Notes to the Condensed Interim Consolidated Financial Statements

As at and for the nine months ended February 28, 2019

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Barolo Ventures Corp. (formerly North American Potash Developments Inc.) (the “Company”) was incorporated on June 13, 2006 and is an exploration stage public company whose shares trade on the TSX Venture Exchange (“TSX-V”) under the symbol “BVC.H”. The Company’s stock had been cease-traded since October 4, 2016 for failure to file certain financial statements. The Company has brought its financial reporting obligations up-to-date, and on August 3, 2018 the British Columbia Securities Commission issued a full revocation of the cease trade order. The Company was previously engaged in the acquisition, exploration and development of mineral properties in Canada and the United States, but currently does not have an active business, and is investigating new business opportunities. The registered and records office of the Company is 2200 - 885 West Georgia Street, Vancouver, British Columbia, Canada V6C 3E8 and the principle place of business is 1600 - 609 Granville Street, Vancouver, British Columbia, Canada V7Y 1C3.

On September 20, 2018, the Company changed its name from North American Potash Developments Inc. to Barolo Ventures Corp. and consolidated its common shares on a 1.75 old for 1 new basis (all share and per share amounts in these condensed interim consolidated financial statements reflect the share consolidation).

Going Concern

These condensed interim consolidated financial statements are prepared on the basis that the Company will continue as a going concern. The Company has a history of losses and anticipates further losses in its search for and evaluation of new business opportunities. As at February 28, 2019, the Company has an accumulated deficit of \$10,620,180 and working capital of \$100,403. The future success of the Company is dependent on settlement of its liabilities, the identification and successful negotiation/acquisition of a sustainable/viable business operation together with the ability to finance the necessary funding, at agreeable terms, to support a business or asset acquisition. Management recognizes that the Company will need to generate additional financial resources in order to meet its planned business objectives. On October 2, 2018, the \$600,000 in proceeds from the non-brokered private placement of 12,000,000 subscription receipts (the “Subscription Receipts”) of the Company at a price of \$0.05 per Subscription Receipt (the “Offering”) that closed on August 13, 2018, were released to the Company. The proceeds of the Offering were used to settle certain indebtedness and for working capital purposes. With the proceeds from this private placement management believes that the Company will have sufficient liquidity to meet its operational requirements for the next fiscal year. However, the Company’s continued operations are dependent upon its ability to identify, evaluate and successfully negotiate an agreement to acquire an interest in a sustainable/viable business operation. There is no assurance that

BAROLO VENTURES CORP.

(formerly North American Potash Developments Inc.)

Notes to the Condensed Interim Consolidated Financial Statements

As at and for the nine months ended February 28, 2019

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN (continued)

the Company will identify a business or asset that warrants acquisition or participation, and/or will be able to obtain.

These condensed interim consolidated financial statements do not reflect adjustments, which could be material to the carrying values of assets and liabilities, which may be required should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

The condensed interim consolidated financial statements of the Company have been prepared in accordance with IFRS as issued by the International Accounting Standard Board (“IASB”) and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting. Accordingly, these condensed interim consolidated financial statements do not include all of the information required for the full annual financial statements and should be read in conjunction with the most recent audited annual financial statements of the Company as at and for the year ended May 31, 2018 which are available on www.sedar.com. The Board of Directors authorized these financial statements for issue on April 18, 2019.

The condensed interim consolidated financial statements include the accounts of the Company and the following subsidiaries:

			Proportion of ownership interest held	
Name of subsidiary	Principle Activity	Place of Formation	February 28, 2019	May 31, 2018
BUA USA LLC (“BUA”)	Inactive	USA	100%	100%
Potash Green LLC (“Potash Green”)	Mineral Exploration - Inactive	USA	70%	70%
Potash Green Utah LLC (“Potash Green Utah”)	Mineral Exploration - Inactive	USA	70%	70%

Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All intercompany balances, transactions, revenues and expenses have been eliminated.

BAROLO VENTURES CORP.

