

News Release

Cub Energy Inc. Announces Q1 2018 Financial and Operational Results

Houston, Texas – May 15, 2018 – Cub Energy Inc. (“Cub” or the “Company”) (TSX-V: KUB), a Ukraine-focused upstream oil and gas company, announced today its unaudited financial and operating results for the first quarter ended March 31, 2018. All dollar amounts are expressed in United States Dollars unless otherwise noted. This update includes results from KUB-Gas LLC (“KUB-Gas”), which Cub has a 35% equity ownership interest, Tysagaz LLC (“Tysagaz”), Cub’s 100% owned subsidiary and CNG LLC (“CNG”), which Cub has a 50% equity ownership interest.

Mikhail Afendikov, Chairman and CEO of Cub said: “We are pleased to report net income \$0.8 million during the first quarter of 2018 including income from our equity investment of \$1.7 million. During the first quarter of 2018, the Company received \$1.1 million in dividends from its eastern Ukraine investment and we repaid \$1.1 in loans from KUB-Gas in conjunction with their maturity. We look forward to an active 2018, including the anticipated drilling of the Uzhgorod and West Olgovskoye licence prospects in western and eastern Ukraine, respectively.”

Operational Highlights

- Achieved average natural gas price of \$7.16/Mcf and condensate price of \$60.60/bbl during the three months ended March 31, 2018 as compared to \$6.88/Mcf and \$62.70/bbl for the comparative 2017 period.
- Production averaged 837 boe/d (97% weighted to natural gas and the remaining to condensate) for the three months ended March 31, 2018, which decreased 24% as compared to the 1,107 boe/d average during the comparative 2017 period.
- On December 30, 2017, a new law was passed in Ukraine reducing the royalties on new wells drilled after January 1, 2018 to 12% from 29% for a period of five years.
- On March 1, 2018, a new law was passed in Ukraine intended to simplify regulatory procedures for the oil and gas sector which should increase the speed and efficiency of approvals.
- The new Nitrogen Rejection Unit (“NRU”) is being constructed and the Company expects to re-commence production on the wholly-owned RK field in western Ukraine in the latter half of 2018.
- The Company and its partner plan to start a three well exploration program at Uzhgorod in the latter half of 2018.
- KUB-Gas expects to spud the first well on the West Olgovskoye field in the first half of 2018.

Financial Highlights

- The Company reported net income of \$0.8 million during the three months ended March 31, 2018 as compared to \$0.9 million in the comparative 2017 period.
- Netbacks of \$25.93/boe or \$4.32/Mcfe for the three months ended March 31, 2018 as compared to netback of \$27.50/Boe or \$4.58/Mcfe for the comparative 2017 period.
- During the three months ended March 31, 2018, the Company received \$1.1 million in dividends from KUB Holdings as compared to \$0.3 million in dividends in the comparative 2017 period. Subsequent to March 31, 2018, the Company received a further \$1.3 million in dividends. The National Bank of Ukraine (“NBU”) eased certain capital controls by allowing limited dividends. The Company expects to continue to repatriate dividends to the extent possible and allowed by the NBU, although there are no assurances the NBU will continue to ease restrictions indefinitely.

- The Company repaid \$1.1 million of its loan to KUB-Gas during the quarter ended March 31, 2018 in conjunction with its maturity.

(in thousands of US Dollars)	Three Months Ended March 31, 2018	Three Months Ended March 31, 2017
Petroleum and natural gas revenue	-	18
Pro-rata petroleum and natural gas revenue ⁽¹⁾	3,427	4,183
Revenue from gas trading ⁽²⁾	5,670	3,995
Net income	779	916
Income per share – basic and diluted	0.00	0.00
Funds generated from operations ⁽³⁾	397	(990)
Pro-rata funds generated from operations ⁽⁴⁾	(3,232)	1,391
Capital expenditures ⁽⁴⁾	134	798
Pro-rata capital expenditures ⁽⁵⁾	335	1,468
Pro-rata netback (\$/boe)	25.93	27.50
Pro-rata netback (\$/Mcf)	4.32	4.58

	March 31, 2018	December 31, 2017
Working capital (deficit)	(1,094)	(478)
Cash and cash equivalents	6,988	6,190
Long-term debt	4,770	5,451

Notes:

