Certain of our securityholders (each, a “**Selling Securityholder**”) may also offer and sell Securities under this Prospectus. A Prospectus Supplement may include specific variable terms pertaining to the Securities that are not within the parameters described in this Prospectus.

This Prospectus may qualify an “at-the-market distribution” as defined in National Instrument 44-102 – *Shelf Distributions* (“**NI-44-102**”). Information permitted under applicable laws to be omitted from this Prospectus will be contained in one or more Prospectus Supplements that will be delivered to purchasers together with this Prospectus. Each Prospectus Supplement will be incorporated by reference in this Prospectus for the purposes of securities legislation as of the date of the Prospectus Supplement and only for the purposes of the distribution of the Securities to which the Prospectus Supplement pertains. Our Common Shares are listed and posted for trading on the TSX Venture Exchange (the “TSX-V”) under the symbol “ELE”. Unless a Prospectus Supplement provides otherwise, any offering of Subscription Receipts, Warrants, Debt Securities or Units will be a new issue of Securities with no established trading market and, accordingly, such Securities will not be listed on any securities or stock exchange or on any automated dealer quotation system. There is no market through which Subscription Receipts, Warrants, Debt Securities or Units may be sold and purchasers may not be able to resell any such Securities purchased under this Prospectus or any Prospectus Supplement. This may affect the pricing of such Securities in the secondary market (if any), the transparency and availability of trading prices (if any), the liquidity of such Securities, and the extent of issuer regulation. See “Risk Factors”.

Securities may be sold to underwriters or dealers purchasing as principal, directly to one or more purchasers pursuant to applicable statutory exemptions, or through underwriters, dealers or agents. The Prospectus Supplement relating to a particular offering of Securities will identify any underwriter, dealer or agent engaged by us or a Selling Securityholder in connection with the offering and sale of such Securities, and will set out the terms of the offering of such Securities, the method of distribution of such Securities, including, to the extent applicable, the proceeds to us or the Selling Securityholders, and any fees, discounts or any other compensation payable to any such underwriters, dealers or agents and any other material terms of the plan of distribution.

Securities may be sold from time to time in one or more transactions at a fixed price or prices or at non-fixed prices. If offered on a non-fixed price basis, Securities may be offered at market prices prevailing at the time of sale, at prices determined by reference to the prevailing price of a specified security in a specified market or at prices to be negotiated with purchasers, which prices may vary as between purchasers and during the period of distribution of the Securities, including sales in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102 including sales made directly on the TSX-V or other existing trading markets for the Common Shares, provided that the requirements of Part 9 of NI 44-102 are complied with in connection with the filing of a Prospectus Supplement for an at-the-market distribution.

To the extent permitted by applicable law, in connection with any underwritten offering of Securities except with respect to “at-the-market distributions”, the underwriters or dealers, as the case may be, may over-allot or effect transactions intended to fix or stabilize the market price of the Common Shares at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. No underwriter, dealer or agent involved in an “at-the-market distribution”, as defined under NI 44-102, no affiliate of such an underwriter, dealer or agent and no person or company acting jointly or in concert with such an underwriter, dealer or agent may, in connection with such distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Securities or securities of the same class as the Securities distributed pursuant to an “at-the-market distribution”, including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities. See “Plan of Distribution”.

No underwriter, dealer or agent has been involved in the preparation of this Prospectus or performed any review of the contents of this Prospectus.

This Prospectus does not qualify the issuance of Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to one or more underlying interests including, for example, a statistical measure of economic or financial performance including, but not limited to, any currency, consumer price or mortgage index, or the price or value of one or more commodities, indices or other items, or any other item or formula, or any combination or basket of the foregoing items.

Any offering of Securities may be subject to approval of certain Canadian legal matters on our behalf by Fasken Martineau DuMoulin LLP.

NON-IFRS MEASURES

The financial statements of the Corporation that are incorporated by reference in this Prospectus have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”). Certain information presented in this Prospectus, including certain documents incorporated by

reference herein, may include non-IFRS measures that are used by us as indicators of financial performance. These financial measures do not have standardized meanings prescribed under IFRS and our computation may differ from similarly-named computations as reported by other entities and, accordingly, may not be comparable. These financial measures should not be considered as an alternative to, or more meaningful than, measures of financial performance as determined in accordance with IFRS as an indicator of performance. We believe these measures may be useful supplemental information to assist investors in assessing our operational performance and our ability to generate cash through operations. The non-IFRS measures also provide investors with insight into our decision making as we use these non-IFRS measures to make financial, strategic and operating decisions.

Because non-IFRS measures do not have a standardized meaning and may differ from similarly-named computations as reported by other entities, securities regulations require that non-IFRS measures be clearly defined and qualified, reconciled with their nearest IFRS measure and given no more prominence than the closest IFRS measure. If non-IFRS measures are included in documents incorporated by reference herein, information regarding such non-IFRS measures are presented in the sections dealing with these financial measures in such documents.

Non-IFRS measures are not audited. These non-IFRS measures have important limitations as analytical tools and investors are cautioned not to consider them in isolation or place undue reliance on ratios or percentages calculated using these non-IFRS measures.