(formerly North American Potash Developments Inc.)

Notes to the Condensed Interim Consolidated Financial Statements

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES

The condensed interim consolidated financial statements of the Company have been prepared on the historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for the statements of cash flows.

The accounting policies applied in these condensed interim consolidated financial statements are the same as those applied in the Company's most recent audited annual consolidated financial statements as at and for the year ended May 31, 2018 which is available at www.sedar.com, except for those new, revised and/or amended standards adopted below, and reflect all the adjustments necessary for fair presentation in accordance with IAS 34. There has been no material impact on these financial statements from changes in accounting standards during the period.

4. ADOPTION OF NEW ACCOUNTING POLICIES

The accounting policies applied in the preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the year ended May 31, 2018, except for the adoption, on June 1, 2018, of **IFRS 9, Financial Instruments: Classification and Measurement** ("IFRS 9"), and **IFRS 15, Revenue from Contracts with Customers** ("IFRS 15"), both of which have an initial application as at this date.

IFRS 9, *Financial Instruments* (new; to replace IAS 39)

IFRS 9 uses a single approach to determine whether a financial asset is classified and measured at amortized cost or fair value, replacing the multiple rules in IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39"). The approach in IFRS 9 is based on how an entity manages its financial instruments and the contractual cash flow characteristics of the financial asset. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward in IFRS 9 and, therefore, the accounting policy with respect to financial liabilities is unchanged.

The following is the new accounting policy for financial assets under IFRS 9:

Financial assets

The Company will now classify its financial assets in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income ("FVTOCI") or at amortized cost. The determination of the classification of financial assets is made at initial recognition. Equity instruments that are held for trading (including all equity derivative instruments) are classified as FVTPL; for other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI.

BAROLO VENTURES CORP.

(formerly North American Potash Developments Inc.)

Notes to the Condensed Interim Consolidated Financial Statements

As at and for the nine months ended February 28, 2019

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

4. ADOPTION OF NEW ACCOUNTING POLICIES (continued)

The Company's accounting policy for each of the categories is as follows:

Financial assets at FVTPL: Financial assets carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statement of loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets held at FVTPL are included in the statement of loss in the period.

Financial assets at FVTOCI: Investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses arising from changes in fair value recognized in other comprehensive loss in which they arise.

Financial assets at amortized cost: A financial asset is measured at amortized cost if the objective of the business model is to hold the financial asset for the collection of contractual cash flows, and the asset's contractual cash flows are comprised solely of payments of principal and interest. They are classified as current assets or non-current assets based on their maturity date and are initially recognized at fair value and subsequently carried at amortized cost less any impairment.

Impairment of financial assets at amortized cost: The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost.

The following table shows the classification of the Company's financial assets under IFRS 9:

Financial asset	IFRS 9 Classification
Cash	Amortized cost
GST receivable	Amortized cost
Trade payables	Amortized cost
Accrued liabilities	Amortized cost

As the accounting reflected by the adoption of IFRS 9 under the above classifications and election is similar to that of IAS 39, there will be no impact on the Company's financial statements and no restating of prior periods will be required.

BAROLO VENTURES CORP.

(formerly North American Potash Developments Inc.)

Notes to the Condensed Interim Consolidated Financial Statements

As at and for the nine months ended February 28, 2019

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

4. ADOPTION OF NEW ACCOUNTING POLICIES (continued)**IFRS 15, Revenue from Contracts with Customers**

IFRS 15 specifies how and when an IFRS reporter will recognize revenue as well as requiring such entities to provide users of financial statements with more informative and relevant disclosures. The standard provides a single, principles based five-step model to be applied to all contracts with customers.

The adoption of IFRS 15 will have no impact on the Company's financial statements.

