

Orezone Files NI 43–101 Technical Report for its Bomboré Gold Project

August 23, 2018 – Orezone Gold Corporation (TSXV–ORE) announces that it has filed an independent National Instrument (“NI”) 43–101 technical report entitled “Feasibility Study of the Bomboré Gold Project, Burkina Faso” with an effective date of July 9, 2018. The feasibility results were previously announced by the Company in a news release dated July 9, 2018.

A copy of the technical report is available on both SEDAR (www.sedar.com) and the Company’s website (www.orezone.com).

About Orezone Gold Corporation

Orezone is a Canadian company with a successful gold discovery track record and recent mine development experience in Burkina Faso, West Africa. The Company owns a 90% interest in Bomboré, a fully permitted, undeveloped oxide gold deposit in West Africa, which is situated 85 km east of the capital city, adjacent to an international highway.

For further information, please contact Orezone at +1 (778) 945–8977 or visit the Company’s website at www.orezone.com.