Elemental Royalties Limited, a British Virgin Islands company (“**ERL BVI**”), was incorporated under the BVI Business Companies Act 2004 on July 15, 2016. Pursuant to a reverse takeover, Fengro Industries Corp. (“**Fengro**”) acquired all of the issued and outstanding common shares of ERL BVI, including its portfolio of mining royalties, on July 27, 2020. Immediately prior to the completion of the reverse takeover of Fengro by ERL BVI, Fengro consolidated its common shares on the basis of one (1) common share for every 209 common shares outstanding, and changed its name as described in the following paragraph.

Fengro was incorporated on March 11, 2004 under the name “Ordorado Resources Corp.”. Fengro changed its name to “Eagle Star Petroleum Corp.” on June 13, 2006, to “Eagle Star Minerals Corp.” on July 6, 2010, to “DuSolo Fertilizers Inc.” on February 28, 2014 and to “Fengro Industries Corp.” on December 18, 2017.

On July 19, 2016, Fengro was continued from the federal jurisdiction of Canada into British Columbia pursuant to the *Business Corporations Act* (British Columbia).

On July 27, 2020, Fengro subsequently changed its name to “Elemental Royalties Corp.” in the context of the reverse takeover pursuant to which it acquired ERL BVI. As ERL BVI was deemed to be the acquirer for accounting purposes, its assets, liabilities and operations since incorporation are included in the consolidated financial statements at their historical carrying values.

Pursuant to a merger of equals, Elemental acquired all of Altus Strategies PLC’s (“**Altus**”) issued and outstanding share capital in exchange for common shares in the capital of Elemental (the “**Merger**”). The Merger was completed by way of a court-sanctioned scheme of arrangement under the laws of the United Kingdom and was subject to approval by shareholders of Altus at a special shareholders’ meeting held on August 8, 2022. The issuance of Elemental’s Common Shares under the terms of the Merger was approved by Elemental shareholders at Elemental’s annual general and special meeting held on August 8, 2022.

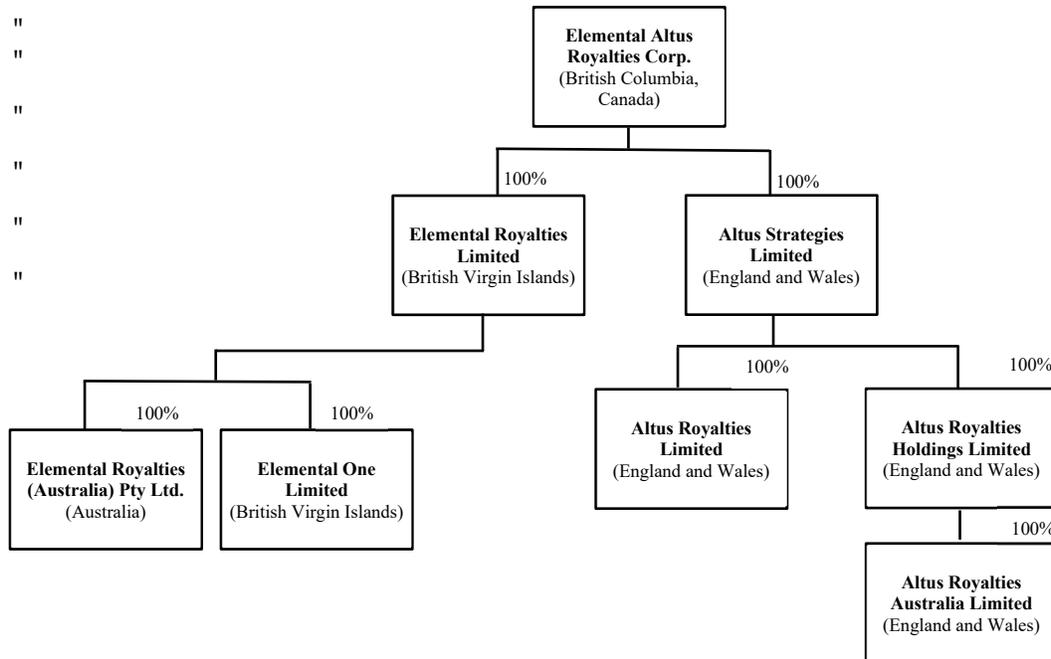

On August 12, 2022, the High Court of Justice in England and Wales approved the court-sanctioned scheme of arrangement under section 899 of the Companies Act 2006. Under the Merger terms, Elemental acquired all issued and to be issued share capital of Altus, with each Altus share exchanged for 0.594 Elemental shares (the “**Exchange Ratio**”). The Exchange Ratio was agreed between the boards of Elemental and Altus taking into account the market capitalizations and relative net asset values of both companies.

On September 22, 2022, Elemental changed its name to “Elemental Altus Royalties Corp.”.

Elemental’s core business is the acquisition of royalties over mining projects. Since Elemental’s first acquisition in 2017, it has acquired a diversified portfolio of royalties providing exposure primarily to gold and copper producing mines. Elemental’s management team has been able to identify and acquire revenue producing royalties. Elemental’s objective is to become a leading precious metals royalty company and to maximize returns for its shareholders through the growth of its portfolio of royalty and other similar rights, both through organic growth and through acquisitions of royalties and other rights that the Corporation’s management expects to be accretive.

