“During the first three months of 2018 our team generated another period of record revenue and strong double-digit bottom line growth,” said Edward Leon, President and Chief Operating Officer of Leon's. “The strategies we have laid-out and executed over the past two years to increase in-store traffic as well as to contain expenses and drive cost synergies continue to pay off. Over the next 12 months we see additional opportunity to solidify our leading national market presence and realize incremental efficiencies across our network. As a management team and board of directors we would like to thank all of our long-term shareholders for their ongoing support and we can confidently say that over our 100-year history there has never been a more exciting time to be a Leon's shareholder.”

### **Revenue**

For the three months ended March 31, 2018, revenue was \$500,719,000 compared to \$484,189,000 in the prior year's first quarter. Revenue increased \$16,530,000 or 3.4% between the comparative quarters as we continued to see growth in most product categories.

### **Selling, general and administrative expenses (SG&A)**

Excluding the mark-to-market impact of the Company's financial derivatives, comprised of foreign exchange forwards and a fixed interest rate swap, SG&A as a percentage of revenue increased from 38.96% to 39.32% compared to the prior year's quarter. This change was due primarily to the increase in payroll costs which include the minimum wage increase in Ontario and to the increased cost from offering longer term customer finance plans, which generated overall sales and profitability increases.

### **Adjusted Net Income and Adjusted Diluted Earnings Per Share**

As a result of the above, adjusted net income for the first quarter of 2018 was \$11,545,000, \$0.14 adjusted diluted earnings per share (\$8,543,000, \$0.11 adjusted diluted earnings per share in 2017), an increase of 27.3% per share.

### **Dividends**

As previously announced, we paid a quarterly 12¢ dividend on April 9, 2018. Today we are happy to announce that the Directors have declared a quarterly dividend of 12¢ per common share payable on the 6th day of July 2018 to shareholders of record at the close of business on the 6th day of June 2018. As of 2007, dividends paid by Leon's Furniture Limited are "eligible dividends" pursuant to the changes to the Income Tax Act under Bill C-28, Canada.

## Outlook

Overall, we are pleased that we were able to improve our financial results in the first quarter of 2018. Our strong financial position will allow us to focus on increasing market share in existing and new markets going forward. Along with our continuing strong growth in online sales, we expect to see continued revenue growth this year, to maintain gross margins and continue to drive efficiencies.

## Store Network

The Company has 303 retail stores from coast to coast in Canada under the various banners indicated below which also includes over 100 franchise locations. Including our franchises, we have over 10,000 employees across Canada.

## Non-IFRS Financial Measures

The Company uses financial measures that do not have standardized meaning under IFRS and may not be comparable to similar measures presented by other entities. The Company calculates the non-IFRS financial measures by adjusting certain IFRS measures for specific items the Company believes are significant, but not reflective of underlying operations in the period, as detailed below:

Non-IFRS Measure	IFRS Measure
Adjusted net income	Net income
Adjusted income before income taxes	Income before income taxes
Adjusted earnings per share – basic	Earnings per share – basic
Adjusted earnings per share – diluted	Earnings per share – diluted
Adjusted EBITDA	Net income

For a reconciliation of the Company's non-IFRS financial measures please refer to the Company's MD&A for the quarter ended March 31, 2018, which is available on SEDAR at [www.sedar.com](http://www.sedar.com).

### Adjusted Net Income

Leon's calculates comparable measures by excluding the effect of:

- the mark-to-market adjustments included in the Company's SG&A income statement line item, related to the net effect of USD-denominated forward contracts and an interest rate swap on the Company's term credit facility;

Management believes excluding from income the effect of these mark-to-market valuations and changes thereto, until settlement, better aligns the intent and financial effect of these contracts with the underlying cash flows. Similarly, excluding from income the effect of non-recurring expenses better reflects Leon's normalized SG&A as a percentage of revenue in the period.

### Adjusted EBITDA

Adjusted earnings before interest, income taxes, depreciation and amortization, mark-to-market adjustment due to the changes in the fair value of the Company's financial derivative instruments and non-recurring charges to income ("Adjusted EBITDA") is a non-IFRS financial measure used by the Company. The Company considers Adjusted EBITDA to be an effective measure of profitability on an operational basis and is commonly regarded as an indirect measure of operating cash flow, a significant indicator of success for many businesses. Adjusted EBITDA is a non-IFRS financial measure used by the Company. The Company's Adjusted EBITDA may not be comparable to the Adjusted EBITDA measure of other entities, but in management's view appropriately reflects Leon's specific financial condition. This measure is not intended to replace net income, which, as determined in accordance with IFRS, is an indicator of operating performance.

### Same Store Sales

Same store sales are defined as sales generated by stores that have been open or closed for more than 12 months on a fiscal basis. Same store sales is not an earnings measure recognized by IFRS, and does not have a standardized meaning prescribed by IFRS, but it is a key indicator used by the Company to measure performance against prior period results. Same store sales as discussed in this press release may not be comparable to similar measures presented by other issuers, however this measure is commonly used in the retail industry. We believe that disclosing this measure is meaningful to investors because it enables them to better understand the level of growth of our business.

### Total System Wide Sales

Total system wide sales refer to the aggregation of revenue recognized in the Company's consolidated financial statements plus the franchise sales occurring at franchise stores to their customers which are not included in the revenue figure presented in the Company's consolidated financial statements. Total system wide sales is not a measure recognized by IFRS, and does not have a standardized meaning prescribed by IFRS, but it is a key indicator used by the Company to measure performance against prior period results. Therefore, total system wide sales as discussed in this press release may not be comparable to similar measures presented by other issuers. We believe that disclosing this measure is meaningful to investors because it serves as an indicator of the strength of the Company's overall store network, which ultimately impacts financial performance.

## Franchise Sales

Franchise sales figures refer to sales occurring at franchise stores to their customers which are not included in the revenue figures presented in the Company's consolidated financial statements, or in the same store sales figures in this press release. Franchise sales is not a measure recognized by IFRS, and does not have a standardized meaning prescribed by IFRS, but it is a key indicator used by the Company to measure performance against prior period results. Therefore, franchise sales as discussed in this press release may not be comparable to similar measures presented by other issuers. Once again we believe that disclosing this measure is meaningful to investors because it serves as an indicator of the strength of the Company's brands, which ultimately impacts financial performance.
