

RUPERT RESOURCES LTD.
MANAGEMENT'S DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS
FOR THE THREE AND SIX MONTHS ENDED
AUGUST 31, 2018

Introduction

The following interim management's discussion and analysis ("MD&A") of Rupert Resources Ltd. ("Rupert" or the "Company") for the three and six months ended August 31, 2018 has been prepared to provide material updates to the business operations, liquidity and capital resources of the Company since its last annual management's discussion & analysis ("Annual MD&A") for the fiscal year ended February 28, 2018. This MD&A does not provide a general update to the Annual MD&A, or reflect any non-material events since date of the Annual MD&A.

This MD&A was written to comply with the requirements of National Instrument 51-102 - Continuous Disclosure Obligations. This discussion should be read in conjunction with the unaudited condensed interim financial statements for the three and six months ended August 31, 2018 in addition to the audited annual financial statements for the years ended February 28, 2018 and February 28, 2017, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Company's financial statements and the financial information contained in this MD&A are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC"). The unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements as determined by IFRS. Information contained herein is presented as of October 23, 2018 unless otherwise indicated.

For the purposes of preparing this MD&A, management, in conjunction with the Board of Directors, considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of Rupert's common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board of Directors, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Description of Business

Rupert is a company incorporated under the laws of the Province of British Columbia. The Company has five projects located in Finland, Ontario and British Columbia..

The ability of the Company to continue as a going concern is dependent upon its ability to obtain additional financing. Rupert's financial statements have been prepared on the basis that the Company is a going concern and do not include adjustments that would be necessary should the Company be unable to continue as a going concern. The Company is actively seeking additional sources of liquidity and reducing discretionary expenditures where possible in order to preserve and enhance its liquidity.

The Company's outstanding common shares trade on the TSX Venture Exchange under the symbol RUP. As at August 31, 2018, an investor of the Company, Alan Brimacombe, controls 19,758,800 common shares of the Company or approximately 17.7% of the total common shares outstanding. To the knowledge of directors and officers of Rupert, the remainder of the Company's outstanding common shares are widely held. These holdings can change at any time at the discretion of the owner.

Overall Performance

The following significant events occurred during the six months ended August 31, 2018:

The Company announced on March 2, 2018 that it had closed a financial placement (the “**March 2018 financial placement**”) and had issued 5,903,615 common shares in the Company at a price of \$0.83 per common share for gross proceeds of \$4,900,000.

On March 20, 2018 the Company entered into a binding, definitive share exchange agreement with Northern Aspect Resources Limited (“**NARL**”) and all of the shareholders of NARL to acquire all of the issued and outstanding securities in NARL (the “**NARL transaction**”), subject to certain conditions, including *inter alia*, definitive approval from the TSX-V.

On April 16, 2018 the Company announced a Mineral Resource Estimate for the Pahtavaara project (“**Pahtavaara**”) in the Central Lapland Greenstone Belt in Northern Finland (“**CLGB**”) and prepared in accordance with NI 43-101 and comprising 4.64 million tonnes (“**Mt**”) in the Inferred category, grading 3.2 grams per tonne (“**g/t**”) gold (“**Au**”) for 474 thousand ounces (“**koz**”) Au at a cut off of 1.5 g/t Au.

On May 15, 2018, the Company announced that it had received from the TSX-V, definitive approval to acquire all the issued and outstanding securities of NARL and that it had completed the NARL transaction through issue of 4,913,466 consideration shares at a deemed value of \$0.85 per share.

On May 30, 2018 a technical report to support the Mineral Resource Estimate for Pahtavaara was filed and titled “NI 43-101 Technical Report: Pahtavaara Project, Finland” (the “**Pahtavaara Report**”).

On July 30, 2018 an updated regional geology interpretation for Pahtavaara in the CLGB was issued by the Company and represented the culmination of approximately 12 months of evaluation by the Company.

On August 1, 2018 the Company announced the award of 2,625,000 share options in the Company to certain directors, officers and employees. The options carry an exercise price of \$ 1.00 per share and are valid for five years from date of grant.

At August 31, 2018, the Company had a working capital of \$2,814,437 (February 28, 2018 – \$4,556,163). The \$1,741,726 decrease in working capital during the six months ended Aug 31, 2018 was primarily due to operating activities and expenditures on exploration and evaluation assets and buildings and equipment. The Company had cash of \$3,720,820 at August 31, 2018 (February 28, 2018 - \$5,487,407). The decrease in cash during the six months ended August 31, 2018 was due to operating and investing activities.

Additional financing will be required to fund operating expenses as it searches for suitable assets or businesses to merge with or acquire. See “Liquidity and Capital Resources”.