RISK FACTORS

Before making an investment decision, prospective purchasers of Securities should carefully consider the information described in this Prospectus and the documents incorporated or deemed incorporated by reference herein, including the applicable Prospectus Supplement. There are certain risks inherent in an investment in the Securities, including

the factors described under the heading “Risk Factors – Risks Relating to Elemental” in the AIF (commencing at page 14 of the AIF), “Risk Factors – Risks Relating to Mines and Mining Operations” in the AIF (commencing at page 23 of the AIF) and “Risk Factors – Risks Related to the Securities of Elemental” in the AIF (commencing at page 28 of the AIF), and any other risk factors described herein or in a document incorporated or deemed incorporated by reference herein, which investors should carefully consider before investing. Additional risks and uncertainties, including those of which we are currently unaware or deem immaterial, may adversely affect our business, financial condition or results of operations. The risks described in this Prospectus and in the documents incorporated by reference herein describe certain currently known material factors, any of which could have a material adverse effect on the Corporation’s business, financial condition and results of operations. If any of the following or other risks occur, it could have a material adverse effect on the business, financial condition and results of operations of the Corporation and on the trading price of the Common Shares, which could materially decline, and investors may lose all or part of their investment. Additional risks and uncertainties of which the Corporation is currently unaware or that are unknown or that it currently deems to be immaterial could also have a material adverse effect on the Corporation’s business, financial condition and results of operations. The Corporation cannot assure you that it will successfully address any or all of these risks. There is no assurance that any risk management steps taken by the Corporation will avoid future loss due to the occurrence of any of the risks described in this Prospectus and in the documents incorporated by reference herein, or other unforeseen risks.

In addition, the following risk factors relate to the Securities qualified by this Prospectus.

Future offerings of Debt Securities, which would rank senior to the Common Shares upon the bankruptcy or liquidation of the Corporation, and future offerings of equity securities that may be senior to the Common Shares for the purposes of dividend and liquidating distributions, may adversely affect the market price of the Common Shares

In the future, the Corporation may attempt to increase its capital resources by making offerings of debt instruments or other securities convertible into Debt Securities. Upon bankruptcy or liquidation, holders of the Corporation’s Debt Securities and lenders with respect to other borrowings will receive a distribution of the Corporation’s available assets prior to the holders of the Common Shares. Additional equity offerings may dilute the holdings of the Corporation’s existing shareholders or reduce the market price of the Common Shares. Any decision to issue securities in any future offering will depend on market conditions and other factors beyond the Corporation’s control. As a result, the amount, timing or nature of future offerings cannot be predicted or estimated, and purchasers of Common Shares will bear the risk of future offerings reducing the market price of the Common Shares and diluting any ownership interest they may have in the Corporation.

History of Negative Cash Flow

The Corporation had negative operating cash flow for the financial year ended December 31, 2022. Although the Corporation had positive operating cash flow for the three and six months ended June 30, 2023, and the Corporation expects to report a positive operating cash flow for the current fiscal quarter, the Corporation cannot guarantee that it will attain or maintain positive cash flow status into the future. To the extent that the Corporation has negative cash flow in any future period, certain of the proceeds of an offering under any Prospectus Supplement may be used to fund such negative cash flow from operating activities in these periods.

The Corporation may have to raise additional capital through the issuance of additional equity, which could result in dilution to shareholders

The issuance of additional Common Shares or of Securities convertible into or exchangeable for Common Shares may have a dilutive effect on the interests of shareholders. The number of Common Shares that the Corporation is authorized to issue is unlimited. The Corporation may, in its sole discretion, subject to applicable law and the rules of the TSX-V, issue additional Common Shares from time to time (including pursuant to any equity-based compensation plans that may be introduced in the future), and the interests of shareholders may be diluted thereby.

The Corporation may require new capital to continue to grow its business and there are no assurances that capital will be available when needed, if at all. It is likely that, at least to some extent, such additional capital will be raised through the issuance of additional equity, which could result in substantial dilution to shareholders.

There is no existing trading market for Subscription Receipts, Warrants, Debt Securities or Units and there can be no assurance that a liquid market will develop or be maintained

There is no existing trading market for Subscription Receipts, Warrants, Debt Securities or Units. As a result, there can be no assurance that a liquid market will develop or be maintained for those Securities, or that a purchaser will be able to sell any of those Securities at a particular time (or at all). The Corporation may not list Subscription Receipts, Warrants, Debt Securities or Units in any securities or stock exchange.

Management will have certain discretion concerning the use of proceeds

The Corporation's management will have certain discretion concerning the use of proceeds of an offering under any Prospectus Supplement as well as the timing of the expenditure of the net proceeds thereof. As a result, investors will be relying on the judgment of management as to the specific application of the proceeds of any offering of Securities under any Prospectus Supplement. Management may use the net proceeds of any offering of Securities under any Prospectus Supplement in ways that an investor may not consider desirable. The results and effectiveness of the application of the net proceeds are uncertain.

SELLING SECURITYHOLDERS

Securities may be sold under this Prospectus by way of secondary offering by or for the account of certain of our securityholders. Any Prospectus Supplement that we file in connection with an offering of Securities by Selling Securityholders will include the following information:

- the names of the Selling Securityholders;
- the number or amount of Securities owned, controlled or directed of the class being distributed by each Selling Securityholder;
- the number or amount of Securities of the class being distributed for the account of each Selling Securityholder;
- the number or amount of Securities of any class to be owned, controlled or directed by the Selling Securityholders after the distribution and the percentage that number or amount represents of the total number of our outstanding Securities;
- whether the Securities are owned by the Selling Securityholders both of record and beneficially, of record only, or beneficially only; and
- all other information that is required to be included in the applicable Prospectus Supplement.