- (1) Pro-rata petroleum and natural gas revenue is a non-IFRS measure that adds the Company's petroleum and natural gas revenue earned in the respective periods to the Company's 35% equity share of the KUB-Gas natural gas sales that the Company has an economic interest in.
- (2) During the three months ended March 31, 2018, the Company recorded \$5.7 million (2017 - \$4.0 million) in revenue for gas trading and \$5.5 million (2017 - \$3.8 million) for the cost of the sales for a net profit from gas trading of \$0.2 million in both periods.
- (3) Funds from operations is a non-IFRS measure and is defined as cash flow from operating activities, excluding changes in non-cash working capital.
- (4) Pro-rata funds from operations is a non-IFRS measure that adds the Company's funds from operations in the respective periods to the Company's 35% equity share of the KUB-Gas and 50% equity share of CNG Holdings funds from operations that the Company has an economic interest in.
- (5) Capital expenditures includes the purchase of property, plant and equipment and the purchase of exploration and evaluation assets. Pro-rata capital expenditures is a non-IFRS measure that adds the Company's capital expenditures in the respective periods to the Company's 35% equity share of the KUB-Gas and 50% equity share of CNG Holdings capital expenditures that the Company has an economic interest in.

Outlook

The Company expects KUB-Gas to drill two wells in 2018. It's expected that the first well will be drilled at the West Olgovskoye licence in the first half of 2018 and one well will be drilled at either the Olgovskoye or Makeevskoye licences later in 2018. KUB-Gas is also planning a 3D seismic program on the West Olgovskoye licence to delineate structures already found from 2D seismic surveys.

In western Ukraine, the Company is purchasing a new NRU with a goal of resuming production at the RK field which is estimated to be the latter half of 2018. Also in western Ukraine, the Company and its partner plan to start a three well exploration program at Uzhgorod in the latter half of 2018.

Supporting Documents

Cub's complete quarterly reporting package, including the unaudited interim financial statements and associated Management's Discussion and Analysis, have been filed on SEDAR (www.sedar.com) and has been posted on the Company's website at www.cubenergyinc.com.

About Cub Energy Inc.

Cub Energy Inc. (TSX-V: KUB) is an upstream oil and gas company, with a proven track record of exploration and production cost efficiency in Ukraine. The Company's strategy is to implement western technology and capital, combined with local expertise and ownership, to increase value in its undeveloped land base, creating and further building a portfolio of producing oil and gas assets within a high pricing environment.

Oil and Gas Equivalents

A barrel of oil equivalent ("boe") or units of natural gas equivalents ("Mcf") is calculated using the conversion factor of 6 Mcf (thousand cubic feet) of natural gas being equivalent to one barrel of oil. A boe conversion ratio of 6 Mcf: 1 bbl (barrel) or a Mcfe conversion of 1bbl: 6 Mcf is, based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead and is not based on either energy content or current prices. While the boe ratio is useful for comparative measures, it does not accurately reflect individual product values and might be misleading, particularly if used in isolation. As well, given that the value ratio, based on the current price of crude oil to natural gas, is significantly different from the 6:1 energy equivalency ratio, using a 6:1 conversion ratio may be misleading as an indication of value.

The disclosure in this press release is prepared in accordance with NI 51-101 standards.

Reader Advisory

With the current cash resources, suspension of the RK field, uncertainty surrounding the successful installation of the NRU, dividend restrictions, currency fluctuations, reliance on a limited number of customers, and impact on carrying values, the Company may not have sufficient cash to continue the exploration and development activities. These matters raise significant doubt about the ability of the Company to continue as a going concern and meet its obligations as they become due.

Except for statements of historical fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Cub believes that the expectations reflected in the forward-looking information are reasonable; however there can be no assurance those expectations will prove to be correct. We cannot guarantee future results, performance or achievements. Consequently, there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking information.

Forward-looking information is based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking information. Some of the risks and other factors that could cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: general economic conditions in Ukraine, the Black Sea Region and globally; political unrest and security concerns in Ukraine; industry conditions, including fluctuations in the prices of natural gas and foreign currency; governmental regulation of the natural gas industry, including environmental regulation; unanticipated operating events or performance which can reduce production or cause production to be shut in or delayed; failure to obtain industry partner and other fourth party consents and approvals, if and when required; competition for and/or inability to retain drilling rigs and other services; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; volatility in market prices for natural gas; liabilities inherent in natural gas operations; competition for, among other things, capital, acquisitions of reserves, undeveloped lands, skilled personnel and supplies; incorrect assessments of the value of acquisitions; geological, technical, drilling, processing and transportation problems; changes in tax laws and incentive programs relating to the natural gas industry; failure to realize the anticipated benefits of acquisitions and dispositions; and the other factors. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

This cautionary statement expressly qualifies the forward-looking information contained in this news release. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.
