original purchasers under Section 130 of the *Securities Act* (Ontario) or otherwise at law.

Original purchasers are further advised that in certain provinces and territories the statutory right of action for damages in connection with a prospectus misrepresentation is limited to the amount paid for the convertible, exchangeable or exercisable securities that were purchased under a prospectus and, therefore, a further payment at the time of conversion, exchange or exercise may not be recoverable in a statutory action for damages. The purchaser should refer to any applicable provisions of the securities legislation of the province or territory in which the purchaser resides for the particulars of these rights, or consult with a legal adviser.