USE OF PROCEEDS

The net proceeds to the Corporation from any offering of Securities, the proposed use of those proceeds and the specific business objectives the Corporation expects to accomplish with such proceeds will be set forth in the applicable Prospectus Supplement relating to that offering. In general, it is intended to use the net proceeds from the sale of any Securities offered under this Prospectus for the acquisition of royalties and/or stream interests and for general corporate purposes. The Corporation had negative operating cash flow for the financial year ended December 31, 2022. To the extent that the Corporation has negative cash flow in any future period, certain of the proceeds from an offering under any Prospectus Supplement may be used to fund such negative cash flow from operating activities in these periods. Further information regarding the Corporation's negative cash flow may be found under the heading "Risk Factors – History of Negative Cash Flow".

There may be circumstances where, on the basis of results obtained or for other sound business reasons, a re-allocation of funds may be necessary or prudent. Accordingly, management of the Corporation will have broad discretion in the application of the proceeds of an offering of Securities. The actual amount that the Corporation spends in connection

with each intended use of proceeds of an offering of Securities may vary significantly from the uses described above and will depend on a number of factors, including those referred to under “Risk Factors” in this Prospectus and the applicable Prospectus Supplement.

CONSOLIDATED CAPITALIZATION

There has been no material change in the share and loan capitalization of the Corporation since the Interim Financial Statements. The applicable Prospectus Supplement will describe any material change, and the effect of such material change, on the share and loan capitalization of the Corporation that will result from the issuance of Securities pursuant to such Prospectus Supplement.

DESCRIPTION OF MATERIAL INDEBTEDNESS

On December 1, 2022, the Corporation entered into an agreement with two Canadian Schedule I chartered banks for a US\$40 million facility (“**Facility**”), with an option to increase the Facility to US\$50 million subject to certain conditions. The Facility has a term of three (3) years that is extendable through mutual agreement between Elemental, and the two Canadian Schedule I chartered banks. Depending on the Corporation’s leverage ratio, the amounts drawn on the Facility are subject to interest at the secured overnight financing rate plus 2.50% - 3.75% per annum and the undrawn portion is subject to a standby fee of 0.56% - 0.84% per annum.

As at the date of this Prospectus, the Corporation has drawn down US\$30 million from the Facility, approximately US\$25.3 million of which was used to settle the outstanding loan principal together with any accrued and unpaid interest and fees owed to Sprott Private Resources Lending II (Collector), LP in its entirety.

The Facility has been entered into by the Corporation as borrower, a Canadian Schedule I chartered bank and its subsidiaries as Administrative Agent, Sole Bookrunner and Co-Lead Arranger, and another Canadian Schedule I chartered bank as Co-Lead Arranger and Syndication Agent.

Dividend Rights

Holders of Common Shares are entitled to receive such dividends as may be declared from time to time by the Board, at its discretion. In no event may a dividend be declared or paid on the Common Shares if payment of the dividend would cause the realizable value of the Corporation’s assets to be less than the aggregate of its liabilities and the amount required to redeem all of the shares having redemption or retraction rights, which are then outstanding.

Voting Rights

Holders of Common Shares are entitled to one vote for each share held of record on all matters to be acted upon by the shareholders.

Liquidation

In the event of any liquidation, dissolution or winding up of the Corporation, holders of Common Shares have the right to a ratable portion of the assets remaining after payment of liabilities and liquidation preferences of any other priority-ranking securities that may then be outstanding.

Redemption

No Common Shares have been issued subject to call or assessment. There are no pre-emptive or conversion rights and no provisions for redemption or purchase for cancellation, surrender, or sinking or purchase funds.

Other Provisions

All outstanding Common Shares are, and the Common Shares obtainable upon conversion, exchange or exercise of other Securities offered hereby, if issued in the manner described in this Prospectus and the applicable Prospectus Supplement, will be, fully paid and non-assessable.

You should read the Prospectus Supplement relating to any offering of Common Shares, or of Securities convertible, exchangeable or exercisable for Common Shares, for the terms of the offering, including the number of Common Shares offered, any initial offering price and market prices relating to the Common Shares.

This section is a summary and may not describe every aspect of our Common Shares that may be important to you. We urge you to read the *Business Corporations Act* (British Columbia) and our articles, because they, and not this description, define your rights as a holder of our Common Shares.

DESCRIPTION OF SUBSCRIPTION RECEIPTS

Subscription Receipts may be offered separately or together with other Securities. As at the date of this Prospectus, the Corporation has no Subscription Receipts outstanding.

Subscription Receipts will be issued under a subscription receipt agreement entered into between us and an escrow agent (the “**Escrow Agent**”). The applicable Prospectus Supplement will include details of the agreement pursuant to which such Subscription Receipts will be created and issued. Subscription Receipts will entitle the holders to receive Common Shares or other securities or a combination of securities upon the satisfaction of certain conditions, typically the completion of an acquisition by us of the assets or securities of another entity. Subsequent to an offering of Subscription Receipts, all or a portion of the proceeds for the Subscription Receipts will be held in escrow by the Escrow Agent, pending the satisfaction of the conditions specified in the applicable Prospectus Supplement. Holders of Subscription Receipts are not shareholders. Holders of Subscription Receipts are only entitled to receive Common Shares or other securities upon exchange or conversion of their Subscription Receipts in accordance with the terms thereof or to a return of the price for the Subscription Receipts together with any payments in lieu of interest or other income earned on the subscription proceeds.