5. NEW STANDARDS NOT YET ADOPTED**IFRS 16, Leases**

The new standard requires the recognition of almost all lease contracts on a lessee's statement of financial position as a lease liability reflecting future lease payments and a "right-of-use" asset with exceptions for certain short-term leases and leases of low-value assets. The new standard is likely to result in increases to both the asset and liability positions of lessees as well as reported depreciation expense and finance costs of these entities in the statement of profit or loss. The Company is currently evaluating the financial impact the new standard will have on its financial results.

IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with early adoption permitted.

6. RECEIVABLES

	February 28, 2019	May 31, 2018
HST/GST receivable	\$ 13,238	\$ 6,716

BAROLO VENTURES CORP.

(Expressed in Canadian dollars)

7. EXPLORATION AND EVALUATION ASSETS**Hornby Basin Property – Northwest Territories, Canada**

By option agreement dated July 1, 2006 and the amended agreement dated June 30, 2007, the Company acquired an undivided 100% right, title and interest in four mineral claims located in the Great Bear Lake area of the Northwest Territories known as the Hornby Basin Property (“HB Claims”).

During the year ended May 31, 2010, the Company conducted a work program and incurred \$75,000 in exploration costs. As at May 31, 2011, the Company had spent the required expenditure up to October 2014 and continued to evaluate the timing of further exploration work on the HB claims. The Company did not conduct any further work on the property during the year ended May 31, 2012 and has no plans to continue exploration. As such, during the fiscal year ended May 31, 2012, the property was written down by \$268,999 to a nominal value of \$1. As the Company has not spent the minimum required amounts to maintain its claims on this property and has no plans to do so, the claims have lapsed, and the property has been written off during the period ending February 28, 2019.

8. RELATED PARTY TRANSACTIONS**Key management personnel:**

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Company’s Board of Directors and corporate officers.

As of February 28, 2019, \$Nil was due to related parties.

During the nine-month period ended February 28, 2019 and 2018 \$Nil was recorded as compensation costs for key management personnel and companies related to them.

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

9. SHARE CAPITAL AND RESERVES**(a) Authorized**

Unlimited number of common shares without par value

(b) Share capital issued and outstanding

On September 20, 2018, the Company consolidated its common shares on a 1.75 old for 1 new basis (all share and per share amounts in these condensed interim consolidated financial statements reflect the share consolidation).

On October 2, 2018, the non-brokered private placement proceeds of \$600,000 from the August 13, 2018 financing of 12,000,000 subscription receipts (the "Subscription Receipts") of the Company at a price of \$0.05 per Subscription Receipt were released to the Company, and each Subscription Receipt automatically converted into one unit of the Company (each, a "Unit") for no additional consideration. Each Unit consists of one post-consolidated common share and one share purchase warrant, with each share purchase warrant entitling the holder to acquire one additional post-consolidated common share at a price of \$0.07 per share until October 2, 2019.

(c) Stock Options

The Company has established a stock option plan whereby the board of directors may, from time to time, grant options to directors, officers, employees or consultants to a maximum of 10% of the Company's issued and outstanding common shares. These options may be granted for a maximum term of ten years from the date of grant and vest as determined by the board of directors.

On December 3, 2018 the Company granted 1,400,000 incentive stock options to directors, officers and a consultant of the Company. The options have an exercise price of \$0.25 and expire in five years.

A summary of the Company's stock option activity is as follows:

	Number of Options	Weighted average Exercise Price
Balance, as at May 31, 2018	-	\$ -
Granted	1,400,000	\$0.25
Balance, as at February 28, 2019	1,400,000	\$0.25

BAROLO VENTURES CORP.

(formerly North American Potash Developments Inc.)

Notes to the Condensed Interim Consolidated Financial Statements

As at and for the nine months ended February 28, 2019

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

9. SHARE CAPITAL AND RESERVES (continued)**(c) Stock Options**

As at February 28, 2019, stock options outstanding and exercisable are as follows:

Grant Date	Number of options Outstanding and Exercisable	Exercise Price	Expiry date	Remaining contractual life (years)
December 3, 2018	1,400,000	\$0.25	December 3, 2023	4.76
Total	1,400,000	\$0.25		4.76

The fair value of the options so granted was determined to be \$304,931 using the Black-Scholes option pricing model under the following assumptions: risk-free interest rate - 0.75%; expected life - 5 years; expected volatility – 135% and expected dividends - nil.