Change of Management

On June 25, 2018 Mr. Gunnar Nilsson assumed the role of non-Executive Chairman of the Company, replacing Mr. Brian Hinchcliffe, who was the Executive Chairman until that date. Mr. Nilsson was previously a Director of NARL. Prior to this Mr. Nilsson held senior roles at Johnson & Johnson and Svenska Cellulosa/Mölnlycke before retiring to act as a private investor. Mr. Nilsson has over 30 years experience of developing and operating businesses in Europe and through joint venture companies outside Europe.

On July 30, 2018. Dr. Charlotte Seabrook joined the Company as Group Exploration Manager. Prior to joining Rupert, Dr. Seabrook was District Geologist for Newcrest in West Africa. She has 13 years

experience in geology and mining having completed her PhD at the University of Witwatersrand and holds an MSc Mineral Resources (Cum laude) from the University of Wales (Cardiff) and is based in Finland.

Other Events after the Reporting Period

On September 11, 2018 reported on drill results from its 2018 drill campaign at the Hirsikangas Project (“Hirsikangas”), acquired by the Company as part of the NARL transaction.

Potential Dilution

The issue of common shares of the Company upon the exercise of the options and warrants will dilute the ownership interest of the Company's current shareholders. The Company may also issue additional options and warrants or additional common shares from time to time in the future. If it does so, the ownership interest of the Company's then current shareholders could also be diluted.

Exploration and Evaluation Update

Pahtavaara

Geology and Exploration

On July 30, 2018 Rupert published a new geological interpretation for Pahtavaara and the surrounding land package. The new interpretation, combined with historical data will provide the basis for ongoing exploration for gold and base metals. Over the summer fieldwork season, six student geologists mapped and sampled outcrops over the entire Rupert licence area with 947 samples collected including 133 from outcrop. Rupert has also commenced base of till “BOT” drilling at a number of near mine areas (all within 5km of the Pahtavaara mill) with the intention of generating a number of new drilling targets. The BOT drilling will continue over the rest of the year, when the campaign will be expanded to include new distal targets generated by the summer fieldwork and new UAV magnetic survey data that was gathered in 2018.

At the Pahtavaara mine the geology team is continuing with their programme to increase confidence in, and potentially expand the resource through to selective re-logging and assay portions of the >100km of unsampled diamond drill core. This work has been augmented by underground channel sampling of the ramp and existing underground development where there is evidence of previously unrecognised mineralisation in multiple areas.

Central Finland properties

On September 11, 2018. Rupert announced the results of its 2018 drill program at Hirsikangas. The program comprised 1,318m in ten diamond drill holes and targeted areas close to the historic resource estimate, including one hole under the main deposit, four holes to extend a known parallel or offset structure and a further five holes along the strike of the defined mineralisation to identify further parallel or offset structures to the east, testing a resistivity high. Eight out of ten drill holes intersected the target structures. Fieldwork comprising geological mapping and sampling of boulder, outcrop, soil and heavy minerals will continue on the property until the onset of winter.

Gold Centre Property, Ontario and Surf Inlet Property, British Columbia

A new database of all historic data for Rupert's two Canadian properties has been compiled and an assessment will be made of prior planned work programs for the project.

Discussion of Operations

Three months ended August 31, 2018, compared with three months ended August 31, 2017

Rupert's net loss totaled \$1,169,927 for the three months ended August 31, 2018, with basic and diluted loss per share of \$0.01. This compares with a net loss of \$1,572,792 with basic and diluted loss per share of \$0.02 for the three months ended August 31, 2017. No revenue was recorded in either period.

The net loss decreased by \$402,865 due to the following:

Share-based payments decreased by \$492,624 as a result of the stock options vested.

General and administrative expenses increased to \$574,484, which was \$55,360 higher than the comparable period primarily due to increases in salaries and benefits of \$8,191, office and sundry of \$72,220, and professional fees of \$72,923. The increase was offset by decreases in travel of \$72,073, transfer agent cost of \$11,413 and consulting fees of \$21,415

Accretion & interest expense of \$310,277 was incurred as a result of the convertible debentures, as compared to \$274,291 for the three months ended August 31, 2017.

Liquidity and Capital Resources

As at August 31, 2018, the Company had working capital of \$2,814,437 (February 28, 2018 –\$4,556,163). The Company is seeking additional sources of liquidity (see "Overall Performance"). There can be no assurance that additional financing or shareholder loans, if and when required, will be available on terms acceptable to the Company.

Share Capital

As at the date of this MD&A, the Company had 111,679,573 issued and outstanding common shares, 10,015,000 stock options with exercise prices between \$0.08 and \$1.01, and expiry dates between January 2019 and July 2023.