The particular terms and provisions of Subscriptions Receipts offered under any Prospectus Supplement, and the extent to which the general terms and provisions described in this Prospectus may apply to those Subscription Receipts, will be described in the Prospectus Supplement filed in respect of such Subscription Receipts. This description will include, where applicable:

- the number of Subscription Receipts offered;
- the price and currency or currency unit at which the Subscription Receipts will be offered;

- the terms, conditions and procedures pursuant to which the holders of Subscription Receipts will become entitled to receive Common Shares or other securities;
- the number of Common Shares or other securities that may be obtained upon exchange or conversion of each Subscription Receipt;
- the designation and terms of any other Securities with which the Subscription Receipts will be offered, if any, and the number of Subscription Receipts that will be offered with each other Security;
- the circumstances, if any, which will cause the Subscription Receipts to be automatically exchanged or converted;
- the terms applicable to the gross proceeds from the sale of such Subscription Receipts plus any interest or other income earned thereon; and
- any other material terms and conditions of the Subscription Receipts.

The terms and provisions of any Subscription Receipts offered under a Prospectus Supplement may differ from the terms described above and may not be subject to or contain any or all of the terms described above.

The preceding description and any description of Subscription Receipts in the applicable Prospectus Supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to the subscription receipt agreement relating to such Subscription Receipts.

In the case of Subscription Receipts which are exchangeable for other securities of the Corporation, the holders will not have any of the rights of holders of the securities issuable upon the exchange of the Subscription Receipts until the issuance of those securities in accordance with the terms of the Subscription Receipts.

Prospective purchasers of Subscription Receipts should be aware that special Canadian federal income tax, accounting and other considerations may be applicable to instruments such as Subscription Receipts. The applicable Prospectus Supplement for an offering of Subscription Receipts will describe such considerations, to the extent they are material, as they apply generally to purchasers of such Subscription Receipts.

DESCRIPTION OF WARRANTS

We may issue Warrants for the purchase of Common Shares, Subscription Receipts, Debt Securities or any combination of these Securities and/or other securities of the Corporation. - the date on which the right to exercise such Warrants shall commence and the date on which such right shall expire;
- the circumstances, if any, which will cause the Warrants to be deemed to be automatically exercised;
- any material risk factors relating to such Warrants;
- if applicable, the identity of the Warrant agent; and
- any other terms of such Warrants.

Prior to the exercise of any Warrants, holders of such Warrants will not have any rights of holders of the securities purchasable upon such exercise, including the right to receive payments of dividends, or the right to vote such underlying securities.

Prospective purchasers of Warrants should be aware that special Canadian federal income tax, accounting and other considerations may be applicable to instruments such as Warrants. The applicable Prospectus Supplement for an offering of Warrants will describe such considerations, to the extent they are material, as they apply generally to purchasers of such Warrants.

DESCRIPTION OF DEBT SECURITIES

The following sets out certain general terms and provisions of Debt Securities. The particular terms and provisions of any Debt Securities offered, and the extent to which the general terms and provisions described below may apply to such Debt Securities, will be described in the applicable Prospectus Supplement.

Debt Securities will be direct secured or unsecured obligations of the Corporation as described in the applicable Prospectus Supplement. Debt Securities will be senior or subordinated indebtedness of the Corporation as described in the applicable Prospectus Supplement. The senior Debt Securities will rank equal in right of payment to all other unsecured and unsubordinated indebtedness of the Corporation (except for unsecured and unsubordinated indebtedness preferred by mandatory provisions of law). The subordinated Debt Securities will be subordinated in right of payment to the prior payment in full of any senior Debt Securities and all other senior indebtedness of the Corporation.

Debt Securities will be issued in one or more series and under one or more indentures (each a “**Debt Indenture**”) between the Corporation and a trustee that will be named in the applicable Prospectus Supplement. The Debt Indenture under which any Debt Securities are issued will be specified in the applicable Prospectus Supplement. The statements made hereunder relating to any Debt Indenture or of any instalment receipt and pledge agreement (see below) and the Debt Securities to be issued thereunder are summaries of certain anticipated provisions thereof and do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all provisions of the applicable Debt Indenture or instalment receipt and pledge agreement, as applicable.

Each Debt Indenture may provide that Debt Securities may be issued thereunder up to the aggregate principal amount which may be authorized from time to time by the Corporation. The applicable Prospectus Supplement will contain the terms and other information with respect to the Debt Securities being offered thereby, which may include the following:

- the designation, aggregate principal amount and authorized denominations of such Debt Securities;
- the currency in which the Debt Securities may be purchased and in which the principal and any interest is payable (in either case, if other than Canadian dollars);