(d) Warrants

On October 2, 2018, as part of a non-brokered private placement the Company issued 12,000,000 share purchase warrants, with each warrant entitling the holder to acquire one common share at a price of \$0.07 per share until October 2, 2019.

A summary of the Company's warrant activity is as follow:

	Number of warrants	Weighted Average Exercise price	Expiry Date
Balance, as at May 31, 2018	-	\$ -	
Warrants issued	12,000,000	0.07	October 2, 2019
Balance, as at February 28, 2019	12,000,000	\$ 0.07	October 2, 2019

The fair value of the warrants issued was determined to be \$1,306,881 using the Black-Scholes pricing model under the following assumptions: risk-free interest rate - .75%; expected life - 1 year; expected volatility – 135% and expected dividends – nil.

(Expressed in Canadian dollars)

10. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Market Risk

Market risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate because of changes in market prices or prevailing conditions. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk and are disclosed as follows:

(i) Currency risk

The Company believes it is not subject to significant currency risk.

(ii) Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate because of changes in market interest rates. The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in short-term deposit certificates issued by its banking institution. Due to the short-term nature of these financial instruments, fluctuations in interest rates do not have a significant impact on their fair values as at February 28, 2019 and 2018.

(iii) Price rate risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Credit Risk

Credit risk is the risk that one party to a financial instrument will not fulfill some or all of its obligations, thereby causing the Company to sustain a financial loss. The Company is exposed to credit risk with respect to its cash position and receivables. The Company's cash is held in a major Canadian financial institution which is considered to have high creditability. The Company's receivable is from a government agency thus the collection is considered assured. The Company believes it has no significant credit risk.

BAROLO VENTURES CORP.

(formerly North American Potash Developments Inc.)

Notes to the Condensed Interim Consolidated Financial Statements

As at and for the nine months ended February 28, 2019

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

10. FINANCIAL INSTRUMENTS (continued)**Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in obtaining funds to meet its obligations. The Company's approach to managing liquidity risk is to ensure that it will have sufficient funds to meet liabilities when due. As at February 28, 2019, the Company had a cash balance of \$183,156 (May 31, 2018 - \$117) to settle liabilities of \$95,991 (May 31, 2018 - \$392,815). Management believes that the Company has sufficient liquidity to meet its operational requirements for the next fiscal year, mitigating the Company's liquidity risk for the near term. All of the Company's financial liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms.

Fair Value Measurements

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, and
- Level 3 – Inputs that are not based on observable market data. The fair value of cash is determined based on Level 1 inputs, which consist of quoted prices in active markets for identical assets.

As at February 28, 2019 and May 31, 2018, the Company's financial instruments consist of cash, receivables, accounts payable and accrued liabilities. Cash and receivables are classified as amortized cost. Accounts payable and accrued liabilities are classified as amortized cost. The fair values of these financial instruments approximate their carrying values because of their short-term nature and/or the existence of market related interest rates on the instruments.

(Expressed in Canadian dollars)

11. CAPITAL MANAGEMENT

The Company's capital management objectives are to raise the necessary equity financing to fund its exploration projects and to manage the equity funds raised which best optimizes its exploration programs and the interests of its equity shareholders at an acceptable risk level.

In the management of capital, the Company includes items in shareholders' equity (deficiency) (excluding accumulated other comprehensive income) in the definition of capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may raise additional equity funds and acquire new exploration properties as circumstances dictate.

There were no changes in the Company's approach to capital management during the period ended February 28, 2019. The Company is not subject to externally imposed capital requirements.

12. SEGMENTED INFORMATION

The Company conducts all of its operations in one industry segment being the acquisition, exploration and development of resource properties. The Company's exploration and evaluation assets are all located in Canada.