Disclosure of Internal Controls

Management has established processes to provide them with sufficient knowledge to support representations that they have exercised reasonable diligence that (i) the financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the financial statements; and (ii) the financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), this Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing this certificate are not making any representations relating to the establishment and maintenance of:

- i. controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted

Rupert Resources Ltd.
Management's Discussion & Analysis – Quarterly Highlights
Three and Six Months Ended August 31, 2018
Dated – October 23, 2018

under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and

- ii. a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP (IFRS).

The issuer's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in this certificate. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

Related Party Transactions

Rupert entered into the following transactions with related parties:

Names	Three months Ended August 31, 2018 \$	Three months Ended August 31, 2017 \$	Six months Ended August 31, 2018 \$	Six months Ended August 31, 2018 \$
Marrelli Support Services Inc. ("MSSI") ⁽¹⁾	11,881	9,828	19,899	17,796

The Company entered into an accounting support services agreement with Marrelli Support Services Inc. ("MSSI") where under MSSI provided, certain accounting support services. A director and former officer of the Company, Mr. Robert D. B. Suttie, is Vice President of MSSI. During the three and six months ended August 31, 2018, \$11,881 and \$19,899, respectively (three and six months ended August 31, 2017 - \$ 9,828 and \$17,796, respectively) was expensed with respect to the services provided. As at August 31, 2018, MSSI was owed \$2,914 (February 28, 2018 - \$5,773). These amounts are included in amounts payable and accrued liabilities.

Remuneration and benefits of key management personnel and directors of the Company were as follows:

- (1) With the exception of the Chief Executive Officer, the Board of Directors do not have employment or service contracts with the Company.
- (2) The Company entered into an agreement with the Executive Chairman of the Company to pay him a monthly consulting fee of US\$16,000 on January 1, 2017. The Executive Chairman ceased to receive a monthly fee from the Company from January 1, 2018. During the three and six months ended August 31, 2018, \$nil (three and six months ended August 31, 2017 - \$47,671 and \$129,392, respectively) was expensed as salaries and benefits. On June 25, 2018, the Executive-Chairman, Mr. Brian Hinchcliffe, resigned from the Board of the Company
- (3) The Company entered into an agreement with the Chief Executive Officer of the Company to pay him a monthly base salary GBP15,454. During the three and six months ended August 31, 2018, \$83,683 and \$169,703, respectively (three and six months ended August 31, 2017 - \$76,530 and \$114,097, respectively) was expensed as salaries. As at August 31, 2018, the Chief Executive Officer was owed \$575 for reimbursable expenses (February 28, 2018 - \$118) and this amount was included in amounts payable and accrued liabilities.
- (4) The Company entered into an agreement with the Chief Financial Officer of the Company to pay him a monthly base salary of GBP5,833. During the three and six months ended August 31, 2018, \$30,134 and \$61,253, respectively (three and six months ended August 31, 2017 - \$nil) was expensed as salaries. As at August 31, 2018, the Chief Financial Officer was owed \$nil for reimbursable expenses (February 28, 2018 - \$973) and this amount was included in amounts payable and accrued liabilities.
- (5) The Company entered into an agreement with the Non-Executive Chairman of the Company to pay him a monthly consulting fee of \$3,000 from July 1, 2018. During the three and six months ended August 31, 2018, \$6,000 (three and six months ended August 31, 2017 - \$nil) were paid.

Risks and Uncertainties

The Company's business of exploring for mineral resources involves a variety of operational, financial and regulatory risks that are typical in the natural resource industry. The Company attempts to mitigate these risks and minimize their effect on its financial performance, but there is no guarantee that the Company will be profitable in the future, and the Company's common shares should be considered speculative in nature.

The business of exploration for minerals and mining involves a high degree of risk. A relatively small proportion of properties that are explored are ultimately developed into producing mines. At present, there are no known bodies of commercial ore on any of the mineral properties in which the Company holds interest or intends to acquire an interest and the proposed exploration program is an exploratory search for ore. Unusual or unexpected formations, formation pressures, fires, power outages, labour disruptions, flooding, cave-ins, landslides and the inability to obtain suitable or adequate machinery, equipment or labour are other risks involved in the conduct of exploration programs. The Company has limited experience in the development and operation of mines and has relied on and may continue to rely upon consultants and others for exploration and operating expertise. The economics of developing gold and other mineral properties is affected by many factors including the cost of operations, variation of the grade of ore mined, and fluctuations in the price of any minerals produced.

The success of the Company is dependent, among other things, on obtaining sufficient funding to enable the Company to explore and develop its properties. There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in delay or indefinite postponement of further exploration and development of its projects with the possible loss of such properties. The Company will require new capital to continue to operate its business and to continue with exploration on its mineral properties, and there is no assurance that capital will be available when needed, if at all. It is likely such additional capital will be raised through the issuance of additional equity, which will result in dilution to the Company's shareholders.