- any applicable subordination provisions;
- the offering price or the percentage of the principal amount or discount at which such Debt Securities will be issued;
- the date or dates on which such Debt Securities will mature;
- the rate or rates per annum at which such Debt Securities will bear interest (if any), or the method of determination of such interest rates (if any);
- the dates on which any such interest will be payable and the record dates for such payments;
- the name of the trustee under the Debt Indenture pursuant to which the Debt Securities are to be issued;
- any redemption term or terms under which such Debt Securities may be defeased;
- whether such Debt Securities are to be issued in registered form, bearer form or in the form of temporary or permanent global securities and the basis of exchange, transfer and ownership thereof;
- the place or places where principal, premium (if any) and interest (if any) will be payable;
- any sinking fund provisions;
- whether such Debt Securities will be issued in whole or in part in the form of one or more global securities;
- the identity of the depositary for global securities;
- whether a temporary security is to be issued with respect to such Debt Securities and whether any interest payable prior to the issuance of definitive Debt Securities of such series will be credited to the account of the persons entitled to such interest;
- the terms upon which beneficial interests in a temporary global Debt Security may be exchanged in whole or in part for beneficial interests in a definitive global Debt Security or for individual definitive Debt Securities and the terms upon which such exchanges may be made;
- the securities or stock exchange(s) on which such series of Debt Securities (or instalment receipts representing the Debt Securities, if applicable) will be listed, if any;
- any terms relating to the modification, amendment or waiver of any terms of such Debt Securities or the Debt Indenture;
- any right of the trustee or the holders to declare the principal, premium (if any) and interest (if any) with respect to such series of Debt Securities to be due and payable;
- the governing law of such Debt Securities and Debt Indenture;
- any provisions relating to any security provided for such Debt Securities;
- any exchange or conversion terms to acquire other securities of the Corporation; and
- any other specific terms, including any additional events of default or covenants not inconsistent with the provisions of the applicable indenture.

The Debt Securities may, at our option, be issued in fully registered certificated form or in “book-entry only” form. Debt Securities in registered form will be exchangeable for other Debt Securities of the same series and tenor, registered in the same name, for a like aggregate principal amount in authorized denominations and will be transferable at any time or from time to time at the corporate trust office of the trustee for such Debt Securities.

Debt Securities of a single series may be issued at various times with different maturity dates, may bear interest at different rates and may otherwise vary. This Prospectus does not qualify for issuance Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to one or more underlying interests including, for example, a statistical measure of economic or financial performance (including, but not limited to, any currency, consumer price or mortgage index, or the price or value of one or more commodities, indices or other items, or any other item or formula, or any combination or basket of the foregoing items).

The preceding description and any description of Debt Securities in the applicable Prospectus Supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to the Debt Indenture relating to such Debt Securities.

In the case of Debt Securities which are convertible into other securities of the Corporation, the holders will not have any of the rights of holders of the securities issuable upon the conversion of the Debt Securities until the issuance of those securities in accordance with the terms of the Debt Securities and Debt Indenture.

The Debt Securities offered pursuant to this Prospectus and any Prospectus Supplement may be represented by instalment receipts which will provide for payment for the Debt Securities on an instalment basis, the particular terms and provisions of which will be described in the applicable Prospectus Supplement and set out in an instalment receipt and pledge agreement or similar agreement. Any such instalment receipt will evidence, among other things, (a) the fact that a first instalment payment has been made in respect of the Debt Securities represented thereby, and (b) the beneficial ownership of the Debt Securities represented by the instalment receipt, subject to a pledge of such Debt Securities securing the obligation to pay the balance outstanding under such Debt Securities on or prior to a certain date.

Prospective purchasers of Debt Securities should be aware that special Canadian federal income tax, accounting and other considerations may be applicable to instruments such as Debt Securities. The applicable Prospectus Supplement for an offering of Debt Securities will describe such considerations, to the extent they are material, as they apply generally to purchasers of such Debt Securities.

DESCRIPTION OF UNITS

The Corporation may issue Units separately or together with other Securities. The applicable Prospectus Supplement will include details of the Units being offered thereunder. As at the date of this Prospectus, the Corporation has no Units outstanding.

Each Unit will be issued so that the holder of the Unit is also the holder of each Security comprising the Unit. Thus, the holder of a Unit will have the rights and obligations of a holder of each Security. The following describes the general terms that will apply to any Units that may be offered by the Corporation pursuant to this Prospectus. The terms and provisions of any Units offered under a Prospectus Supplement may differ from the terms described below, and may not be subject to or contain any or all of the terms described below.

The particular terms and provisions of the Units offered under any Prospectus Supplement, and the extent to which the general terms of the Units described in this Prospectus apply to those Units, will be set out in the applicable Prospectus Supplement. This description will include, where applicable: (i) the number of Units offered; (ii) the price or prices, if any, at which the Units will be issued; (iii) the manner of determining the offering price(s) (in the event that the offering is not a fixed price distribution); (iv) the currency in which the Units will be offered; (v) the Securities comprising the Units; (vi) whether the Units will be issued with any other securities and, if so, the amount and terms of such securities; (vii) any minimum or maximum subscription amount; (viii) whether the Units and the Securities comprising the Units are to be issued in registered form, “book-entry only” form, non-certificated inventory system form, bearer form or in the form of temporary or permanent global securities and the basis of exchange, transfer and

ownership thereof; (ix) any other rights, privileges, restrictions and conditions attaching to the Units or the Securities comprising the Units; and (x) any other material terms or conditions of the Units or the Securities comprising the Units, including whether and under what circumstances the Securities comprising the Units may be held or transferred separately.

Prospective purchasers of Units should be aware that special Canadian federal income tax, accounting and other considerations may be applicable to instruments such as Units and/or the Securities comprising the Units. The applicable Prospectus Supplement for an offering of Units will describe such considerations, to the extent they are material, as they apply generally to purchasers of such Units.

OTHER MATTERS RELATING TO THE SECURITIES

General

The Securities may be issued in fully-registered certificated form or in book-entry only form.

Certificated Form

Securities issued in certificated form will be registered in the name of the purchaser or its nominee on the registers maintained by our transfer agent and registrar or the applicable trustee.

Book-Entry Only Form

Securities issued in “book-entry only” form must be purchased, transferred or redeemed through participants in a depository service of a depository identified in the Prospectus Supplement for the particular offering of Securities. Each of the underwriters, dealers or agents, as the case may be, named in the Prospectus Supplement will be a participant of the depository. On the closing of a book-entry only offering, we will cause a global certificate or certificates or an electronic deposit representing the aggregate number of Securities subscribed for under such offering to be delivered to or deposited with, and registered in the name of, the depository or its nominee. Except as described below, no purchaser of Securities will be entitled to a certificate or other instrument from us or the depository evidencing that purchaser’s ownership thereof, and no purchaser will be shown on the records maintained by the depository except through a book-entry account of a participant acting on behalf of such purchaser. Each purchaser of Securities will receive a customer confirmation of purchase from the registered dealer from which the Securities are purchased in accordance with the practices and procedures of such registered dealer. The practices of registered dealers may vary, but generally customer confirmations are issued promptly after execution of a customer order. The depository will be responsible for establishing and maintaining book-entry accounts for its participants having interests in the Securities.

If we determine, or the depository notifies us in writing, that the depository is no longer willing or able to discharge properly its responsibilities as depository with respect to the Securities and we are unable to locate a qualified successor, or if we at our option elect, or are required by law, to terminate the book-entry system, then the Securities will be issued in certificated form to holders or their nominees.

Transfer, Conversion or Redemption of Securities

Certificated Form

Transfer of ownership, conversion or redemptions of Securities held in certificated form will be effected by the registered holder of the Securities in accordance with the requirements of our transfer agent and registrar and the terms of the agreement, indenture or certificates representing such Securities, as applicable.

Book-Entry Only Form

Transfer of ownership, conversion or redemptions of Securities held in book-entry only form will be effected through records maintained by the depository or its nominee for such Securities with respect to interests of participants, and

on the records of participants with respect to interests of persons other than participants. Holders who desire to purchase, sell or otherwise transfer ownership of or other interests in the Securities may do so only through participants. The ability of a holder to pledge a Security held in book-entry only form or otherwise take action with respect to such holder's interest in a Security (other than through a participant) may be limited due to the lack of a physical certificate.

Payments and Notices

Certificated Form

Any payment of principal, a redemption amount, a dividend or interest (as applicable) on a Security will be made by us, and any notices in respect of a Security will be given by us, directly to the registered holder of such Security, unless the applicable agreement, indenture or certificate in respect of such Security provides otherwise.

Book-Entry Only Form

Any payment of principal, a redemption amount, a dividend or interest (as applicable) on a Security will be made by us to the depository or its nominee, as the case may be, as the registered holder of the Security and we understand that such payments will be credited by the depository or its nominee in the appropriate amounts to the relevant participants. Payments to holders of Securities of amounts so credited will be the responsibility of the participants.

As long as the depository or its nominee is the registered holder of the Securities, the depository or its nominee, as the case may be, will be considered the sole owner of the Securities for the purposes of receiving notices or payments on the Securities. In such circumstances, our responsibility and liability in respect of notices or payments on the Securities is limited to giving or making payment of any principal, redemption amount, dividend or interest (as applicable) due on the Securities to the depository or its nominee.

Each holder must rely on the procedures of the depository and, if such holder is not a participant, on the procedures of the participant through which such holder owns its interest, to exercise any rights with respect to the Securities.

We understand that under existing industry practices, if we request any action of holders or if a holder desires to give any notice or take any action which a registered holder is entitled to give or take with respect to any Securities issued in book-entry only form, the depository would authorize the participant acting on behalf of the holder to give such notice or to take such action, in accordance with the procedures established by the depository or agreed to from time to time by us, any trustee and the depository. Accordingly, any holder of a Security held in book-entry only form that is not a participant must rely on the contractual arrangement it has directly or indirectly through its financial intermediary with its participant to give such notice or take such action.

We, the underwriters, dealers or agents and any trustee identified in a Prospectus Supplement relating to an offering of Securities in book-entry only form, as applicable, will not have any liability or responsibility for: (i) records maintained by the depository relating to beneficial ownership interest of the Securities held by the depository or the book-entry accounts maintained by the depository; (ii) maintaining, supervising or reviewing any records relating to any such beneficial ownership; or (iii) any advice or representation made by or with respect to the depository and contained in the Prospectus Supplement or in any indenture relating to the rules and regulations of the depository or any action to be taken by the depository or at the directions of the participants.

PLAN OF DISTRIBUTION

We may offer Securities directly to one or more purchasers, or through agents, underwriters or dealers designated from time to time. We may distribute the Securities from time to time in one or more transactions at a fixed price or at prices which may vary or may be changed from time to time, at market prices prevailing at the times of sale, at prices determined by reference to prevailing market prices or at negotiated prices. A description of such pricing will be disclosed in the applicable Prospectus Supplement. We may offer Securities in the same offering, or we may offer Securities in separate offerings. A Prospectus Supplement will describe the terms of each specific offering of Securities, including:

- the terms of the Securities to which the Prospectus Supplement relates;
- the name or names of any agents, underwriters or dealers;
- the purchase price of the Securities offered thereby and the proceeds to be received by the Corporation from the sale of such Securities;
- any agents' commission, underwriting discounts or fees and other items constituting compensation payable to agents, underwriters or dealers; and
- any discounts or concessions allowed or reallocated or paid to agents, underwriters or dealers.