The operations of the Company may require licenses and permits from various local, provincial and federal governmental authorities. There can be no assurance that the Company will be able to obtain all necessary licenses and permits that may be required to carry out exploration, development, or mining operations, at its projects.

Even if the Company's exploration programs are successful, factors beyond the control of the Company may affect the marketability of any mineral products discovered. The prices of mineral products have historically fluctuated widely and are affected by numerous factors beyond the Company's control, including international, economic and political trends, expectations for inflation, currency exchange fluctuations, interest rates, global or regional consumption patterns, speculative activities and worldwide production levels. The effect of these factors cannot accurately be predicted.

The mining industry is intensely competitive. The Company competes with many companies possessing greater financial resources and technical facilities than itself for the acquisition of mineral interests as well as for the recruitment and retention of qualified employees, contractors and consultants.

The Company's operations are subject to environmental regulations promulgated by local, provincial and federal government agencies from time to time. Environmental legislation provides for restrictions and prohibitions of spills, releases or emissions of various substances produced in association with certain mining industry operations, such as seepage from tailing disposal areas, which could result in environmental pollution. A breach of such legislation may result in the imposition of fines and penalties. In addition, certain types of operations require submissions to and approval of environmental impact assessments. Environmental legislation is evolving in a manner, which means stricter standards and enforcement, and fines and penalties for non-compliance are more stringent. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and directors, officers and employees. The cost

of compliance with changes in governmental regulations has a potential to reduce the profitability of operations. The Company intends to fully comply with all environmental regulations.

Certain directors or proposed directors of the Company are also directors, officers or shareholders of other companies that are similarly engaged in the business of acquiring, developing and exploiting natural resource properties. Such associations may give rise to conflicts of interest from time to time. The directors of the Company are required by law to act honestly and in good faith with a view to the best interests of the Company and to disclose any interest, which they may have in any project opportunity of the Company. If a conflict of interest arises at a meeting of the Board of Directors, any director in a conflict will disclose his interest and abstain from voting on such matter. In determining whether or not the Company will participate in any project or opportunity, the directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at that time.

The Company does not have a historical track record of operating upon which investors may rely. Consequently, investors will have to rely on the expertise of the Company's management. Further, the Company's properties are in the exploration stage and are not commercially viable at this time. The Company does not have a history of earnings or the provision of return on investment, and there is no assurance that it will produce revenue, operate profitably or provide a return on investment in the future.

At present, there are no known bodies of commercial ore on any of the mineral properties in which the Company holds interest or intends to acquire an interest and the proposed exploration program is an exploratory search for ore. Further, the Company's properties are in the exploration stage and are not commercially viable at this time.

Management's Responsibility for Financial Information

The Company's financial statements are the responsibility of the Company's management, and have been approved by the Board of Directors. The financial statements were prepared by the Company's management in accordance with Canadian generally accepted accounting principles. The financial statements include certain amounts based on the use of estimates and assumptions. Management has established these amounts in a reasonable manner, in order to ensure that the financial statements are presented fairly in all material respects.

Caution Regarding Forward-looking Statements

The MD&A contains forward-looking information within Canadian securities laws (collectively "forward looking statements") concerning the anticipated developments in the Company's operations in future periods, its planned exploration activities, the adequacy of its financial resources and other events or conditions that may occur in the future. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management.

Statements concerning mineral reserve and resource estimates may also be deemed to constitute forward-looking statements to the extent that they involve estimates of the mineralization that will be encountered if the property is developed. Any statements that express or involve predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects", "anticipates", "plans", "projects", "estimates", "assumes", "intends", "strategy", "goals", "objectives", "potential" or variations thereof, or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual

Rupert Resources Ltd.
Management's Discussion & Analysis – Quarterly Highlights
Three and Six Months Ended August 31, 2018
Dated – October 23, 2018

results to differ materially from those anticipated in such forward-looking statements. The forward-looking statements in this MD&A speak only as of the date of this MD&A or as of the date specified in such statement.

The following table outlines certain significant forward-looking statements contained in this MD&A and provides the material assumptions used to develop such forward-looking statements and material risk factors that could cause actual results to differ materially from the forward looking statements.

Technical Information

The technical information about the Company's mineral properties contained in this MD&A, has been prepared under the supervision of Mr. Michael Sutton, a Non-Executive Director of the Company and a "qualified person" within the meaning of NI 43-101. Mr. Sutton has reviewed the contents of this MD&A and have consented to the inclusion in this MD&A of all technical statements in the form and context in which they appear and confirms that such information fairly represents the underlying data and study results.

Additional Information

Additional information relating to the Company is available on the SEDAR website www.sedar.com or on the Company's corporate website, www.rupertresources.com.