If underwriters are used in an offering, the Securities offered thereby will be acquired by the underwriters as principal and may be resold from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale, including sales in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102, including sales made directly on the TSX-V or other existing trading markets for the Common Shares. The prices at which the Common Shares may be offered may vary as between purchasers and during the period of distribution. Securities may be either offered to the public through underwriting syndicates represented by one or more managing underwriters or by underwriters without a syndicate. The obligations of the underwriters to purchase Securities will be subject to the conditions precedent agreed to by the parties and set forth in the applicable Prospectus Supplement and the underwriters will be obligated to purchase all Securities under that offering if any are purchased. Any public offering price and any discounts or concessions allowed or reallocated or paid to agents, underwriters or dealers may be changed from time to time.

Agents, underwriters or dealers may make sales in privately negotiated transactions and/or any other method permitted by law. In connection with any offering of Securities, except with respect to "at-the-market distributions", underwriters, dealers or agents may over-allot or effect transactions which stabilize or maintain the market price of the offered Securities at a level above that which might otherwise prevail in the open market. Such transactions may be commenced, interrupted or discontinued at any time. No underwriter, dealer or agent involved in an "at-the-market distribution", as defined under NI 44-102, no affiliate of such an underwriter, dealer or agent and no person or company acting jointly or in concert with such an underwriter, dealer or agent may, in connection with such distribution, enter into any transaction that is intended to stabilize or maintain the market price of the Securities or securities of the same class as the Securities distributed pursuant to an "at-the-market distribution", including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities.

Securities may be sold directly by the Corporation or through agents or dealers designated by the Corporation from time to time. Any agent or dealer involved in the offer or sale of Securities in respect of which this Prospectus is delivered will be named, and any commissions or fees payable by the Corporation to any agent or dealer will be set forth, in the applicable Prospectus Supplement. Unless otherwise indicated in such Prospectus Supplement, any agent or dealer will be acting on a "best efforts" agency basis for the period of its appointment.

We may authorize agents, dealers or underwriters to solicit offers by eligible institutions to purchase Securities from the Corporation at the public offering price set forth in the applicable Prospectus Supplement under delayed delivery contracts providing for payment and delivery on a specified date in the future. The conditions to these contracts and the commissions payable for solicitation of these contracts will be set forth in the applicable Prospectus Supplement.

Each class or series of Securities, other than the Common Shares, will be a new issue of Securities with no established trading market. Subject to applicable laws, any underwriter may make a market in these Securities, but will not be obligated to do so and may discontinue any market making at any time without notice. There may be limited liquidity in the trading market for any such Securities.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a Prospectus or a Prospectus Supplement relating to the securities purchased by a purchaser and any amendment thereto. However, purchasers of Securities distributed under an “at-the-market” distribution by the Corporation do not have the right to withdraw from an agreement to purchase the Securities and do not have remedies of rescission, or in some jurisdictions, revisions of the price, or damages for non-delivery of the Prospectus, Prospectus Supplement, and any amendment relating to the Securities purchased by such purchaser because the Prospectus, Prospectus Supplement, and any amendment relating to the Securities purchased by such purchaser will not be sent or delivered, as permitted under Part 9 of NI 44-102.

In several of the provinces and territories of Canada, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages, if the Prospectus or Prospectus Supplement relating to the securities purchased by a purchaser and any amendment thereto contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. Any remedies under securities legislation that a purchaser of Securities distributed under an “at-the-market” distribution by the Corporation may have against the Corporation or its agents for rescission or, in some jurisdictions, revisions of the price, or damages if the Prospectus, Prospectus Supplement, and any amendment relating to securities purchased by a purchaser contain a misrepresentation will remain unaffected by the non-delivery of the Prospectus, Prospectus Supplement and any amendment thereto referred to above. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for the particulars of these rights or consult with a legal adviser.

Original purchasers of Securities which are convertible, exchangeable or exercisable for other securities of the Corporation, including Warrants and Subscription Receipts if offered separately, will have a contractual right of rescission against the Corporation following the conversion, exchange or exercise of such Securities. This contractual right of rescission will entitle such original purchasers to receive the amount paid for such convertible, exchangeable or exercisable Securities, including any additional amount paid upon conversion, exchange or exercise thereof, upon surrender of the underlying securities gained thereby, in the event that this Prospectus, the relevant Prospectus Supplement or an amendment thereto contains a misrepresentation, provided that: (i) the conversion, exchange or exercise takes place within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of such Securities under this Prospectus and the applicable Prospectus Supplement. This contractual right of rescission will be consistent with the statutory right of rescission described under section 131 of the *Securities Act*

(British Columbia), and is in addition to any other right or remedy available to original purchasers under section 131 of the *Securities Act* (British Columbia) or otherwise at law.

Original purchasers are further advised that in certain provinces and territories the statutory right of action for damages in connection with a Prospectus misrepresentation is limited to the amount paid for the Securities that were purchased under a Prospectus offering. This means that, under the securities legislation of certain provinces if the purchaser pays additional amounts upon conversion, exchange or exercise of the Security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the province or territory in which the purchaser resides for the particulars of these rights, or consult with a legal advisor.
